2009-2010 Regular Sessions

I N S E N A T E

April 2, 2009

Introduced by Sen. DUANE -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law, in relation to establishing the age-appropriate sex education grant program, to be referred to as the healthy teens act

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature finds and declares
2 that New York state's teen pregnancy rate, 59.2 per 1000 female 15-19
3 year olds as compared to the Healthy People 2010 goal of 43 cases per
4 1000 female 15-19 year olds falls far too short of the public health
5 expectation set by the Surgeon General. New York state had 40,000 teen
6 pregnancies in 2006. In addition, according to the centers for disease
7 control, 1 in 4 teenage girls has a sexually transmitted infection.
8 This is true in New York state as well. Current research documents that
9 individuals who receive early, comprehensive, age-appropriate, and
10 scientifically accurate education in the health and other benefits of
11 sexual abstinence, family planning, and birth control are more likely to
12 delay sexual activity and engage later in such activity with a higher
13 degree of responsibility and safety. Comprehensive sex education
14 programs which complement parental involvement and instruction respect
15 the diversity and values of our state and provide our youth at risk with
16 the foundation to make responsibly informed choices. The earlier such
17 programs are commenced on an age-appropriate curriculum basis, the more
18 responsible will be the sexual activity decisions.

19 Statistics within New York state communities show an increase in rates
20 of sexually transmitted diseases among adolescents over the past several
21 years. Adolescents are the fastest growing population of new HIV/AIDS
22 cases. These increases place greater demand on the state's health care
23 delivery system and require that we take immediate action and embark on
24 a dedicated mission to provide targeted at-risk adolescents with a more

concentrated sex education program with a significant parental component, designed to inform and instruct them on abstinence, protection and pregnancy prevention. Approximately 25 percent of new cases of sexually transmitted diseases each year occur among teenagers and two-thirds of such new cases occur among persons 15 to 24 years old. By age 24, at least one in three sexually active persons are estimated to have had a sexually transmitted disease. By way of example, the highest age-specific gonorrhea rates among women and the third highest rates among men are in the 15 to 19 year old group.

It is the intent of the legislature that the age-appropriate sex education grant program established in this act provide at-risk adolescents with the information, assistance, skills and support to enable them to make responsible decisions, including abstaining from sexual intercourse and for those who do become sexually active, the use of condoms or contraceptives effectively.

S 2. This act shall be known and may be cited as the "healthy teens act".

S 3. The public health law is amended by adding a new article 14-A to read as follows:
