FISCAL NOTE.--Pursuant to Legislative Law, Section 50: This proposed
legislation would amend Public Authorities Law Section 1738 to provide
certain employees of the New York City School Construction Authority

("SCA") an opportunity to buy back service credit for time while suspended for economy measures on and after December 1, 2002 until their return to such service prior to January 8, 2008.

It is the understanding of the Actuary that the opportunity to buy back service credit would be voluntary and this Fiscal Note reflects that understanding.

The Effective Date of the proposed legislation would be the date of enactment.

IMPACT ON MEMBERSHIP: The proposed legislation would cover those Tier IV members of the New York City Employees' Retirement System ("NYCERS") and the New York City Board of Education Retirement System ("BERS") employed by SCA who were suspended on or after December 1, 2002 and who returned to such service prior to January 8, 2008, including those who may have retired prior to the Effective Date (collectively, "Returning Furloughed Members").

The Returning Furloughed Members participate in one of the following plans:

Basic Plan - Unreduced Service Retirement at attainment of age 62 and completion of five years of credited service or Reduced Service Retirement after attainment of age 55 and completion of five years of credited service, or

55/25 Early Retirement Program - Unreduced Service Retirement at attainment of age 55 and completion of 25 years of credited service, or

57/5 Program - Unreduced Service Retirement at attainment of age 57 and completion of 5 years of credited service.

IMPACT ON MEMBER CONTRIBUTIONS: Returning Furloughed Members of NYCERS and BERS would be permitted to voluntarily buy back service credit for their periods of suspension. It is the understanding of the Actuary that this would be permitted at any time prior to retirement for active employees.

Those Returning Furloughed Members who retired, subsequent to reemployment, for Service Retirement or for Disability Retirement, would be permitted to voluntarily buy back service credit for their periods of suspension prior to retirement by filing within 120 days of the Effective Date.

The following amounts would be required to be paid by each Returning Furloughed Member for each period of suspension, including accrued interest at a rate of 5.0% per annum:

Basic Member Contributions ("BMC"):

A rate of 3.0% of salary per year, during the first 10 years of membership or to the date of 10 years of credited service, if earlier.

Additional Member Contributions ("AMC"):

For those participating in the 55/25 Early Retirement Program or the 57/5 Program, a rate of 1.85% of salary per year not to exceed 30 years.

Extra Member Contributions ("EMC"):

An amount, as determined by the Actuary, equivalent to the additional costs to the employer of providing retirement service credit for the period of suspension.

For active employees, the method of payment, including the amount of periodic deduction from payroll and the time period needed to purchase the suspension time, would be prescribed by the respective Executive Director and approved by the Board of Trustees for each of NYCERS and BERS.

For retirees who voluntarily elect to purchase service credits for their suspension time, the time period needed to purchase such service credits would be within one year of election.

The proposed legislation would also permit Returning Furloughed Members to make a lump sum payment equal to the balance owed on any BMC, AMC, and EMC to fully purchase such service credits.

EMC contributions would be considered employer contributions and would not be available for loan or refund.

IMPACT ON BENEFITS: The proposed legislation, if enacted, would permit Returning Furloughed Members to voluntarily acquire service credits for their periods of suspension.

Once acquired, these additional service credits would result in a Returning Furloughed Member having a greater retirement allowance and possibly an earlier vesting date, an earlier retirement date and other advantages.

In the event a Returning Furloughed Member were to terminate employment prior to completing the purchase of service credits for the entire suspension period, then the amount of service credited for such suspension period would be prorated based on the amount of layoff time considered purchased.

FINANCIAL IMPACT - EMPLOYER COST: The ultimate cost of a pension plan is the benefits it pays. The financing of that ultimate cost depends upon the amounts deposited by the employer and employee, the investment return and the actuarial assumptions and methods employed.

Under the proposed legislation any additional retirement benefit costs to purchase service credits for suspension time are intended to be borne by the members.

Thus, the enactment of the proposed legislation would be expected to be cost neutral to the City of New York and would not be expected to increase employer costs to NYCERS or BERS.

Thus, any increase in benefits after crediting service for suspension time would be paid for in full by the BMC, AMC and EMC of Returning Furloughed Members.

FINANCIAL IMPACT - EMPLOYER CONTRIBUTIONS: If the proposed legislation were enacted during the 2009 Legislative Session after June 30, 2009 and prior to June 30, 2010, there would be no expected change in employer contributions to NYCERS or to BERS for Fiscal Year 2010 or after.

OTHER COSTS: Not measured in this Fiscal Note are any other possible non-retirement benefit costs such as increased administrative costs or additional medical costs or increases in the costs of certain Other Post-Employment Benefits ("OPEB") attributable to the potential earlier retirements of Returning Furloughed Members.
