2011-2012 Regular Sessions

I N A S S E M B L Y

May 6, 2011

Introduced by M. of A. SILVER, FARRELL -- (at request of the Governor)
-- read once and referred to the Committee on Ways and Means

AN ACT to amend the real property tax law and the administrative code of the city of New York, in relation to applications for tax abatements for industrial and commercial construction work on properties in a city of one million or more persons and to tax abatements for certain electricity generating facilities in such city

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative findings. The legislature hereby finds that the
2 New York city industrial and commercial incentive program granted, as of
3 right, reductions in real property taxes to new industrial and commercial
4 projects, including power plants. That program lapsed in 2008 and
5 its successor, the industrial and commercial abatement program, enacted
6 by chapter 119 of the laws of 2008, did not provide for tax abatements
7 for new electricity generating facilities in New York city. In August
8 2010 the board of directors of the New York city industrial development
9 agency revised its uniform tax exemption policy to provide a discretionary
10 tax abatement program, and other benefits, for certain peaking
11 generating facilities. However, the tax benefits of the program were
12 not recognized by the federal energy regulatory commission in setting
13 the installed capacity demand curves for the City of New York for
14 2011/2012, 2012/2013 and 2013/2014, potentially resulting in a significant
15 increase in the level of the demand curves and corresponding
16 capacity prices paid by customers in the city of New York. The legislature
17 further finds that it is in the best interest of customers to
18 prevent such impacts by amending the real property tax law for the
19 purpose of making peaking units eligible for benefits, as of right,
20 under the industrial and commercial abatement program.

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets
[] is old law to be omitted.
