IN ASSEMBLY

March 17, 2010

Introduced by M. of A. KOON, LIFTON, BURLING, BACALLES -- read once and referred to the Committee on Real Property Taxation

AN ACT to prohibit local assessors from increasing the assessed value of real property based on the stumpage value of the trees thereon and to establish the forestland taxation task force; and providing for the repeal of such provisions upon the expiration thereof

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings. The legislature hereby finds and declares that in light of significant increases in real property taxes in many parts of the state, due to a variety of factors including but not limited to increases in market value of real property, growth in school and local spending, a declining commercial and industrial tax base, and assessment valuation practices which may not accurately reflect the actual value of timber, that now more than ever an increasing proportion of lands in the state devoted to the growth of forest crops are assessed at a level which renders the continued dedication to such use uneconomical. It is the purpose of this act to chart a path by which present and future forest lands may be protected and enhanced as a viable segment of the state's economy, and as an environmental resource.
