I N   S E N A T E

(PREFILED)

January 5, 2011

---

Introduced by Sen. VALESKY -- read twice and ordered printed, and when printed to be committed to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to preparing a report on the economic impact of hunting and fishing; and providing for the repeal of such provisions upon the expiration thereof

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. Legislative intent.     The legislature hereby finds that  
2     according to a "2001 National Survey of Fishing, Hunting, and Wildlife-  
3     Associated Recreation," recreational anglers and hunters spent more than  
4     \$3.5 billion in pursuit of their pastimes in New York in 2001. The 1996  
5     survey found that expenditures include monies spent for equipment, bait  
6     and tackle, hotels and motels, restaurants, lodges and camps, grocery  
7     and hardware stores, and guide services. The survey also found that  
8     these expenditures and their associated economic impact supported 43,000  
9     jobs and generated \$100 million in state sales tax and \$32 million in  
10    state income tax in New York state in 1996. Nationally, the survey  
11    estimated that hunting and fishing supported 1.9 million jobs and gener-  
12    ated \$2.9 billion in state sales tax and \$772 million in state income  
13    tax. The legislature finds and declares that hunting, fishing, and  
14    wildlife-associated recreation support jobs, generate sales and income  
15    taxes, and are an integral component of the tourism industry and the  
16    overall economy in New York state. Efforts are underway in each state  
17    to promote tourism, including hunting, recreational fishing, and wild-  
18    life-associated recreation in the name of economic development. The  
19    legislature also finds that the department of environmental conservation  
20    must rely on a study every five years by the United States Departments  
21    of Interior and Commerce to determine the number of people who hunt and  
22    fish and expenditures relating to their recreation. Therefore, this

1 legislation is intended to provide more accurate and timely information  
2 to policy makers and department administrators regarding the tourism and  
3 economic impact of hunting, fishing and wildlife-associated recreation  
4 in New York state.

5 S 2. The environmental conservation law is amended by adding a new
