Introduced by M. of A. TEDISCO, BUTLER, CALHOUN, CROUCH, KOLB -- Multi-Sponsored by -- M. of A. FITZPATRICK, SAYWARD -- read once and referred to the Committee on Children and Families

AN ACT to amend the social services law, in relation to requiring disclosure of hereditary diseases of an adopted child or the biological parents of an adopted child

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 Section 1. Legislative intent. The legislature hereby finds and
2 declares that when an adoptive child is discovered to have a hereditary
3 disease, in most cases, the biological parents are unaware because the
4 adoptive parents fail to notify them and therefore as a result they may
5 have no idea that they are carriers of the hereditary disease. The
6 biological parents also will be unaware of the fact that any subsequent
7 offspring will be susceptible to the disease.

8 Similarly, where the biological parents discover that they are carri-
9 ers of a hereditary disease, they are unable to, or will not attempt to,
10 contact the adoptive parents. The adoptive parents and the adopted child
11 are therefore left unaware and are in a position where they are vulner-
12 able to an unknown disease. They too, are unable to take any prepara-
13 tional measures that might help to diagnose and or treat the disease.

14 The legislature further finds and declares that to remedy such situ-
15 ation, it is imperative that adoptive parents, biological parents and
16 adoptive children all be put on notice as to the existence of a heredi-
17 tary disease by requiring the existence thereof to be promptly disclosed
18 to such parties so that they may effectively deal with such matter.

19 S 2. The social services law is amended by adding a new section 373-b
20 to read as follows:
