AN ACT to amend the education law, in relation to bilingual school safety hotlines in cities with a population of one million or more

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings and declaration. The legislature hereby declares that overwhelming evidence indicates that violent acts performed by schoolchildren in large city school districts are increasing in frequency and intensity. The legislature finds that these incidents result in senseless deaths and injuries and psychological trauma to the students, their families and their communities. The legislature finds that children in school are impressionable and subject to powerful peer pressure, and therefore, might be disinclined to report a problem to teachers or other authorities because of intimidation, fear of retribution or a distorted sense of loyalty to their fellow students. The legislature also finds, however, that students know better than anyone what is really occurring in their fellow students' lives and are our best resources for recognizing the warning signs of potential danger.

The legislature finds and declares it to be its purpose and policy to reduce school violence by teaching children that they have the same responsibility as adults to protect each other. The legislature, therefore, declares it to be its purpose and policy to provide for a bilingual school safety hotline in cities with a population of one million or more.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets [ ] is old law to be omitted.
