## 2011-2012 Regular Sessions

## IN SENATE

March 2, 2011

Introduced by Sen. ALESI -- read twice and ordered printed, and when printed to be committed to the Committee on Commerce, Economic Development and Small Business

AN ACT to amend the economic development law, in relation to establishing the academic research information access act

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings. The public and private academic and research libraries of New York individually license research and development information resources, access to which is vitally important to the furtherance of an innovation-based economy. The primary obstacles limiting access to these information resources both at institutions of higher education, and within the entrepreneurial community, are the high cost of licensing agreements and restrictive contracts that inhibit collaboration. New companies and emerging industries will be encouraged to locate their business in New York state adding to state revenues that are derived by the existence of such private and public sector commerce. Therefore, it is in the best interests of the economic development and higher education interests of this state to enact the academic research information access act.
