(ii) provide for hardship under certain conditions determined by the implementing agency for public servant soldiers who elected to participate in a "full pay/repayment plan". Such conditions shall include, but shall not be limited to, any material unforeseen or compelling changes in circumstances affecting a public servant soldier's ability to repay that occurred since such public servant soldier elected to participate in the "full pay/repayment plan," including but not limited to injuries sustained while on ordered military duty, or a determination by the implementing agency that the public servant soldier is or will be experiencing severe economic hardship due to a change in circumstances. Relief may include an extension of the repayment term or a reduction in the percentage of salary dedicated to repayment, or a modification to the requirement for a balloon payment. Such determinations of economic hardship may be made on a case-by-case basis, and the implementing agency may require the provision of such information by the public servant soldier as it deems necessary to make such determination.

No repayment shall be required to the city for such differential pay received by a public servant soldier, provided that this prohibition on repayment shall not apply in the case of a material error in calculation that results in an unwarranted increase to the public servant soldier. Repayment of any such overage shall be governed by the terms of paragraph (e) of this subdivision.

1 (e) A public officer or employee who, prior to the effective date of
2 this subdivision, elected to participate in a "full pay/repayment plan"

25 an amount more than seven and one-half percent of the base pay of city
26 salary, except that a term may provide for full satisfaction of any
27 remaining outstanding repayment obligation after ten years from the date
28 of return from ordered military duty.

32 military duty.
