IN SENATE -- Introduced by Sen. LAVALLE -- read twice and ordered printed, and when printed to be committed to the Committee on Veterans, Homeland Security and Military Affairs

IN ASSEMBLY -- Introduced by M. of A. RAMOS -- Multi-Sponsored by -- M. of A. MARKEY, ORTIZ -- read once and referred to the Committee on Economic Development, Job Creation, Commerce and Industry

AN ACT to amend the executive law, in relation to providing for the regulation of the sale, use and storage of nitric acid; and to amend the penal law, in relation to disseminating material on the manufacture of an explosive

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds that while
2 there are important uses for substances like nitric acid, it is impor-
3 tant that we safeguard these substances in order to prevent them from
4 being used to harm both people and property. Nitric acid can be used to
5 cause harmful explosions and its use carries the ability, if fallen in
6 the wrong hands, of resulting in massive destruction.
7 Currently, the sale of nitric acid is not regulated on an appropriate
8 level. Retailers are not required to check the identification of the
9 buyers when selling them nitric acid. They are also not required to
10 maintain records of the sale. This act would require that retailers
11 check the identification of buyers purchasing nitric acid and record
12 their name and address.
13 In addition, there are no standard rules or requirements maintaining
14 the security of nitric acid in academia. While this act does not hinder
15 the important academic work that surrounds the use of nitric acid in
16 colleges, universities and even high schools, it would provide a set
17 standard ensuring we do our part in not allowing our academic insti-
18 tutions to become tools for potential terrorists.

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets
[] is old law to be omitted.

1 Finally, while the advent of the internet has provided us countless
2 benefits, it has also increased the threat we face from people looking
3 to harm Americans, using information widely available on the web. This
4 act bans websites that provide guides on taking nitric acid and turning
5 it into explosives.

6 S. 2. The executive law is amended by adding a new section 716 to read
7 as follows:
