6 RETIREMENT PROVIDING FOR THE PAYMENT OF A LESSER RETIREMENT ALLOWANCE  
7 OVER THE LIFE OF THE RETIREE WITH THE PROVISION THAT UPON THE RETIREE'S  
8 DEATH ALL OR A PORTION OF SUCH ALLOWANCE SHALL BE CONTINUED FOR THE LIFE  
9 OF AND PAID TO A BENEFICIARY DULY NOMINATED BY THE RETIREE AT RETIRE-

17 OF THE SYSTEM TO THE BENEFICIARY UNDER THE RETIREE'S OPTION SELECTION  
18 SHALL BE TOTALLY DISCHARGED AND THE RETIREE SHALL THEREAFTER BE PAID FOR  
19 THE REMAINDER OF SUCH RETIREE'S LIFE THE MAXIMUM SINGLE LIFE BENEFIT  
20 WHICH WOULD HAVE BEEN PAYABLE, HAD THE RETIREE MADE NO OPTION SELECTION

23 VISION.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This proposed legislation would amend Retirement and Social Security Law ("RSSL") Sections 514 and 610 to allow certain Tier III and Tier IV retirees of the New York City Teachers' Retirement System ("TRS") the opportunity to change certain optional forms of benefit after retirement similar to the provisions set forth in Administrative Code of the City of New York ("ACNY") Section 565(c).

ACNY Section 565(c) covers only Tier I and Tier II members of TRS.

In addition, for purposes of this Fiscal Note, the references herein to Tier IV include those TRS members whose dates of membership are on or after April 1, 2012 (a.k.a., Tier VI members).

Specifically, this proposed legislation would permit a Tier III or Tier IV retiree of TRS who has nominated his or her spouse as the survivor beneficiary to change, under certain optional forms of benefit and with the consent of his or her spouse and the TRS Retirement Board, from the optional form of benefit originally chosen to the maximum benefit that is the actuarial equivalent, if such person:

- (1) ceases by causes other than death to be his or her spouse, or
- (2) is separated from him or her, or
- (3) if such option was selected in contemplation of marriage which has not taken place.

The Effective Date of the proposed legislation would be the date of enactment.

FINANCIAL IMPACT - ACTUARIAL PRESENT VALUE OF BENEFITS AND EMPLOYER CONTRIBUTIONS: To the extent that the probabilities of survival of the retiree and the beneficiary designated under the optional form of benefit have not changed significantly since such optional form of benefit was instituted, then the enactment of this proposed legislation is

expected to result in little or no change in the Actuarial Present Value of Benefits ("APVB") or employer contributions to TRS.

OTHER COSTS: The enactment of this proposed legislation would result in some administrative expenses for TRS.

This estimate is intended for use only during the 2012 Legislative Session. It is Fiscal Note 2012-10, dated May 18, 2012 prepared by the Chief Actuary of the New York City Teachers' Retirement System.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend Section 539 of the Education Law to allow a retired member of the New York State Teachers' Retirement System (NYSTRS) who selects an optional form of retirement benefit that provides that upon the retired member's death, all, or a percentage of, such optional form of retirement benefit shall be continued for the life of a beneficiary, to rescind the selection of such option within one year after such beneficiary ceases to be the retired member's spouse by reason of a final judgment or decree of divorce. In order to rescind such optional form of retirement benefit, the retired member and beneficiary must each file a written consent with respect to such change with NYSTRS. Upon NYSTRS' receipt of the judgment or decree of divorce and the written consents, the retired member would receive the maximum single-life retirement benefit for the remainder of his or her lifetime, as if no option had been selected at retirement. Any and all obligations of NYSTRS to the beneficiary under the option selection shall be considered totally discharged. This bill shall apply to retirement benefits payable on or after June 30, 2012.

The annual cost to the employers of members of the New York State Teachers' Retirement System for this benefit is estimated to be very low, likely less than \$200,000 per year. Allowing retired members to change the terms of their option after retirement creates the potential for anti-selection however.

The source of this estimate is Fiscal Note 2012-31 dated May 24, 2012 prepared by the Actuary of the New York State Teachers' Retirement System and is intended for use only during the 2012 Legislative Session. I, Richard A. Young, am the Actuary for the New York State Teachers' Retirement System.
