Introduced by Sen. ADDABBO -- read twice and ordered printed, and when printed to be committed to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to enacting the "monk parakeet protection act"

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature finds that the monk
2 parakeet has been existing in a wild, undomesticated state in New York
3 since the late 1960s. The ancestors of the current flocks are believed
4 to have been imported legally into the United States from their native
5 land in Argentina. Since then, monk parakeets have established colonies
6 in parts of New York city and lower Westchester county. Their colonies
7 are small, and the population of monk parakeets seems to be rather
8 stabilized over the past 20 years. It is estimated that there are less
9 than 1,000 wild monk parakeets in the state of New York. Reports of
10 poaching and less than humane regard for nesting sites have led to the
11 need for formal protection of this species, which is recognized as non-
12 native, but not currently categorized as invasive, according to the
13 report Regulatory System for Non-native Species (New York Invasive
14 Species Council, 2010). The purpose of this act is to protect the wild
15 monk parakeet (a/k/a Quaker parakeet), the parrot species *Myiopsitta*
16 *monachus*, living in a wild state in various parts of the state of New
17 York. This act shall also provide humane methods of relocation or
18 removal, especially where threat to human life, private or public prop-
19 erty, or agricultural concerns, are imminent.

20 S 2. This act shall be known and may be cited as the "monk parakeet
21 protection act."

22 S 3. Article 11 of the environmental conservation law is amended by
23 adding a new title 27 to read as follows:

24 TITLE 27
25 MONK PARAKEET PROTECTION ACT

26 SECTION 11-2701. DEFINITIONS.
