2011-2012 Regular Sessions

I N A S S E M B L Y

February 1, 2011

Introduced by M. of A. O'DONNELL, PHEFFER, GOTTFRIED, BING, GUNTHER, KELLNER, DINOWITZ -- Multi-Sponsored by -- M. of A. BRENNAN, CLARK, COLTON, GLICK, V. LOPEZ, TITUS -- read once and referred to the Committee on Insurance

AN ACT to amend the insurance law, in relation to medical coverage for certain diagnostic tests for diabetes

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Subparagraph (A) of paragraph 15-a of subsection (i) of section 3216 of the insurance law, as amended by chapter 338 of the laws of 2003, is amended to read as follows:

(A) Every policy which provides medical coverage that includes coverage for physician services in a physician's office and every policy which provides major medical or similar comprehensive-type coverage shall include coverage for the following equipment [and], supplies AND TESTS for the treatment, DIAGNOSIS AND PREVENTION of diabetes, if recommended or prescribed by a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law: blood glucose monitors and blood glucose monitors for the visually impaired, data management systems, test strips for glucose monitors and visual reading and urine testing strips, insulin, injection aids, cartridges for the visually impaired, syringes, insulin pumps and appurtenances thereto, insulin infusion devices, [and] oral agents for controlling blood sugar AND GLYCATED HEMOGLOBIN (ALSO KNOW AS A1C) TESTS UP TO FOUR TIMES PER YEAR. In addition, the commissioner of the department of health shall provide and periodically update by rule or regulation a list of additional diabetes equipment and related supplies such as are medically necessary for the treatment of diabetes, for which there shall also be coverage. Such policies shall also include coverage for diabetes self-management education to ensure that persons with diabetes are educated as to the proper self-management and treatment of

their diabetic condition, including information on proper diets. Such coverage for self-management education and education relating to diet shall be limited to visits medically necessary upon the diagnosis of diabetes, where a physician diagnoses a significant change in the patient's symptoms or conditions which necessitate changes in a patient's self-management, or where reeducation or refresher education is necessary. Such education may be provided by the physician or other licensed health care provider legally authorized to prescribe under title eight of the education law, or their staff, as part of an office visit for diabetes diagnosis or treatment, or by a certified diabetes nurse educator, certified nutritionist, certified dietitian or registered dietitian upon the referral of a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law. Education provided by the certified diabetes nurse educator, certified nutritionist, certified dietitian or registered dietitian may be limited to group settings wherever practicable. Coverage for self-management education and education relating to diet shall also include home visits when medically necessary.

S 2. Subparagraph (A) of paragraph 7 of subsection (k) of section 3221 of the insurance law, as amended by chapter 338 of the laws of 2003, is amended to read as follows:

(A) Every group or blanket accident and health insurance policy issued or issued for delivery in this state which provides medical coverage that includes coverage for physician services in a physician's office and every policy which provides major medical or similar comprehensive-type coverage shall include coverage for the following equipment [and], supplies AND TESTS for the treatment, DIAGNOSIS OR PREVENTION of diabetes, if recommended or prescribed by a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law: blood glucose monitors and blood glucose monitors for the visually impaired, data management systems, test strips for glucose monitors and visual reading and urine testing strips, insulin, injection aids, cartridges for the visually impaired, syringes, insulin pumps and appurtenances thereto, insulin infusion devices, [and] oral agents for controlling blood sugar AND GLYCATED HEMOGLOBIN (ALSO KNOWN AS A1C) TESTS UP TO FOUR TIMES PER YEAR. In addition, the commissioner of the department of health shall provide and periodically update by rule or regulation a list of additional diabetes equipment and related supplies such as are medically necessary for the treatment of diabetes, for which there shall also be coverage. Such policies shall also include coverage for diabetes self-management education to ensure that persons with diabetes are educated as to the proper self-management and treatment of their diabetic condition, including information on proper diets. Such coverage for self-management education and education relating to diet shall be limited to visits medically necessary upon the diagnosis of diabetes, where a physician diagnoses a significant change in the patient's symptoms or conditions which necessitate changes in a patient's self-management, or where reeducation or refresher education is necessary. Such education may be provided by the physician or other licensed health care provider legally authorized to prescribe under title eight of the education law, or their staff, as part of an office visit for diabetes diagnosis or treatment, or by a certified diabetes nurse educator, certified nutritionist, certified dietitian or registered dietitian upon the referral of a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law. Education provided by the certified diabetes nurse

educator, certified nutritionist, certified dietitian or registered dietitian may be limited to group settings wherever practicable. Coverage for self-management education and education relating to diet shall also include home visits when medically necessary.

S 3. Paragraph 1 of subsection (u) of section 4303 of the insurance law, as amended by chapter 338 of the laws of 2003, is amended to read as follows:

(1) A medical expense indemnity corporation or a health service corporation which provides medical coverage that includes coverage for physician services in a physician's office and every policy which provides major medical or similar comprehensive-type coverage shall include coverage for the following equipment [and], supplies AND TESTS for the treatment, DIAGNOSIS AND PREVENTION of diabetes, if recommended or prescribed by a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law: blood glucose monitors and blood glucose monitors for the visually impaired, data management systems, test strips for glucose monitors and visual reading and urine testing strips, insulin, injection aids, cartridges for the visually impaired, syringes, insulin pumps and appurtenances thereto, insulin infusion devices, [and] oral agents for controlling blood sugar AND GLYCATED HEMOGLOBIN (ALSO KNOWN AS A1C) TESTS UP TO FOUR TIMES PER YEAR. In addition, the commissioner of the department of health shall provide and periodically update by rule or regulation a list of additional diabetes equipment and related supplies such as are medically necessary for the treatment of diabetes, for which there shall also be coverage. Such policies shall also include coverage for diabetes self-management education to ensure that persons with diabetes are educated as to the proper self-management and treatment of their diabetic condition, including information on proper diets. Such coverage for self-management education and education relating to diet shall be limited to visits medically necessary upon the diagnosis of diabetes, where a physician diagnoses a significant change in the patient's symptoms or conditions which necessitate changes in a patient's self-management, or where reeducation or refresher education is necessary. Such education may be provided by the physician or other licensed health care provider legally authorized to prescribe under title eight of the education law, or their staff, as part of an office visit for diabetes diagnosis or treatment, or by a certified diabetes nurse educator, certified nutritionist, certified dietitian or registered dietitian upon the referral of a physician or other licensed health care provider legally authorized to prescribe under title eight of the education law. Education provided by the certified diabetes nurse educator, certified nutritionist, certified dietitian or registered dietitian may be limited to group settings wherever practicable. Coverage for self-management education and education relating to diet shall also include home visits when medically necessary.

S 4. This act shall take effect immediately and apply to all contracts or renewal contracts entered into on and after January first next succeeding the date on which it shall have become a law.
