AN ACT to amend the environmental conservation law, in relation to enacting the "bisphenol A-free children and babies act"

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds that
2 bisphenol A (BPA), a principal component in the production of polycarbo-
3 nate rigid plastic, is used in many products intended for use by young
4 children.
5 According to the U.S. Centers for Disease Control, ninety-three
6 percent of Americans have detectable levels of bisphenol A in their
7 bodies. Research studies have found that babies and toddlers have high-
8 er levels of bisphenol A in their bodies than do adults because of
9 greater exposure and reduced capacity to metabolize bisphenol A.
10 Bisphenol A is a known estrogen-mimicking endocrine disruptor chemi-
11 cal. Endocrine disruption has been linked to a greater number of common
12 ailments, including heart disease, immune system disruption, brain dete-
13 rioration, type-2 diabetes, cancer and obesity.
14 The state of New York must act to significantly reduce the harm from
15 bisphenol A, particularly for infants and children, the most vulnerable
16 within our population.
17 S 2. Article 37 of the environmental conservation law is amended by
18 adding a new title 5 to read as follows:

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets
[] is old law to be omitted.
