FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would add a new subdivision g to section five hundred twelve of the Education Law in order to provide a post-retirement death benefit for Tier 1 members in their first year of retirement. This benefit would equal three times the retired member's regular compensation earned during the last twelve months of service. Additionally, this bill would add a new subdivision h to section four hundred forty-eight and a new subdivision f to sections five hundred eight and six hundred six of the Retirement and Social Security Law in order to modify the current post-retirement death benefit for Tiers 2, 3 and 4 members. The post-retirement death benefit would equal 100% of the benefit in force at retire-

ment if death occurs in the first year of retirement, 50% of the benefit in force at retirement if death occurs in the second year of retirement, 25% of the benefit in force at retirement if death occurs in the third year of retirement, and 10% of the benefit in force at retirement, without regard to reductions for ages greater than 60, if death occurs in the fourth or later year of retirement. This benefit is also effective for currently retired members who die on or after June 30, 2009.

The annual cost to the employers of members of the New York State Teachers' Retirement System for this benefit is estimated to be \$16.8 million or .12% of payroll if this bill is enacted.

The source of this estimate is Fiscal Note 2009-2 dated October 15, 2008 prepared by the Actuary of the New York State Teachers' Retirement System and is intended for use only during the 2009 Legislative Session.
