2011-2012 Regular Sessions

IN SENATE

February 18, 2011

- Introduced by Sen. PARKER -- read twice and ordered printed, and when printed to be committed to the Committee on Commerce, Economic Development and Small Business
- AN ACT to amend the public authorities law, in relation to recodification of the small business innovation research program and the awards made thereunder within the New York state foundation for science, technology and innovation; and to repeal section 3102-c of such law relating to the small business innovation research program

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

state small business Section 1. Legislative intent. The 1 innovation 2 research (SBIR) program, which began in 1984, was designed to provide assistance to New York's newer high technology companies, helping them 3 compete for a greater share of the federal research contracts under the 4 5 federal SBIR program. The state program was highly successful, increas-6 the amount of federal SBIR dollars coming into the state from under inq 7 five million dollars annually to over thirty million dollars by 1991. As 8 importantly, state assistance under this program greatly increased the 9 ability of federal SBIR Phase I award winners to compete for much larger 10 SBIR Phase II awards. Although the state SBIR statute remains in effect, the state stopped funding the program after its initial success, in part 11 because of disagreement over how to allocate limited funds among the 12 13 rapidly increasing number of federal SBIR award winners. Consequently, the number of state winners dramatically decreased. This act recodifies 14 15 the small business innovation research program within the public authorlaw under the auspices of the foundation for science, technology 16 ities and innovation, and clarifies how funds will be allocated so that the 17 program can begin anew to assist small high technology companies to compete for federal SBIR funds, which will help them grow and provide 18 19 20 new jobs for New York citizens.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets
[] is old law to be omitted.
