AN ACT to amend the public health law, in relation to establishing the age-appropriate sex education grant program, to be referred to as the healthy teens act

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature finds and declares
2 that New York state's teen pregnancy rate, 59.2 per 1000 female 15-19
3 year olds as compared to the Healthy People 2010 goal of 43 cases per
4 1000 female 15-19 year olds falls far too short of the public health
5 expectation set by the Surgeon General. New York state had 40,000 teen
6 pregnancies in 2006. In addition, according to the centers for disease
7 control, 1 in 4 teenage girls has a sexually transmitted infection.
8 This is true in New York state as well. Current research documents that
9 individuals who receive early, comprehensive, age-appropriate, and
10 scientifically accurate education in the health and other benefits of
11 sexual abstinence, family planning, and birth control are more likely to
12 delay sexual activity and engage later in such activity with a higher
13 degree of responsibility and safety. Comprehensive sex education

1 programs which complement parental involvement and instruction respect
2 the diversity and values of our state and provide our youth at risk with
3 the foundation to make responsibly informed choices. The earlier such
4 programs are commenced on an age-appropriate curriculum basis, the more
5 responsible will be the sexual activity decisions.

6 Statistics within New York state communities show an increase in rates
7 of sexually transmitted diseases among adolescents over the past several
8 years. Adolescents are the fastest growing population of new HIV/AIDS
9 cases. These increases place greater demand on the state's health care
10 delivery system and require that we take immediate action and embark on
11 a dedicated mission to provide targeted at-risk adolescents with a more
12 concentrated sex education program with a significant parental compo-
13 nent, designed to inform and instruct them on abstinence, protection and
14 pregnancy prevention. Approximately 25 percent of new cases of sexually
15 transmitted diseases each year occur among teenagers and two-thirds of
16 such new cases occur among persons 15 to 24 years old. By age 24, at
17 least one in three sexually active persons are estimated to have had a
18 sexually transmitted disease. By way of example, the highest age-specif-
19 ic gonorrhea rates among women and the third highest rates among men are
20 in the 15 to 19 year old group.

21 It is the intent of the legislature that the age-appropriate sex
22 education grant program established in this act provide at-risk adoles-
23 cents with the information, assistance, skills and support to enable
24 them to make responsible decisions, including abstaining from sexual
25 intercourse and for those who do become sexually active, the use of
26 condoms or contraceptives effectively.

27 S 2. This act shall be known and may be cited as the "healthy teens
28 act".

29 S 3. The public health law is amended by adding a new article 14-A to
