4 section 11-0903 of the environmental conservation law, as amended by
5 chapter 149 of the laws of 2007, are amended to read as follows:

6 8. Notwithstanding any provision of law, rule or regulation to the
7 contrary, the department may, until October first, two thousand [eleven]

33 a. Until October first, two thousand [eleven] FOURTEEN, whenever in
34 its opinion the population of deer in any area of the state except in
35 the northern zone is such that additional harvest of deer is reasonably
36 necessary to properly manage the deer herd in the state in balance with
37 the available deer range and natural food supply, the department may
38 provide by regulation for issuance of deer management permits, permit-
39 ting the taking of one deer for the permit, in addition to the limit of
40 one deer that may otherwise be taken by one person in a license year.

48 this section or may be for up to a fourteen-day period following such
49 open season or any combination thereof, provided that a maximum of
