S 5. Subdivision 1 of section 1102 of the private housing finance law, as amended by chapter 199 of the laws of 2008, is amended to read as follows:

1. Within the limit of funds available in the housing trust fund account, the corporation is hereby authorized to enter into contracts with eligible applicants for the furnishing by such applicants of housing for persons of low income. Each such contract shall provide that eligible applicants rehabilitate or construct one or more projects or convert one or more nonresidential properties. Such contracts may provide for payments, grants or loans by the corporation for the activities to be carried out by the eligible applicant under the contract. Such contracts shall provide that a private developer make an equity investment of the greater of (i) two and one-half percent of project costs or (ii) five percent of project costs less grants which are to be applied to such costs. The foregoing shall not preclude a private developer from making a greater equity investment. Any payments, grants or loans made by the corporation outstanding at the time of resale shall be subject to repayment in whole or in part upon resale after termination of the regulatory period and as otherwise provided therein. Such repayment provisions may survive the end of the regulatory period. Such contracts may provide that eligible applicants shall either (a) perform activities specified under the contract themselves or (b) act as administrators of a program under which projects are rehabilitated or constructed or nonresidential properties are converted by other eligible applicants or (c) perform both such functions. In the case of a municipality acting as an administrator, funds provided to such municipality hereunder shall not be deemed to be municipal funds. The corporation shall refer any request for payments, grants or loans from persons of low income to eligible applicants in the area in which such persons reside. Loans may be in the form of participation in loans including but not limited to participation in loans originated or financed by lending institutions as defined in section forty-two of this chapter, the state of New York mortgage agency, the New York city housing development corporation, the New York state housing finance agency or private or public employee pension funds. Notwithstanding any other provision of law, payments, grants and loans may be deposited by the corporation directly with a lending institution at or before the time of initial loan closing pursuant to an escrow agreement satisfactory to the corporation. Payments, grants and loans shall be on such terms and conditions as the corporation, or the eligible applicant with the approval of the

corporation, as the case may be, shall determine. Payments, grants and loans shall be used to pay for the actual and necessary cost of acquisition, construction, rehabilitation or conversion, provided that not more than fifty percent of such payments, grants and loans received for the rehabilitation, construction or conversion of a project may be used for the cost of the project's acquisition and not more than ten percent of such payments, grants and loans may be used for the rehabilitation, construction or conversion of community service facilities and, provided further, that payments, grants or loans shall not be used for (i) the administrative costs of an eligible applicant except as otherwise authorized by law INCLUDING, BUT NOT LIMITED TO, SUBDIVISION TWO OF SECTION NINE HUNDRED SIX AND SUBDIVISION TWO OF SECTION ONE THOUSAND SIX OF THIS CHAPTER, (ii) the cost of the acquisition, construction, conversion or rehabilitation of residential units which, subsequent to such acquisition, construction, conversion or rehabilitation, are to be occupied by persons other than persons of low income, and (iii) the cost of the acquisition, construction, conversion or rehabilitation of units which, subsequent to such acquisition, construction, conversion or rehabilitation, are occupied or to be occupied for other than residential purposes, except for community service facilities as described above. No such payments, grants or loans shall exceed a total of one hundred twenty-five thousand dollars per dwelling unit. Among the criteria the corporation shall consider in determining whether to provide additional funds are: average cost of construction in the area, location of the project and the impact of the additional funding on the affordability of the project for the occupants of such project. The length of any loan provided under this article shall not exceed thirty years. No more than fifty percent of the total amount originally appropriated pursuant to this article in any fiscal year shall be allocated to projects located within any single municipality. Of the amount originally appropriated to the corporation in any fiscal year, no more than thirty-three and one-third percent shall be allocated to private developers for projects within a city with a population of one million or more. Of the amount originally appropriated to the corporation in any fiscal year, no more than thirty-three and one-third percent shall be allocated to private developers for projects in the area outside cities with a population of one million or more.

Such contracts may provide for payments, grants or loans by the corporation for the activities to be carried out by the eligible applicant under the contract. Such contracts shall provide that a private developer make an equity investment of the greater of (i) two and one-half percent of project costs or (ii) five percent of project costs less grants which are to be applied to such costs. The foregoing shall not preclude a private developer from making a greater equity investment. Any payments, grants or loans made by the corporation outstanding at the time of resale shall be subject to repayment in whole or in part upon resale after termination of the regulatory period and as otherwise provided therein. Such repay-

Such contracts may provide that eligible applicants shall either (a) perform activities specified under the contract themselves or (b) act as administrators of a program under which projects are rehabilitated or constructed or nonresidential properties are converted by other eligible applicants or (c) perform both such functions. In the case of a municipality acting as an administrator, funds provided to such municipality hereunder shall not be deemed to be municipal funds. The corporation shall refer any request for payments, grants or loans from persons of low income to eligible applicants in the area in which such persons reside. Loans may be in the form of participation in loans including but not limited to participation in loans originated or financed by lending institutions as defined in section forty-two of this chapter, the state of New York mortgage agency, the New York city housing development corporation, the New York state housing finance agency or private or public employee pension funds. Payments, grants and loans shall be used to pay for the actual and necessary cost of acquisition, construction, rehabilitation or conversion, provided that not more than twenty-five percent of such payments, grants and loans received for the rehabilitation, construction or conversion of a project may be used for the cost of the project's acquisition and, provided further, that payments, grants or loans shall not be used for (i) the administrative costs of an eligible applicant except as otherwise authorized by law INCLUDING, BUT NOT LIMITED TO, SUBDIVISION TWO OF SECTION NINE HUNDRED SIX AND SUBDIVISION TWO OF SECTION ONE THOUSAND SIX OF THIS CHAPTER, (ii) the cost of the acquisition, construction, conversion or rehabilitation of residential units which, subsequent to such acquisition, construction, conversion or rehabilitation, are to be occupied by persons other than persons of low income, and (iii) the cost of the acquisition, construction, conversion or rehabilitation of units which, subsequent to such acquisition, construction, conversion or rehabilitation, are occupied or to be occupied for other than residential purposes. No such payments, grants or loans shall exceed a total of seventy-five thousand dollars per dwelling unit provided, however, that the corporation shall have the discretion to provide payments, grants and loans in excess of seventy-five thousand dollars provided that such additional funds shall not exceed twenty-five thousand dollars per dwelling unit. Among the criteria the corporation shall consider in determining whether to provide additional funds are: average cost of construction in the area, location of the project and the impact of the additional funding on the affordability of the project for the occupants of such project. The length of any loan provided under this article shall not exceed thirty years. No more than fifty percent of the total amount originally appropriated pursuant to this article in any fiscal year shall be allocated to projects located within any single municipality. Any grants received by a municipality hereunder shall not be deemed to be municipal funds. Grantees shall utilize funds provided pursuant to this article solely as payments, grants and loans to owners to reduce the costs of new construction, rehabilitation or home improvement or the cost of acquisition, but only where such acquisition is part of an affordable home ownership development program or project to construct or rehabilitate homes, or as otherwise authorized by law INCLUDING, BUT NOT LIMITED TO, SUBDIVISION TWO OF SECTION NINE HUNDRED SIX AND SUBDIVISION TWO OF SECTION ONE THOUSAND SIX OF THIS CHAPTER.
