25 [3] 2. A member must have at least five years of credited service
26 (not including service granted hereunder) to be eligible to receive
27 credit under this section.

28 [4] 3. To obtain such credit, a member shall pay such retirement
29 system, for deposit in the fund used to accumulate employer contrib-
30 utions, a sum equal to the product of the number of years of military
31 service being claimed and three percent of such member's compensation
32 earned during the twelve months of credited service immediately preced-
33 ing the date that the member made application for credit pursuant to
34 this section. If permitted by rule or regulation of the applicable
35 retirement system, the member may pay such member costs by payroll
36 deduction for a period which shall not exceed the time period of mili-
37 tary service to be credited pursuant to this section. In the event the
38 member leaves the employer payroll prior to completion of payment, he or
39 she shall forward all remaining required payments to the appropriate
40 retirement system prior to the effective date of retirement. If the full
41 amount of such member costs is not paid to the appropriate retirement
42 system prior to the member's retirement, the amount of service credited
43 shall be proportional to the total amount of the payments made prior to
44 retirement.

45 [5] 4. In no event shall the credit granted pursuant to this section,
46 when added to credit granted for military service with any retirement
47 system of this state pursuant to this or any other provision of law,
48 exceed a total of three years.

49 [6] 5. To be eligible to receive credit for military service under
50 this section, a member must make application for such credit before the
51 effective date of retirement. Notwithstanding the foregoing provisions
52 of this subdivision, an individual who retired on or after December
53 twenty-first, nineteen hundred ninety-eight and before the effective
54 date of this section may make application for credit pursuant to this
55 section within one year following the effective date of this section, in

1 which event, the cost to the retiree would be based on the twelve month
2 period immediately preceding retirement.

3 [7] 6. All costs for service credited to a member pursuant to this
4 section, other than the member costs set forth in subdivision three of
5 this section, shall be paid by the state and all employers which partic-
6 ipate in the retirement system in which such member is granted credit.

7 [8] 7. A member who has purchased military service credit pursuant to
8 section two hundred forty-four-a of the military law shall be entitled
9 to a refund of the difference between the amount paid by the member for
10 such purchase and the amount that would be payable if service had been
11 purchased pursuant to this section.

12 [9] 8. Notwithstanding any other provision of law, in the event of
13 death prior to retirement, amounts paid by the member for the purchase
14 of military service credit pursuant to this section shall be refunded,
15 with interest, to the extent the military service purchased with such
16 amounts does not produce a greater death benefit than would have been
17 payable had the member not purchased such credit.

18 Notwithstanding any other provision of law, in the event of retire-
19 ment, amounts paid by the member for the purchase of military service
20 credit pursuant to this section shall be refunded, with interest, to the
21 extent the military service purchased with such amounts does not produce
22 a greater retirement allowance than would have been payable had the
23 member not purchased such credit.

24 S 2. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, section 50:

This bill would allow up to three (3) years of service credit for military duty by removing all existing requirements that such military service be performed during certain war periods, during certain hostilities while in the theater of operations or upon the receipt of an expeditionary medal. However, the total service credit granted for active and peacetime military service shall not exceed three (3) years. The member would be required to make a payment of three percent of current compensation per year of additional service credit granted by this bill. Members must have at least five (5) years of credited service (not including military service).

Insofar as this bill affects the New York State and Local Employees' Retirement System and the New York State and Local Police and Fire Retirement System, if this bill were enacted there would be an estimated first year cost of approximately \$2.5 million to the State of New York, \$3 million to participating employers in the New York State and Local Employees' Retirement System and \$1.5 million to the participating employers in the New York State and Local Police and Fire Retirement System.

In addition to the above costs, there would be additional costs for future members of the Retirement System's who have such military service.

This estimate, dated April 16, 2009 and intended for use only during the 2009 Legislative Session, is Fiscal Note No. 2009-216, prepared by the Actuary for the New York State and Local Employees' Retirement System and the New York State and Local Police and Fire Retirement System.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend Article 20 of the Retirement and Social Security Law to allow members of public retirement systems of New York State to claim service credit for up to three years of military service, regardless of when it was performed. Currently members can receive service

credit for military service performed during specified periods of war. A member must have at least five years of credited service to be eligible and make application for such credit before the effective date of retirement. To obtain such credit, a member must deposit in the pension accumulation fund three percent of his or her current annual full-time rate of compensation per year of military service claimed. A member who retired on or after December 21, 1998 may apply for credit pursuant to this section within one year of the effective date of this act. This act shall take effect immediately, with any increase payable prospectively only.

The annual cost to the employers of members of the New York State Teachers' Retirement System for this benefit is estimated to be \$9.5 million or .06% of payroll if this bill is enacted.

The source of this estimate is Fiscal Note 2009-75 dated June 9, 2009 prepared by the Actuary of the New York State Teachers' Retirement System and is intended for use only during the 2009 Legislative Session.
