AN ACT to amend the general obligations law, the civil practice law and rules and the public health law, in relation to holding health care organizations accountable for the consequences of their decisions

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings. The legislature finds that a wide variety of entities are integrating the functions of paying for health care, determining what health care is paid for, and providing the care. This integration of functions is breaking down traditional distinctions. Increasingly, payor determinations are governing health care and controlling decisions that in the past were the exclusive domain of health care professionals and patients. The legislature further finds that this integration of functions makes it imperative that health care organizations be held fully responsible for the consequences of their decisions, much as health care professionals have been held accountable for the consequences of their decisions.
