March 25, 2009

Introduced by Sens. KRUEGER, HASSELL-THOMPSON, HUNTLEY, SAVINO -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law, in relation to requiring cigarette manufacturers to disclose the chemical substances used in the manufacture of cigarettes

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. It has been the policy of the state
2 to guarantee and facilitate the public right to know concerning health
3 risks that may be encountered from manufactured products and at the
4 workplace. The legislature finds that literally thousands of chemical
5 substances are routinely utilized in the manufacture of cigarettes as
6 burn retardants, preservatives, flavor enhancers and for other aesthetic
7 purposes and that such chemicals may have toxic effects for both smokers
8 and nonsmokers. Therefore, the legislature further finds that the public
9 has a right to know the chemical substances used in the manufacture of
10 cigarettes and what toxic effects, if any, these additives have been
11 found to have or are suspected of having.
