FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend subdivision 6 of section 177 of the Retirement and Social Security Law to increase the percentage of assets of the New York State Teachers' Retirement System (NYSTRS) which may be invested in real estate from five to ten percent. Additionally, this bill would add a new paragraph (f) to subdivision 6 of section 177 to allow NYSTRS to classify, at the System's election, real estate oriented funds or partnerships as a real estate asset for investment purposes.

It is estimated that there will be no annual cost to the employers of members of the New York State Teachers' Retirement System if this bill is enacted.

The source of this estimate is Fiscal Note 2009-4 dated October 15, 2008 prepared by the Actuary of the New York State Teachers' Retirement System and is intended for use only during the 2009 Legislative Session.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

FINANCIAL IMPACT - EMPLOYER CONTRIBUTIONS: With respect to the NYCERS, the enactment of this proposed legislation would not, in and of itself, result in any change in employer contributions.

The ultimate cost of a Retirement Program is the benefits it pays. The financing of that ultimate cost is provided by contributions and investment income.

Investment income depends upon the amount of assets of the respective NYCERS Fund and the rate of return received on those assets. The rate of return depends to a large extent upon the asset allocation policy of the respective NYCERS Fund.

To the extent that the NYCERS increase their investments in the securities authorized by this proposed legislation and those securities produced greater (lesser) rates of return than the rates of return that the NYCERS would otherwise have achieved, then employer contributions to the NYCERS will be lesser (greater).

STATEMENT OF ACTUARIAL OPINION: I, Robert C. North, Jr., am the Chief Actuary for the New York City Retirement Systems. I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

FISCAL NOTE IDENTIFICATION: This estimate is intended for use only during the 2009 Legislative Session. It is Fiscal Note 2009-01, dated January 16, 2009, prepared by the Chief Actuary for the New York City Retirement Systems.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend the Retirement and Social Security Law to increase the percentage of assets of the eight (8) public retirement systems of New York State which may be invested in real estate from 5 to 10 percent. It would also allow such Systems to elect to classify real estate oriented funds or partnerships as a real estate asset for investment purposes.

If this bill is enacted, insofar as this bill affects the New York State and Local Employees' Retirement System and the New York State and Local Police and Fire Retirement System, we assume that there would be small investment changes as a result of enactment. Any increases or decreases in investment earnings will result in decreases or increases, respectively, in employer contributions. Annual changes in assets will be shared by all employers and will be spread over the future working lifetimes of active members.

This estimate, dated January 29, 2009, and intended for use only during the 2009 Legislative Session, is Fiscal Note Number 2009-95 prepared by the Actuary for the New York State and Local Employees' Retirement System and the New York State and Local Police and Fire Retirement System.
