Introduced by Sen. KRUGER -- read twice and ordered printed, and when printed to be committed to the Committee on Finance -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the legislative law and the state finance law, in relation to procurement lobbying; and to amend chapter 1 of the laws of 2005 amending the state finance law and other laws relating to restricting contacts in the procurement process and the recording of contacts relating thereto, in relation to extending the effectiveness of certain provisions thereof

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings and statement of intent. The legisla-
2 ture hereby finds and declares that it is important to the well-being of
3 the state and its citizens to preserve and enhance both the integrity
4 and efficiency by which New York state entities, including executive
5 agencies, public authorities, localities, the legislature, and the judi-
6 ciary procure goods and services. In order to use the revenues of the
7 state effectively and to maximize value from such procurements to the
8 residents of the state, the procurement laws of the state seek to struc-
9 ture the procurement process so that there is broad-based competition
10 for state procurements, which promotes both lower costs for necessary
11 purchases and greater value. The laws governing procurement also should
12 authorize and encourage the entities conducting procurements to use new
13 technology and practices that would allow the state to procure more
14 efficiently. At the same time, both vendors who participate in the
15 procurement process and the residents of the state should feel confident
16 that the process is fair and that decisions are made on the merits, not
17 on the basis of favoritism or past relationships.

18 The legislature further finds that in 2005, the legislature responded
19 to widespread concerns that the procurement process was on occasion
20 subject to pressures that distorted the evaluation of the merits of
21 procurement bids and proposals. It enacted laws to allow anyone inter-
22 ested in a particular procurement to examine the communications between

1 vendors and their representatives, on one hand, and government officials
2 conducting the procurement on the other. The law required that once
3 written notice in any form has been issued that a procurement is planned
4 or pending, all contacts regarding that procurement that would reason-
5 ably be interpreted as an effort to influence the result of the procure-
6 ment can only be made to designated contact persons within the govern-
7 ment entity that is conducting the procurement. These designated
8 contacts are required to keep a record of these conversations and other
9 communications and these records become part of the larger procurement
10 record. Individuals and entities subject to the lobbying laws of the
11 state and who lobby regarding procurements are also required to file a
12 statement regarding the matters on which they have lobbied or intend to
13 lobby. Therefore, a public record is created of all communications
14 related to the procurement. Any communications from any party, whether
15 or not a participating vendor or registered lobbyist, should be
16 recorded, so that someone reviewing the record knows what comments and
17 information were exchanged. In addition, in 2008, statutory language was
18 added to allow a vendor that unsuccessfully bid to request and receive,
19 after the procurement is completed, a debriefing by the agency that
20 conducted the procurement. The purpose of these measures is to create a
21 process more readily understood and observed, so that vendors and the
22 public may have greater confidence in the fairness of the result.

23 The legislature further finds that the free flow of information about
24 the procurement process and about the goods and services available that
25 may meet the needs of government is crucial to the effective operation
26 of government. The laws that govern procurement are not intended to
27 encourage government personnel to terminate all communication between
28 the public and the governmental entity. Rather the communications should
29 be made to and from the appropriate designated personnel and a record
30 should be made of the subject of the call, so that anyone who has
31 concerns about a procurement can review the record and see that the
32 communications were appropriate. The intent of the statute, together
33 with these amendments, is that any entity that intends to conduct a
34 procurement and any entity with oversight over that procurement will,
35 simultaneously with the declaration of a restricted contact period, post
36 in a readily accessible form on its website, if available, and with any
37 other notice of the procurement, the names of the designated contacts at
38 the entity and the means of contacting them. The designated contacts
39 should be knowledgeable about the procurement and able to answer appro-
40 priate questions or direct inquiries to the correct source of informa-
41 tion.

42 The legislature further finds that, because the intent of the statute
43 is to make the procurement process as transparent as possible to the
44 extent consistent with best procurement practices, the statute encour-
45 ages the exchange of information at public forums, rather than through
46 individual communications. Therefore, public bidders' conferences at
47 which everyone in attendance can hear both the questions and comments
48 and responses are not subject to the limitations of the restricted
49 comment period. Practices such as exchanges of questions and answers
50 through electronic mail that all interested vendors can see and a formal
51 request for information before the requests for bids or proposals are
52 issued are encouraged. Procurements that are awarded pursuant to a stat-
53 utory process for which oversight mechanisms are already in place also
54 are not generally subject in the limitations of the restricted contact
55 period.

1 The legislature finds that the existing statutes have been effective
2 in reducing the number of complaints about individual procurements and
3 reducing concern that the process is subject to favoritism and inequi-
4 ties. However, it further finds that there are aspects of the process
5 that need clarification, that it is desirable to reduce some of the
6 burden of duplicative requirements when it can be done without limiting
7 the effectiveness of the statutes, and that the ability of vendors to
8 obtain information necessary for them to participate in the procurement
9 process has been unnecessarily impaired. Therefore, the legislature
10 seeks by this statute to address those concerns.

40 shall include any contacts during the restricted period of a govern-
41 mental procurement between the offerer and any member, officer or
42 employee of any governmental entity other than the entity conducting the
43 governmental procurement; provided, however, that nothing in this
44 section shall be deemed to prohibit an offerer from communicating with a
45 member of the state legislature or legislative staff about a govern-
46 mental procurement being conducted by a governmental entity other than

48 tive staff contacting a governmental entity about a governmental

8 offerers as to the offerer's understanding of and agreement to comply

10 contacts during a governmental procurement pursuant to subdivision three
11 of this section. SUCH A WRITTEN AFFIRMATION BY AN OFFERER SHALL BE
12 DEEMED TO APPLY TO ANY AMENDMENTS TO A PROCUREMENT SUBMITTED BY THE
13 GOVERNMENTAL ENTITY AFTER AN INITIAL AFFIRMATION IS RECEIVED WITH AN
14 INITIAL BID.

15 7. Notwithstanding any law to the contrary, prior to conducting an
16 award of a procurement contract, a governmental entity conducting a
17 governmental procurement shall make a final determination of responsi-
18 bility of the proposed awardee in accordance with paragraph f of subdivi-
19 sion nine of section one hundred sixty-three of this chapter, or, if
20 the governmental entity is a public benefit corporation, as that term is
21 defined in section sixty-six of the general construction law, and the
22 majority of the members consist of persons either appointed by the
23 governor or who serve as members by virtue of holding a civil office of
24 the state, according to the procurement guidelines adopted pursuant to
25 subparagraph (iii) of paragraph (b) of subdivision three of section
26 twenty-eight hundred seventy-nine of the public authorities law;
27 provided, however, that nothing in this subdivision shall be construed

29 ities of any governmental entity as it pertains to determinations of
30 responsibility.

31 8. Any member, officer or employee of a governmental entity who
32 becomes aware that an offerer has violated the provisions of subdivision
33 three of this section with regard to permissible contacts during any
34 governmental procurement shall immediately notify the ethics officer,
35 inspector general, if any, or other official of the procuring govern-
36 mental entity responsible for reviewing or investigating such matters.
37 If an offerer violates the provisions of subdivision three of this
38 section with regard to permissible contacts at a governmental entity
39 other than the governmental entity conducting the governmental procure-
40 ment, the member, officer or employee who becomes aware of the violation
41 shall notify the ethics officer, inspector general, if any, or other
42 official of the governmental entity responsible for reviewing or inves-
43 tigating such matters where that member, officer or employee works, who
44 shall in turn notify the ethics officer, inspector general, if any, or
45 other official of the procuring governmental entity responsible for
46 reviewing or investigating such matters at the procuring governmental
47 entity.

48 9. Every governmental entity shall establish a process for review by
49 its ethics officer, inspector general, if any, or other official respon-
50 sible for reviewing or investigating any allegations of violations of
51 the provisions of subdivision three of this section with regard to

53 tion of sanctions if such violations have been found to exist.

54 10. a. Upon notification of any allegation of a violation of the
55 provisions of subdivision three of this section with regard to permissi-
56 ble contacts on governmental procurements, the governmental entity's

1 ethics officer, inspector general, if any, or other official of the
2 procuring governmental entity responsible for reviewing or investigating
3 such matters shall immediately investigate such allegation and, if
4 sufficient cause exists to believe that such allegation is true, shall
5 give the offerer reasonable notice that an investigation is ongoing and
6 an opportunity to be heard in response to the allegation.

7 b. A finding that an offerer has knowingly and willfully violated the
8 provisions of subdivision three of this section shall result in a deter-
9 mination of non-responsibility for such offerer, and such offerer and
10 its subsidiaries, and any related or successor entity with substantially
11 similar function, management, board of directors, officers and share-
12 holders (hereinafter, for the purposes of this paragraph "offerer"),
13 shall not be awarded the procurement contract, unless the governmental
14 entity finds that the award of the procurement contract to the offerer
15 is necessary to protect public property or public health or safety, and
16 that the offerer is the only source capable of supplying the required
17 article of procurement within the necessary timeframe, provided, that
18 the governmental entity shall include in the procurement record a state-
19 ment describing the basis for such a finding. Any subsequent determi-
20 nation of non-responsibility due to violation of this section within
21 four years of a determination of non-responsibility due to a violation
22 of this section shall result in the offerer being rendered ineligible to
23 submit a proposal on or be awarded any procurement contract for a period
24 of four years from the date of the second final determination. Every
25 governmental entity shall ensure that its solicitations of proposals for
26 procurement contracts require offerers to disclose findings of non-res-
27 sponsibility due to violations of the provisions of subdivision three of
28 this section within the previous four years by any governmental entity.
29 The failure of offerers to timely disclose accurate and complete infor-
30 mation or otherwise cooperate with the governmental entity in adminis-
31 tering this provision shall be considered by the governmental entity in
32 its determination of responsibility; provided, further, that the govern-
33 mental entity shall not award a contract to an offerer who fails to
34 timely disclose accurate and complete information or otherwise cooperate
35 with the governmental entity in administering this provision unless the
36 governmental entity finds that the award of the procurement contract to
37 the offerer is necessary to protect public property or public health or
38 safety, and that the offerer is the only source capable of supplying the
39 required article of procurement within the necessary timeframe,
40 provided, that the governmental entity shall include in the procurement
41 record a statement describing the basis for such a finding. Upon a
42 determination of non-responsibility or debarment due to a violation of
43 this section, the governmental entity shall notify the office of general
