2009-2010 Regular Sessions

I N   S E N A T E

June 8, 2009

---

Introduced by Sen. DILAN -- read twice and ordered printed, and when printed to be committed to the Committee on Rules

AN ACT to amend the environmental conservation law, in relation to the use of ultra low sulfur diesel fuel and best available technology by the state

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Section 19-0323 of the environmental conservation law, as  
2     added by chapter 629 of the laws of 2006, is amended to read as follows:  
3     S 19-0323. Use of ultra low sulfur diesel fuel and best available tech-  
4                    nology by the state.  
5     1. As used in this section, the terms:  
6     a. "Ultra low sulfur diesel fuel" means diesel fuel having sulfur  
7     content of 0.0015 per cent of sulfur or less.  
8     b. "Heavy duty vehicle" or "vehicle" means any on and off-road vehicle  
9     powered by diesel fuel and having a gross vehicle weight of greater than  
10    8,500 pounds, except that those vehicles defined in section 101 of the  
11    vehicle and traffic law, paragraph 2 of schedule E and paragraph (a) of  
12    schedule F of subdivision 7 of section 401 of such law, and vehicles  
13    specified in subdivision 13 of section 401 of such law, and farm type  
14    tractors and all terrain type vehicles used exclusively for agricultural  
15    or mowing purposes, or for snow plowing, other than for hire, farm  
16    equipment, including self-propelled machines used exclusively in grow-  
17    ing, harvesting or handling farm produce, and self-propelled caterpillar  
18    or crawler-type equipment while being operated on the contract site, and  
19    timber harvesting equipment such as harvesters, wood chippers, forward-  
20    ers, log skidders, and other processing equipment used exclusively off  
21    highway for timber harvesting and logging purposes, shall not be deemed  
22    heavy duty vehicles for purposes of this section. This term shall not  
23    include vehicles that are specially equipped for emergency response by

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets  
[ ] is old law to be omitted.

LBD14177-01-9

1 the department, office of emergency management, sheriff's office of the  
2 department of finance, police department or fire department.

3 c. "Best available retrofit technology" means technology, verified by  
4 the United States environmental protection agency for reducing the emis-  
5 sion of pollutants that achieves reductions in particulate matter emis-  
6 sions at the highest classification level for diesel emission control  
7 strategies that is applicable to the particular engine and application.  
8 Such technology shall also, at a reasonable cost, achieve the greatest  
9 reduction in emissions of nitrogen oxides at such particulate matter  
10 reduction level and shall in no event result in a net increase in the  
11 emissions of either particulate matter or nitrogen oxides.

12 d. "Reasonable cost" means that such technology does not cost greater  
13 than 30 percent more than other technology applicable to the particular  
14 engine and application that falls within the same classification level  
15 for diesel emission control strategies, as set forth in paragraph c of  
16 this subdivision, when considering the cost of the strategies, them-  
17 selves, and the cost of installation.

18 E. "USEFUL LIFE" MEANS THE PERIOD OF PROBABLE USEFULNESS FOR WHICH  
19 INDEBTEDNESS WAS INCURRED FOR A VEHICLE AS ESTABLISHED IN APPLICABLE  
20 STATE FINANCE LAW OR LOCAL FINANCE LAW, REFLECTED IN THE PERIOD FOR  
21 WHICH INDEBTEDNESS WAS INCURRED BY THE OWNER OF THE VEHICLE.

22 2. Any diesel powered heavy duty vehicle that is owned by, operated by  
23 or on behalf of, or leased by a state agency and state and regional  
24 public authority shall be powered by ultra low sulfur diesel fuel.

25 3. Any diesel powered heavy duty vehicle that is owned by, operated by  
26 or on behalf of, or leased by a state agency and state and regional  
27 public authority with more than half of its governing body appointed by  
28 the governor shall utilize the best available retrofit technology for  
29 reducing the emission of pollutants. The commissioner shall promulgate  
30 regulations for the implementation of this subdivision specifying proce-  
31 dures for compliance according to the following schedule:

32 a. Not less than 33% of the vehicles covered by this subdivision shall  
33 have best available retrofit technology on or before December 31, 2008.

34 b. Not less than 66% of the vehicles covered by this subdivision shall  
35 have best available retrofit technology on or before December 31, 2009;  
36 PROVIDED THAT SUCH VEHICLES ARE NOT WITHIN THREE YEARS OF THE END OF  
37 THEIR USEFUL LIFE AND SHALL CEASE TO BE OPERATED UPON THE END OF SUCH  
38 USEFUL LIFE.

39 c. [All] THE REMAINDER OF vehicles covered by this subdivision shall  
40 have best available retrofit technology on or before December 31, 2010;  
41 PROVIDED THAT SUCH VEHICLES ARE NOT WITHIN THREE YEARS OF THE END OF  
42 THEIR USEFUL LIFE AND SHALL CEASE TO BE OPERATED UPON THE END OF SUCH  
43 USEFUL LIFE. PROVIDED FURTHER THAT ALL VEHICLES COVERED BY THIS SUBDIVI-  
44 SION SHALL HAVE BEST AVAILABLE RETROFIT TECHNOLOGY ON OR BEFORE DECEMBER  
45 31, 2012.

46 This subdivision shall not apply to any vehicle subject to a lease or  
47 public works contract entered into or renewed prior to the effective  
48 date of this section.

49 4. In addition to other provisions for regulations in this section,  
50 the commissioner shall promulgate regulations as necessary and appropri-  
51 ate to carry out the provisions of this act including but not limited to  
52 provision for waivers upon written finding by the commissioner that (a)  
53 best available retrofit technology for reducing the emissions of pollu-  
54 tants as required by subdivision 3 of this section is not available for  
55 a particular vehicle or class of vehicles and (b) that ultra low sulfur  
56 diesel fuel is not available.

1     5. This section shall not apply where federal law or funding precludes  
2 the state from imposing the requirements of this section.

3     6. On or before January 1, 2008 and every year thereafter, the commis-  
4 sioner shall report to the governor and legislature on the use of ultra  
5 low sulfur diesel fuel and the use of the best available retrofit tech-  
6 nology as required under this section. The information contained in this  
7 report shall include, but not be limited to, for each state agency and  
8 public authority covered by this section: (a) the total number of diesel  
9 fuel-powered motor vehicles owned or operated by such agency and author-  
10 ity; (b) the number of such motor vehicles that were powered by ultra  
11 low sulfur diesel fuel; (c) the total number of diesel fuel-powered  
12 motor vehicles owned or operated by such agency and authority having a  
13 gross vehicle weight rating of more than 8,500 pounds; (d) the number of  
14 such motor vehicles that utilized the best available retrofit technolo-  
15 gy, including a breakdown by motor vehicle model, engine year and the  
16 type of technology used for each vehicle; (e) the number of such motor  
17 vehicles that are equipped with an engine certified to the applicable  
18 2007 United States environmental protection agency standard for particu-  
19 late matter as set forth in section 86.007-11 of title 40 of the code of  
20 federal regulations or to any subsequent United States environmental  
21 protection agency standard for particulate matter that is at least as  
22 stringent; and (f) all waivers, findings, and renewals of such findings,  
23 which, for each waiver, shall include, but not be limited to, the quan-  
24 tity of diesel fuel needed to power diesel fuel-powered motor vehicles  
25 owned or operated by such agency and authority; specific information  
26 concerning the availability of ultra low sulfur diesel fuel.

27     7. The department shall, to the extent practicable, coordinate with  
28 regions which have proposed or adopted heavy duty emission inspection  
29 programs to promote regional consistency in such programs.

30     S 2. This act shall take effect immediately.
