BENEDETTO, BOYLAND, BRADLEY, CLARK, COLTON, CRESPO, DelMONTE, DESTITO, EDDINGTON, ENGLEBRIGHT, FARRELL, GABRYSZAK, GALEF, GORDON, HEVESI, HYER-SPENCER, JACOBS, JAFFEE, JOHN, KOON, LANCMAN, LATIMER, LAVINE, LIFTON, MARKEY, PEOPLES, PHEFFER, REILLY, RUSSELL, SCHIMEL, SKARTADOS, SPANO, STIRPE, TITONE, TOWNS, WEINSTEIN -- read once and referred to the Committee on Energy

AN ACT to amend the public authorities law, in relation to establishing the "green jobs-green New York act of 2009"; and to amend the state finance law, in relation to establishing the green jobs-green New York fund

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Legislative findings. The legislature finds and declares  
2     that promoting widespread dissemination of energy conservation and clean  
3     energy technologies represents a clear and cost-effective strategy for  
4     communities in New York state to curtail the emission of greenhouse  
5     gases and harmful air contaminants, reducing dependence on fossil fuels,  
6     lowering housing costs, supporting community development and creating  
7     green jobs to sustain and enhance our economy. These jobs will provide  
8     meaningful employment opportunities for displaced workers, the long-term  
9     unemployed and new workforce entrants. Installation of energy efficiency  
10    improvements to reduce the loss or waste of energy will allow consumers  
11    to pay for these improvements through energy savings over a reasonable  
12    period of time. However, lack of affordable and accessible financing for  
13    many owners of residential properties, small businesses and non-profit  
14    organizations has hindered progress in fully realizing the promise of  
15    these technologies. Therefore, it is the intent of the legislature to  
16    enact a "Green Jobs-Green New York" program to perform energy-efficient  
17    retrofits at no initial cost to residential property owners, with the

ultimate goals of improving at least one million residential units over the next five years, creating thousands of new green jobs, training workers to fill them and demonstrating the effectiveness of innovative financing mechanisms in reaching this goal.
