For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law.
Notwithstanding any inconsistent provisions of sections 2807-k and 2807-w of the public health law or any other contrary provision of law, and subject to the availability of federal financial participation, for the period April 1, 2010 through March 31, 2011, payments shall be made to general hospitals in accordance with the following:
(a) for the period April 1, 2010 through June 30, 2010 payments shall be made to general hospitals in accordance with the provisions of sections 2807-k and 2807-w

of the public health law as in effect on March 31, 2010; and

(b) for the period July 1, 2010 through March 31, 2011 payments totaling $728,250,000 shall be made as follows:

(i) medicaid disproportionate share hospital (DSH) payments to major public general hospitals, including hospitals operated by public benefit corporations, shall be made in amounts reflecting 75 percent of the projected distributions otherwise authorized for such facilities pursuant to the provisions of section 2807-k of the public health law; and

(ii) $18,750,000 shall be distributed as medicaid DSH payments to hospitals eligible for payments made pursuant to subparagraph (iv) of paragraph (a) of subdivision 5-b of section 2807-k of the public health law, based upon each facility's proportion of uninsured losses, as defined in paragraph (c) of subdivision 5-a of section 2807-k of the public health law, to such loses for all hospitals eligible for such payments; and

(iii) $12,000,000 shall be distributed in accordance with the provisions of subparagraph (iii) of paragraph (a) of subdivision 5-b of section 2807-k of the public health law; and

(iv) $75,000,000 shall be distributed as medicaid DSH payments to eligible general hospitals, other than major public general hospitals, pursuant to a formula such that, to the extent of funds available, no eligible general hospital's reduction in payments as a result of the application of the provisions of this subdivision exceeds, on an annualized basis, a percentage reduction, as determined by the commissioner, from the projected distributions such hospital would have received pursuant to sections 2807-k and 2807-w of the public health law for the 2010 calendar year. Such payments shall be distributed to eligible general hospitals on a proportional basis, based on the degree of each such general hospital's projected reduction in distribution; and

(v) the balance of the funds not otherwise allocated pursuant to subsection (b) of this section shall be distributed propor-

tionally as medicaid DSH payments to eligible general hospitals, other than major public general hospitals, on the basis of each facility's uncompensated care need share, as determined in accordance with the scale set forth in subsection (b)(vi) of this section; and

(vi) the scale utilized for development of each eligible general hospital's uncompensated care need share payment amount, as computed in accordance with the provisions of paragraph (c) of subdivision 5-a of section 2807-k of the public health law, shall be as follows, provided, however, that the reduction described in subparagraph (iii) of paragraph (c) of subdivision 5-a of section 2807-k of the public health law shall be computed as 10 percent.

(c) Notwithstanding section 112 or 163 of the state finance law or any other law, rule or regulation to the contrary, the commissioner of health may contract with a vendor for consideration to develop the specifications for the diagnosis-related groups methodology as provided for in this section if the commissioner of health certifies to the state comptroller that such contract is in the best interest of the health of the people of the state. The commissioner of health shall be provided with copies of all such resolutions and reports; and

(e) Inpatient rate adjustments made pursuant to paragraphs (a) through (c) of this section shall result in a net statewide decrease in aggregate medicaid payments of no less than $75,000,000 for the period December 1, 2009 through March 31, 2010; and

(f) If the commissioner of health determines that federal financial participation will not be available with regard to the provisions of paragraph (d)(ii) herein, the commissioner of health may deem such provision null and void and instead may allocate payments proportionally, based on each eligible facility's relative share of medicaid inpatient discharges in the year two years prior to the distribution year; and

(g) Provided, however, if this chapter appropriates sufficient additional funds to support payments for general hospital inpatient services using the methodology in existence on February 28, 2009 as set forth in section 2807-c of the public health law, the provisions of this section shall not apply and shall be considered null and void as of February 28, 2009.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary and contingent on the availability of federal financial participation, for the period commencing July 1, 2008 through March 31, 2009, up to $60,000,000 of this appropriation, subject to the approval of the director of the budget, will be available for the purpose of increasing outpatient medical assistance rates of payment for general hospital outpatient services, general hospital emergency services, and ambulatory surgery services provided by a hospital as defined by subdivision 1 of section 2801 of the public health law.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary and contingent on the availability of federal financial participation, for the period commencing July 1, 2008 through March 31, 2009, up to $24,000,000 of this appropriation, subject to the approval of the director of the budget, will be available for the purpose of increasing medical assistance reimbursement for physician services, diagnostic and treatment centers, and funding for primary care enhancements.

Notwithstanding any contrary provision of law, for the period April 1, 2008 through March 31, 2009, the operating cost component of rates of payment by governmental agencies for inpatient services provided by residential health care facilities shall reflect the operating cost component of rates effective for October 1, 2006 for each facility, as adjusted for inflation by application of 75 percent of the inflation factor attributed to the period January 1, 2008 through December 31, 2008 computed in accordance with paragraph (c) of subdivision 10 of section 2807-c of the public health law, provided, however, that such rates shall be further adjusted by a per diem add-on amount, as determined by the commissioner of health, reflecting the proportional amount of each facility's projected medicaid benefit to the total projected medicaid benefit for all facilities of the imputed use of the rate-setting methodology set forth in paragraph (b) of subdivision 2-b of section 2808 of the public health law, provided, however, that the rates for those facilities that do not qualify for such a per diem add-on adjustment shall be further adjusted to include the proportionate benefit, as determined by the commissioner of health, of the expiration of the opening paragraph and paragraph (a) of subdivision 16 of section 2808 of the public health law and of paragraph (a) of subdivision 14 of section 2808 of the public health law, and provided further, however, that the aggregate total of such per diem rate adjustments shall not exceed $144,000,000, and provided further, however, that revisions to 2006 rates occurring on and after January 1, 2007, shall be incorporated into rates in effect for the period April 1, 2008 through March 31, 2009, and provided further, however, that the capital cost component of such rates shall fully reflect the cost of local property taxes and payments made in lieu of local property

Notwithstanding any inconsistent provision of law or regulation, for purposes of establishing rates of payment by governmental agencies for certified home health agencies for the period April 1, 2008 through March 31, 2009, the reimbursable base year administrative and general costs for those certified home health agencies with annual expenses in excess of $10,000,000, as determined using the reported base year cost data used to establish the statewide average administrative and general cost ceiling for the applicable rate year, shall not exceed the lower of such statewide average or 20 percent of each such agency's total reimbursable base year costs; provided however, if this chapter appropriates sufficient additional funds to support reimbursement of certified home health agency for the period April 1, 2008 through March 31, 2009, using the methodology set forth in subdivision 2-a of section 3614 of the public health law as in effect on March 31, 2008, such methodology shall continue in effect for the period April 1, 2008 through March 31, 2009 and the provisions of this section shall not apply and shall be considered null and void as of March 31, 2008.

Notwithstanding any inconsistent provision of law, rule or regulation, for purposes of establishing rates of payment by governmental agencies for long term home health care programs for the period April 1, 2008 through March 31, 2009, the reimbursable base year administrative and general costs for those providers with annual expenses in excess of $10,000,000, as determined using the reported base year cost data used to establish the statewide average administrative and general ceiling for the applicable rate year, shall not exceed the lower of such statewide average or 20 percent of each such provider's total reimbursable base year costs; provided however, if this chapter appropriates sufficient additional funds to support reimbursement of certified home health agency administrative and general costs for the period April 1, 2008 through March 31, 2009, using the methodology set forth in subdivision 7-a of section 3614

of the public health law as in effect on March 31, 2008, such methodology shall continue in effect for the period April 1, 2008 through March 31, 2009 and the provisions of this section shall not apply and shall be considered null and void as of March 31, 2008.

The moneys hereby appropriated are to be available for payment of aid heretofore accrued or hereafter to accrue to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational, shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, office of mental retardation and developmental disabilities, the office of alcoholism and substance abuse services, the department of family assistance office of temporary and disability assistance, office of children and family services, and state office for the aging with the approval of the

director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any inconsistent provision of law, rule or regulation, and contingent on the availability of federal financial participation, for the period commencing April 1, 2007 through March 31, 2008, in order to reimburse public and non-public general hospitals for graduate medical education costs, the commissioner of health shall adjust such hospitals' inpatient medical assistance rates of payment established pursuant to section 2807-c of the public health law, including discrete rates of payment calculated pursuant to paragraph (a-3) of subdivision 1 of section 2807-c of the public health law, in accordance with the methodology set forth in subparagraph (ii) of paragraph (d) of subdivision 25 of section 2807-c of the public health law used to calculate rate adjustments for nonpublic general hospitals for periods prior to April 1, 2007; provided, however, the 75 percent limit set forth in clause (C) of subparagraph (ii) of paragraph (d) of subdivision 25 of section 2807-c of the public health law shall not apply to rate decreases calculated pursuant to this paragraph and no public general hospital shall receive a rate increase calculated pursuant to this paragraph. Provided however, if this chapter appropriates sufficient additional funds to support reimbursement of graduate medical education for the period April 1, 2007 through March 31, 2008, using the methodology set forth in paragraph (d) of subdivision 25 of section 2807-c of the public health law as in effect on March 31, 2007, such methodology shall continue in effect for the period April 1, 2007 through March 31, 2008 and the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2007.

Notwithstanding any inconsistent provision of law or regulation to the contrary, residential health care facility rates of payment determined pursuant to article 28 of the public health law for services provided on and after April 1, 2007 through March 31, 2008, except for the establishment of any statewide or any peer group base, mean, or ceiling prices per day, shall be calculated utilizing only the number of residents properly assessed and reported in each patient

classification group and eligible for medical assistance pursuant to title 11 of article 5 of the social services law. Provided, however, if this chapter appropriates sufficient additional funds to support fully for the period of April 1, 2007, through March 31, 2008, using the methodology for computing the operating component of such rates of payment as in effect on March 31, 2007, such methodology for computing the operating component shall continue in effect for the period April 1, 2007, through March 31, 2008, and the provisions of this appropriation as set forth in this paragraph shall not be utilized.

Notwithstanding paragraph (c) of subdivision 10 of section 2807-c of the public health law, subdivision 2-b of section 2808 of the public health law, and section 21 of chapter 1 of the laws of 1999 and any other inconsistent provision of law or regulation to the contrary, in determining rates of payment by state governmental agencies effective for services provided on and after April 1, 2007 through March 31, 2008 and thereafter for inpatient and outpatient services provided by general hospitals and for inpatient services and outpatient adult day health care services provided by residential health care facilities pursuant to article 28 of the public health law, the commissioner of health shall apply no trend factor projections attributable to the period January 1, 2007 through December 31, 2007. The commissioner of health shall adjust rates of payment to reflect the exclusion of such specified trend factor projections or adjustments.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2007 through March 31, 2008, no prior authorization shall be required under the preferred drug program for: atypical anti-psychotics; anti-retrovirals used in the treatment of HIV/AIDS; anti-rejection drugs used for the treatment of organ and tissue transplants; or any other therapeutic class for the treatment of mental illness or HIV/AIDS, recommended by the committee and approved by the commissioner under section 272 of the public health law. The committee may consider and recommend the inclusion of the therapeutic class of anti-depressants in the preferred drug program. Such recommendation may be adopted by the commissioner only after consultation with, and consideration of the recommendation of, the commissioner of the office of mental health. Provided, however, if this chapter appropriates sufficient additional funds to support a preferred drug program as defined pursuant to the exemptions set forth in subdivision 12 of section 272 of the public health law as in effect on March 31, 2007, such exemptions for the preferred drug program shall continue in effect for the period April 1, 2007 through March 31, 2008 and the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2007.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2007 through March 31, 2008, the commissioner of health shall provide 10 days public notice on the department of health's website prior to any meeting of the pharmacy and therapeutics committee to develop recommendations concerning the preferred drug program; the commissioner shall

provide notice of any recommendations developed by such committee regarding the preferred drug program, at least 10 days before any final determination by the commissioner, by making such information available on the department's website; within a reasonable time after a final determination regarding the preferred drug program, the commissioner shall provide public notice on the department's website of such determinations, including: the nature of the determination; an analysis of the impact of the commissioner's determination on state public health plan populations and providers; and the projected fiscal impact to the state public health plan programs of the commissioner's determination. Provided, however, if this chapter appropriates sufficient additional funds to support a preferred drug program as defined pursuant to the public notice requirements set forth in subdivisions 7, 8 and 9 of section 272 of the public health law as in effect on March 31, 2007, such public notice requirements for the preferred drug program shall continue in effect for the period April 1, 2007 through March 31, 2008 and the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2007.

Notwithstanding paragraph (c) of subdivision 3 of section 2807-c of the public health law and any inconsistent provision of law, rule or regulation to the contrary, for the period January 1, 2008 through March 31, 2008, adjustments to medical assistance rates of payment for rate periods on and after January 1, 2008, made pursuant to paragraph (c) of subdivision 3 of section 2807-c of the public health law shall, upon a determination by the commissioner of health and the director of the budget that such adjustments shall result in an aggregate increase in total medicaid payments to general hospitals for inpatient services, make such proportional adjustments to such rates of payments as are necessary to reduce such total aggregate payments to an aggregate total that reflects no such increase, provided, however, if this chapter appropriates sufficient additional funds to fully fund such increase, the provisions of this paragraph shall not apply and shall be considered null and void as of January 1, 2008.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, in determining the medical assistance eligibility of an institutionalized individual for the period April 1, 2006 through March 31, 2007, any transfer of an asset by the individual or the individual's spouse for less than fair market value made within or after the look-back period shall render the individual ineligible for nursing facility services for the period of time specified in law. The purchase of an annuity shall be treated as the disposal of an asset for less than fair market value unless: the state is named as the beneficiary in the first position for at least the total amount of medical assistance paid on behalf of the annuitant, or the state is named in the second position after a community spouse or minor or disabled child and is named in the first position if such spouse or a representative of such child disposes of any such remainder for less than fair market value; and the annuity meets the requirements of section 1917(c)(1)(G) of the federal social security act. The commissioner of health shall develop a hardship waiver process which shall include a timely process for determining whether an undue hardship waiver will be granted and a timely process under which an adverse determination can be appealed. The commissioner of health shall provide notice of the hardship waiver process in writing to those individuals who are required to comply with the transfer of assets provision under this section. If such an individual is an institutionalized individual, the facility in which he or she is residing shall be permitted to file an undue hardship waiver application on behalf of such individual with the consent of the individual or the personal representative of the individual.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary for the period April 1, 2006 through March 31, 2007,

any transfer made by an individual or the individual's spouse for less than fair market value shall cause the person to be ineligible for services for a period equal to the total, cumulative uncompensated value of all assets transferred during or after the look-back period, divided by the average monthly costs of nursing facility services provided to a private patient for a given period of time at the time of application, as determined pursuant to the regulations of the department. The average monthly costs of nursing facility services to a private patient for a given period of time at the time of application shall be presumed to be one hundred twenty percent of the average medical assistance rate of payment as of the first day of January of each year for nursing facilities within the region where the applicant resides, as established pursuant to paragraph (b) of subdivision sixteen of section twenty-eight hundred seven-c of the public health law. The period of ineligibility shall begin the first day of a month during or after which assets have been transferred for less than fair market value, or the first day the otherwise eligible individual is receiving services for which medical assistance coverage would be available based on an approved application for such care but for the transfer of assets for less than fair market value, whichever is later, and which does not occur in any other periods of ineligibility under this paragraph.
