Introduced by M. of A. FIELDS -- read once and referred to the Committee on Consumer Affairs and Protection

AN ACT to amend the general business law, in relation to certain hotels, motels and motor courts with balconies

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and intent. The legislature finds and declares that public lodging accommodations with rental units that include balconies with railings containing balusters spaced more than four inches apart pose a threat to the safety of young children. The legislature further finds that parents of young children occupying rental units with such balconies should be made aware of the potential danger such balconies may pose to young children.

Therefore, it is the intent of the legislature to require hotel, motel and motor court operators with balconies that do not meet the current requirements set forth in the New York state uniform fire prevention and building code or building code of the city of New York, if applicable, to post a notice in informing lodgers of such condition. This legislation shall not be construed to mean that hotel, motel or motor court buildings lawfully grandfathered under the laws creating the New York state uniform fire prevention and building code and building code of the city of New York are in any way out of compliance with such codes.

S 2. This act shall be known and may be cited as "Sammy's law".
