able authority resources as deemed feasible and advisable by the trustees pursuant to section seven of part U of chapter fifty-nine of the laws of two thousand six.

- Applications for an energy cost savings benefit shall be in the form and contain such information, exhibits and supporting data as board may prescribe. The board shall review the applications received and shall determine the applications which best meet the criteria established for the benefits pursuant to this subdivision and it shall recommend such applications to the power authority of the state of New York with such terms and conditions as it deems appropriate; provided, however, that for energy cost savings benefits granted on or after June thirtieth, two thousand nine through June [second] SIXTEENTH, two thousand ten, the board shall expedite the awarding of such benefits and shall defer the review of compliance with such criteria until after the applicant has been awarded an energy cost savings benefit. Such terms and conditions shall include reasonable provisions providing for the partial or complete withdrawal of the energy cost savings benefit in the event recipient fails to maintain mutually agreed upon commitments that may include, but are not limited to, levels of employment, capital investment and power utilization. Recommendation for approval of an energy cost savings benefit shall qualify an applicant to receive energy cost savings benefit from the power authority of the state of New York pursuant to the terms and conditions of the recommendation.
- S 2. The opening paragraph of paragraph 5 of subdivision (a) of section 189 of the economic development law, as amended by chapter 88 of the laws of 2010, is amended to read as follows:

"Power for jobs electricity savings reimbursements" shall payments made by the power authority of the state of New York as recommended by the board to recipients of allocations of power under phases four and five of the power for jobs program for a period of time until November thirtieth, two thousand four, subsequent to the expiration of their phase four or five power for jobs contract provided however that any power for jobs recipient may choose to receive an electricity savings reimbursement as a substitute for a contract extension for the period from the date the recipient's contract expires through June [second] SIXTEENTH, two thousand ten. The "basic reimbursement" is an amount that when credited against the recipient's actual "unit electricity" during a quarter (meaning the cost for commodity and delivery per kilowatt-hour for the quantity of electricity purchased and delivered under the power for jobs program during a similar period in the final year of the recipient's contract), results in an effective unit cost of electricity during the quarter equal to the average unit cost of electricity such recipient paid during the final year of the contract for power allocated under phase four or five of the power jobs program.

- S 3. Subdivisions (f) and (l) of section 189 of the economic development law, as amended by chapter 88 of the laws of 2010, are amended to read as follows:
- (f) Eligibility. Notwithstanding any provision of law to the contrary, and, in particular, the provisions of this chapter 17 concerning the terms of contracts for allocations under the power for 18 19 jobs program, the terms of any contract with a recipient of power allo-20 cated under phase two of the power for jobs program that has expired or 21 will expire on or before the thirty-first day of August, two thousand 22 two, may be extended by the power authority of the state of New York for an additional period of three months effective on the date of such expi-23 24 ration, pending the filing and approval of an application by such recip-25 ient for an allocation under the fifth phase of the program. (1) The board shall solicit and review applications for the power for jobs electricity savings reimbursements and contract extensions from recipients of power for jobs allocations under phases four and five of the program for the award of such reimbursements and/or contract extensions. The board may prescribe a simplified form and content for an application for such reimbursements or extensions. An applicant shall be eligible for such reimbursements and/or extensions only if compliance with and agrees to continue to meet the job retention and creation commitments set forth in its prior power for jobs contract, such other commitments as the board deems reasonable; provided, however, for the power for jobs electricity savings reimbursements and contract extensions granted on or after June thirtieth, two thousand nine through June [second] SIXTEENTH, two thousand ten, the board shall expedite the awarding of such reimbursements and/or extensions and shall defer the review of compliance with such commitments until after applicant has been awarded a power for jobs electricity savings reimbursement and/or contract extension.
