I N S E N A T E

April 27, 2009

Introduced by Sen. DUANE -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law and the insurance law, in relation to cost-sharing, deductible or co-insurance for tier IV prescription drugs; and to amend the executive law, in relation to unlawful discriminatory practice in relation to tier IV prescription drugs

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The cost-sharing, deductibles and
2 co-insurance obligations for certain drugs have become cost prohibitive
3 for persons trying to overcome serious diseases such as cancer, multiple
4 sclerosis, rheumatoid arthritis, hepatitis C, and hemophilia. These
5 drugs are typically new, produced in lesser quantities than other drugs,
6 and not available as less expensive brand name or generic prescription
7 drugs. Some health insurance plans and policies have established unique
8 categories or specialty tiers for these drugs, sometimes referred to as
9 Tier IV or Tier V. Patients under these plans are required to pay a
10 percentage of the cost of these high-priced drugs, rather than the
11 traditional co-payment amounts for generic, preferred brand, and non-
12 preferred brand prescription drugs, often covered by Tier I, Tier II,
13 and Tier III plans and policies, respectively. As a result, patients
14 covered under Tier IV or Tier V plans or policies must pay thousands of
15 dollars in out-of-pocket costs for drugs critical for their treatment.
16 It is in the public interest to help patients to afford necessary
17 prescription drugs by prohibiting cost-sharing, deductibles and co-insu-
18 rance obligations by patients that exceed payments for non-preferred
19 brand prescription drugs or the equivalent thereof. It is not the intent
20 of this legislation to preclude plans or policies from categorizing
21 drugs used in the treatment of these common diseases as brand name
22 prescription drugs or generic prescription drug equivalents.

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets
[] is old law to be omitted.

LBD11409-01-9

1 The extraordinary disparity in cost-sharing, deductible and co-insu-
2 rance burdens imposed on patients whose life and health depend on these
3 drugs constitutes serious and unjustified discrimination based on their
4 disease or disability.

5 This legislation is intended to provide patients more affordable
6 access to prescription drugs essential for their treatment of cancer,
7 multiple sclerosis, rheumatoid arthritis, hepatitis C, hemophilia and
8 other diseases.
