## SENATE-ASSEMBLY

## (PREFILED)

January 6, 2010

- IN SENATE -- Introduced by Sen. THOMPSON -- read twice and ordered printed, and when printed to be committed to the Committee on Insurance
- IN ASSEMBLY -- Introduced by M. of A. PEOPLES-STOKES -- read once and referred to the Committee on Insurance
- AN ACT to amend the insurance law, the workers' compensation law and the tax law, in relation to establishing environmental standards and protections in the insurance business, and providing incentives and tax credits for offering green insurance

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Legislative findings. The legislature finds and declares 1 Section 1. 2 that global warming poses a serious threat to the economic well-being, 3 public health, natural resources, and environment of the state of New 4 York. The potential adverse impacts of global warming include the exacerbation of air quality problems, a reduction in the quality and 5 б supply of water to the state, damage to marine ecosystems and the 7 natural environment, an increase in the incidences of infectious diseases, asthma, and other human health-related problems, and an 8 9 increase in the occurrence and severity of natural catastrophes. Global 10 warming will have detrimental effects on some of the state of New York's 11 largest industries, including the insurance industry. It will also 12 increase the strain on energy and natural resources necessary to rebuild 13 and restore property after losses.

The legislature finds that by increasing incentives for the use of low-emission vehicles, reduced driving, the building of "green buildings," investments in renewable energy projects, and the conservation of natural resources, the insurance industry can help reduce greenhouse gas emissions. National and international actions are necessary to fully address the issue of global warming. However, actions taken by the state of New York to reduce emissions of greenhouse gases will have far-reach-

1 ing effects by encouraging other states, the federal government, and 2 other countries to act.

3 It is the intent of the legislature that the superintendent of insur-4 ance coordinate with state agencies, as well as consult with the envi-5 ronmental justice community, industry sectors, business groups, academic 6 institutions, environmental organizations, and other stakeholders in 7 implementing this act.

8 It is the intent of the legislature that the superintendent of insur-9 consult with the public service commission and the department of ance 10 environmental conservation in the development of emissions standards for 11 low-emission vehicles for insurance rating purposes, and in the development of green building standards for insurance rating purposes in a 12 manner that minimizes costs and maximizes benefits for the state of New 13 14 York's economy, improves and modernizes the state of New York's energy 15 infrastructure and maintains electric system reliability, maximizes additional environmental and economic cobenefits for the state of New 16 17 York, and complements the state's efforts to protect the natural envi-18 ronment and reduce global warming.

19 It is also the intent of the legislature to provide an incentive in 20 the form of New York state tax credits to attract much needed additional 21 private capital investments. It is the expectation of the legislature 22 that these new investment dollars shall be used for the direct benefit 23 of the natural environment and renewable energy sources in the state of 24 New York.
