Introduced by M. of A. THIELE -- read once and referred to the Committee on Local Governments

AN ACT to amend the general city law, the town law and the village law, in relation to establishing a temporary moratorium in matters of planning and zoning

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature hereby finds that many towns, villages and cities have enacted temporary moratoriums which prohibit landowners from making applications for otherwise permitted construction or land development, obtaining review of such applications or the issuance of some or all of the following: building permits, site plan approvals, special use permits, subdivision plats or zoning changes, and determinations by zoning boards of appeal. The legislature further finds that while the courts have sustained certain of these actions, there has been no explicit statutory authorization for these municipal moratoriums, which have been intended to benefit the community at large while impacting the property owners whose property interests are directly affected. The legislature declares that the absence of a statute authorizing and regulating the enactment of such moratoriums has created confusion and uncertainty as to the acceptable scope, duration, adoption, appeal procedures and applicability of such moratoriums. It is the legislature's intent to adopt a comprehensive detailed statutory scheme to authorize municipalities to enact local laws or ordinances that provide for municipal enactment of moratoriums of limited duration on the issuance of some or all of the following: building permits, site plan approvals, special use permits and subdivision plats, and to establish the purposes for which such moratoriums may be enacted, and to establish appropriate limitations on their scope and duration.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets [ ] is old law to be omitted.
