20 have become a law and shall expire and be deemed repealed July 1, 2010;
21 provided, however, that the amendment to the retirement and social secu-
22 rity law, made by section two of this act, shall not affect the expira-
23 tion of and shall expire on the same date as article 15 of such law
24 expires pursuant to section 615 of the retirement and social security
25 law.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend the Retirement and Social Security Law in relation to heart disease related disabilities. It would add a "heart presumption" for peace officers of the Division of Parole who are members of the New York State and Local Employees' Retirement System. The presumption would help individuals who sustained a job related accident establish that their heart disability is the natural and proximate result of such accident. The accidental disability benefit would be 75% of final average salary less worker's compensation.

If this bill is enacted, it could increase benefits from 1/3 of final average salary to 3/4 of final average salary, less worker's compensation. We anticipate that very few members would receive increased benefits under this proposal, since the member would have to prove that such heart related disability was the result of an accident. The estimated increase in the annual contributions for the State of New York would be approximately \$88,000.

These estimated costs are based on one thousand one hundred fifty-seven (1157) members having a total annual salary for the fiscal year ending March 31, 2008 of approximately \$80 million.

This estimate, dated December 1, 2008 and intended for use only during the 2009 Legislative Session, is Fiscal Note No. 2009-46, prepared by the Actuary for the New York State and Local Employees' Retirement System.
