Introduced by M. of A. ENGLEBRIGHT -- read once and referred to the  
Committee on Education

AN ACT to amend the education law, the environmental conservation law  
and the public health law, in relation to plans and specifications of  
school buildings

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-  
BLY, DO ENACT AS FOLLOWS:

1     Section 1. Legislative intent. The legislature finds and declares that  
2     it shall be the policy of the state of New York to provide every child  
3     with an environmentally safe and healthy learning environment in which  
4     to grow, learn and mature into productive and healthy adults. To ensure  
5     that schools provide this setting for our children, the legislature  
6     finds that standards for school buildings being purchased, remodeled or  
7     built must be protective of children's environmental health and safety.  
8     Children are uniquely vulnerable to and may be severely affected by  
9     exposure to chemicals, hazardous wastes and other environmental hazards,  
10    which affect their learning abilities as well as create chemical-based  
11    responses and sensitivities. It is the purpose of this legislation to  
12    reduce as much as possible such exposures for children and school staff.  
13    S 2. Subdivisions 2 and 3 of section 408 of the education law, subdi-  
14    vision 2 as amended by chapter 414 of the laws of 1972 and subdivision 3  
15    as amended by section 2 of part A1 of chapter 58 of the laws of 2006,  
16    are amended to read as follows:  
17    2. The commissioner [of education] shall not approve the plans for the  
18    erection, LEASE or purchase of any school building or addition thereto  
19    or remodeling thereof unless the same shall provide for THE FOLLOWING  
20    WHERE APPLICABLE: heating, ventilation, AND AIR CONDITIONING SYSTEMS  
21    CONSTRUCTED, MAINTAINED OR UPGRADED TO MEET CURRENTLY ACCEPTED INDUSTRY  
22    VENTILATION STANDARDS; PLACEMENT OF AIR INTAKE VENTS SO AS TO MAXIMIZE  
23    HEALTHFUL INDOOR AIR QUALITY; DESIGN PRACTICES THAT MINIMIZE INGRESS OF  
24    AND CONDITIONS FAVORABLE TO PEST POPULATIONS; CONSTRUCTION TECHNIQUES

13 of this chapter and the regulations of the commissioner adopted pursuant  
14 to this chapter in all other respects; provided, however, that the  
15 commissioner [of education] shall not approve the plans for the erection  
16 or purchase of any school building or addition thereto unless the site  
17 has been selected with reasonable consideration of the following  
18 factors; its place in a comprehensive, long-term school building  
19 program; area required for outdoor educational activities; educational  
20 adaptability, environment, AND accessibility; soil conditions; AND  
21 initial and ultimate cost. In developing such plans and specifications,  
22 school districts are encouraged to review the energy conservation and

24 state energy research and development authority.
