(i) The computation of a case mix neutral statewide base price applicable to each rate period, but excluding adjustments for graduate medical education costs, high cost outlier costs and cost related to patient transfers, and as may be periodically adjusted to reflect changes in provider coding patterns and case-mix; and

(ii) Only those 2005 base year costs which relate to the cost of services provided to medicaid inpatients, as determined by the applicable ratio of costs to charges methodology, shall be utilized for rate-setting and case-mix purposes;

(iii) Such rates shall reflect the application of hospital specific wage equalization factors and power equalization factors reflecting differences in wage rates and utility costs;

(iv) Such rates shall reflect the utilization of the all patient refined (APR) case mix methodology, utilizing diagnostic related groups with assigned weights that incorporate differing levels of severity of patient condition and the associated risk of mortality, and as may be periodically updated by the commissioner of health;

(v) Such regulations may incorporate quality related measures pertaining to potentially preventable complications and readmissions;

(vi) Such regulations shall address adjustments based on the costs of high cost outlier patients;

(vii) Such rates shall continue to reflect trend factor adjustments as otherwise provided in paragraph (c) of subdivision 10 of section 2807-c of the public health law;

(viii) Such rates shall not include any adjustments pursuant to subdivision 9 of section 2807-c of the public health law;

(x) Administrative rate appeals shall be permitted only with regard to: (A) the correction of computational errors or omissions of data, including with regard to the hospital specific computations pertaining to graduate medical education, wage equalization factor adjustments and power equalization factor adjustments, and (B) capital cost reimbursement.
(xi) Rates for teaching general hospitals shall include reimbursement for direct and indirect graduate medical education and the commissioner of health shall specify the reports and information required to assess the cost, quality and health system needs for medical education provided; and
(b) The provisions of this section shall not apply to those general hospitals or distinct units of general hospitals whose inpatient reimbursement does not, as of November 30, 2009, reflect case-based payments per diagnosis related group; and
(c) Notwithstanding section 112 or 163 of the state finance law or any other law, rule or regulation to the contrary, the commissioner of health may contract with a vendor for consideration to develop the specifications for the diagnosis-related groups methodology as provided for in this section if the commissioner of health certifies to the state comptroller that such contract is in the best interest of the health of the people of the state. Notwithstanding that such specifications shall be available pursuant to article 6 of the public officers law, such contract may provide that the specifications for such adjusted or additional diagnosis-related groups provided by the vendor

shall be subject to copyright protection pursuant to federal copyright law; and

(d) Notwithstanding any inconsistent provision of this section or any other contrary provision of law, the commissioner of health may, for rate periods on and after December 1, 2009 through March 31, 2010, and subject to the availability of federal financial participation, make additional adjustments of up to $33,500,000 in aggregate to the inpatient rates of payment of eligible general hospitals, to facilitate improvements in hospital operations and finances, in accordance with the following:

(i) Such payments shall be available to non-public hospitals which, as determined by the commissioner of health, experience a reduction in their medicaid inpatient revenue as determined by the commissioner of health, as a result of the application of the provisions of paragraph (a) of this section.

(iii) Such payments shall not be subject to retroactive adjustment or reconciliation and may be added to rates of payment or made as lump sum payments.

(iv) Each hospital receiving such payments shall, as a condition for eligibility for such payments, adopt a resolution of the board of directors of each such hospital setting forth its current financial condition and a plan for reforming and improving such financial condition, including ongoing board oversight, provided, however, if such report is not issued and adopted by each such board of directors, or if such report fails to set forth adequate progress, as determined by the commissioner of health, the commissioner of health may deem such facility ineligible for further such payments and may redistribute such further payments to other eligible facilities in accordance with the provisions of this paragraph. The commissioner of health shall be provided with copies of all such resolutions and reports; and

(e) Inpatient rate adjustments made pursuant to paragraphs (a) through (c) of this section shall result in a net statewide decrease in aggregate medicaid payments of no less than $75,000,000 for the period December 1, 2009 through March 31, 2010; and

(f) If the commissioner of health determines that federal financial participation will not be available with regard to the provisions of paragraph (d)(ii) herein, the commissioner of health may deem such provision null and void and instead may allocate payments proportionally, based on each eligible facility's relative share of medicaid inpatient discharges in the year two years prior to the distribution year; and

(g) Provided, however, if this chapter appropriates sufficient additional funds to support payments for general hospital inpatient services using the methodology in existence on February 28, 2009 as set forth in section 2807-c of the public health law, the provisions of this section shall not apply and shall be considered null and void as of February 28, 2009.

Notwithstanding any inconsistent provision of law and subject to the availability of federal financial participation, for the period April 1, 2009 through March 31, 2010, rates of payment by governmental agencies for general hospitals which are certified by the office of alcoholism and substance abuse services to provide inpatient detoxification and withdrawal services and, with regard to inpatient services provided to patients who are determined to be in diagnosis-related groups numbered 743 , 744, 745, 746, 747, 748, 749, 750, or 751, shall be made on a per diem basis in accordance with the following:

(a) For each of the regions within the state as described in paragraph (e) of this section the commissioner of health shall determine the average per diem cost incurred by general hospitals in that region subject to the provisions of this section with regard to inpatients requiring medically managed detoxification services, as defined by applicable regu-

lations promulgated by the office of alcoholism and substance abuse services. In determining such costs the commissioner of health shall utilize 2006 costs and statistics as reported by such hospitals to the department of health prior to 2008; and

(b) Per diem payments for inpatients requiring medically managed inpatient detoxification services shall reflect 37.5 percent of the operating cost component of the rates of payment effective December 31, 2007 and 62.5 percent of the per diem amounts computed pursuant to paragraph (a) of this section for the applicable region in which the facility is located and as trended forward to adjust for inflation, provided however, that such payments shall be reduced by 50 percent for any such services provided on or after the sixth day of services through the tenth day of services, and further provided that no payments shall be made for any services provided on or after the eleventh day; and

(c) Per diem payments for inpatients requiring medically supervised inpatient detoxification services, as defined by applicable regulations promulgated by the office of alcoholism and substance abuse services, shall reflect 100 of the per diem amounts computed pursuant to paragraph (a) of this section for the applicable region in which the facility is located for the period April 1, 2009 through December 31, 2009, and as trended forward to adjust for inflation, and shall reflect 75 percent of such per diem amounts for periods on and after January 1, 2010 through March 31, 2010, as trended forward to adjust for inflation, provided, however, that such payments shall be reduced by 50 percent for any services provided on or after the sixth day of services through the tenth day of services, and further provided that no payments shall be made for any services provided on and after the eleventh day; and

(d) Per diem payments for inpatients placed in observation beds, as defined by applicable regulations promulgated by the office of alcoholism and substance abuse

services, shall be at the same level as would be paid pursuant to paragraph (a) of this section, provided, however, that such payments shall not apply for more than two days of care, after which payments for such inpatients shall reflect their designation as requiring either medically managed detoxification services or medically supervised withdrawal services, and further provided that days of care provided in such observation beds shall, for reimbursement purposes, be fully reflected in the computation of the initial five days of care as set forth in paragraphs (a) and (b) of this section; and

(e) For the purposes of this paragraph, the regions of the state shall be as follows:

(i) New York city, consisting of the counties of Bronx, New York, Kings, Queens and Richmond;

(f) Provided, however, if this chapter appropriates sufficient additional funds to support payments for hospital inpatient detoxification services using the methodology in existence on February 28, 2009 as set forth in section 2807-c(4)(l) of the

public health law, the provisions of this section shall not apply and shall be considered null and void as of February 28, 2009.

Notwithstanding any inconsistent provision of paragraph (e) of subdivision 4 of section 2807-c of the public health law or any other contrary provision of law and subject to the availability of federal financial participation, the operating cost component of per diem rates of payment by governmental agencies for inpatient services provided by a general hospital or a distinct unit of a general hospital for services, as described below, that would otherwise be subject to the provisions of paragraph (e) of subdivision 4 of section 2807-c of the public health law, shall, with regard to days of service occurring on and after December 1, 2009 through March 31, 2010, be in accord with the following:

(a) For physical medical rehabilitation services and for chemical dependency rehabilitation services, such rates shall reflect the use of 2005 operating costs for each respective category of services as reported by each facility to the department of health prior to December 1, 2008 and as adjusted for inflation pursuant to paragraph (c) of subdivision 10 of section 2807-c of the public health law, as otherwise modified by any applicable statute, provided, however, that such 2005 reported operating costs shall, for rate-setting purposes, be held to a ceiling of 110 percent of the average of such reported costs in the region in which the facility is located, as determined pursuant to clause (E) of subparagraph (iii) of paragraph (l) of subdivision 4 of section 2807-c of the public health law; and

wise modified by any applicable statutes, provided, however, that such 2005 reported operating costs shall, for rate-setting purposes, be held to a ceiling of 110 percent of the average of such reported costs for all such designated hospitals statewide; and

(c) For inpatient services provided by specialty long term acute care hospitals and for inpatient services provided by cancer hospitals as so designated as of December 31, 2008, such rates shall reflect the use of 2005 operating costs for each respective category of facility as reported by each facility to the department of health prior to December 1, 2008 and as adjusted for inflation pursuant to paragraph (c) of subdivision 10 of section 2807-c of the public health law, as otherwise modified by any applicable statutes; and

(d) For facilities designated by the federal department of health and human services as exempt acute care children's hospitals, for which a discrete institutional cost report was filed for the 2006 calendar year, and which has reported medicaid discharges greater than 50 percent of total discharges in such cost report, such rates shall reflect the use of 2006 operating costs as reported by each facility to the department of health prior to December 1, 2008 and as adjusted for inflation pursuant to paragraph (c) of subdivision 10 of section 2807-c of the public health law, as otherwise modified by any applicable statutes, and as determined on a per case basis or per diem basis, as set forth in regulations promulgated by the commissioner of health; and

(e) Rates established pursuant to this section shall be deemed as excluding reimbursement for physician services for inpatient services and claims for medicaid fee payments for such physician services for such inpatient care may be submitted separately from the rate in accordance with otherwise applicable law; and

(a) For physical medical rehabilitation services and for chemical dependency rehabilitation services, such rates shall reflect the use of 2005 operating costs for each respective category of services as reported by each facility to the department of health prior to December 1, 2008 and as adjusted for inflation pursuant to paragraph (c) of subdivision 10 of section 2807-c of the public health law, as otherwise modified by any applicable statute, provided, however, that such 2005 reported operating costs shall, for rate-setting purposes, be held to a ceiling of 110 percent of the average of such reported costs in the region in which the facility is located, as determined pursuant to clause (E) of subparagraph (iii) of paragraph (l) of subdivision 4 of section 2807-c of the public health law; and

(b) For services provided by rural hospitals designated as critical access hospitals in accordance with title XVIII of the federal social security act, such rates shall reflect the use of 2005 operating costs as reported by each facility to the department of health prior to December 1, 2008 and as adjusted for inflation pursuant to paragraph (c) of subdivision 10 of section 2807-c of the public health law, as otherwise modified by any applicable statutes, provided, however, that such 2005 reported operating costs shall, for rate-setting purposes, be held to a ceiling of 110 percent of the average of such reported costs for all such designated hospitals statewide; and

(d) For facilities designated by the federal department of health and human services as exempt acute care children's hospitals, for which a discrete institutional cost report was filed for the 2006 calendar year, and which has reported medicaid discharges greater than 50 percent of total discharges in such cost report, such rates shall reflect the use of 2006 operating costs as reported by each facility to the department of health prior to December 1, 2008 and as adjusted for inflation pursuant to paragraph (c) of subdivision 10 of section 2807-c of the public health law, as otherwise modified by any applicable statutes, and as determined on a per case basis or per diem basis, as set forth in regulations promulgated by the commissioner of health; and
