IN SENATE

February 6, 2009

Introduced by Sen. FARLEY -- read twice and ordered printed, and when printed to be committed to the Committee on Investigations and Government Operations

AN ACT to amend the legislative law and the insurance law, in relation to mandated health insurance benefits

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Millions of New Yorkers, many of whom are employed, are uninsured. Many persons who would otherwise purchase individual coverage are precluded from doing so because of the cost. Numerous factors can be tied to the escalating cost of health insurance such as the aging population, technological advances, the cost of malpractice insurance and the unknown cost of mandated benefits and services.

Therefore, the legislature declares that no bills which mandate a particular benefit or service shall be considered by a standing committee until a full assessment, by the New York state insurance department, is made of the impact of the proposed mandated benefit. Further, the legislature directs the superintendent of insurance to undertake a study of existing health insurance mandates, concentrating on several specific aspects and possible consequences of mandated benefits and services.
