AN ACT to amend the education law, in relation to the educational preparation for practice of professional nursing

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1     Section 1. The legislature hereby finds and declares that with the  
2     increasing complexity of the American healthcare system and rapidly  
3     expanding technology, the educational preparation of the registered  
4     professional nurse must be expanded. The nurse of the future must be  
5     prepared to partner with multiple disciplines as a collaborator and  
6     manager of the complex patient care journey. Shorter lengths of stays,  
7     higher patient acuity, and more sophisticated technologies and proce-  
8     dures are increasing the complexity of patient care - which in turn  
9     places great demands on nursing competencies. Other countries are  
10    responding to these changes by requiring the baccalaureate degree as an  
11    entry requirement for nursing licensure while other professions are  
12    demanding master and doctoral degrees as their entry point. Several  
13    recent research studies clearly demonstrate the added value of addi-  
14    tional education in relation to improved patient outcomes; one study  
15    demonstrates that each ten percent increase in the number of baccalau-  
16    reate prepared nurses results in a five percent decrease in surgical  
17    patient deaths. Therefore, the legislature finds that expanding the  
18    educational requirements for the profession of nursing, while maintain-

1 ing the multiple entry points into the profession, is needed. This bill  
2 affects future nurses graduating from associate degree or diploma nurs-  
3 ing programs who would be required to obtain a baccalaureate in nursing  
4 within ten years of initial licensure. All current nurses licensed in  
5 New York and students in programs preparing for registered professional  
6 nursing are to be exempt from the new requirement. This legislation is  
7 mirrored after the progressive education requirement for teachers in New  
8 York state. Numerous regulatory and accrediting bodies have recommended  
9 this change as a means to address sophisticated patient care needs  
10 resulting from shorter lengths of stay, higher acuity and more sophisti-  
11 cated interventions. This proposal is the result of a growing body of  
12 research evidence that additional education results in better patient  
13 outcomes. Therefore by requiring the baccalaureate degree for continued  
14 registration as a registered professional nurse this bill seeks to be  
15 responsive to meet the increasingly complex health care needs of the  
16 residents of New York state.

17 S 2. Subdivision 2 of section 6905 of the education law, as amended by  
18 chapter 994 of the laws of 1971 and such section as renumbered by chap-  
19 ter 50 of the laws of 1972, is amended to read as follows:

21 professional nursing, in accordance with the commissioner's regulations,

25 WITH THE COMMISSIONER'S REGULATIONS. IN ITS DISCRETION, THE DEPARTMENT  
26 MAY ISSUE A CONDITIONAL REGISTRATION TO A LICENSEE WHO FAILS TO COMPLETE  
27 THE BACCALAUREATE DEGREE BUT WHO AGREES TO MEET THE ADDITIONAL REQUIRE-  
28 MENT WITHIN ONE YEAR. THE FEE FOR SUCH A CONDITIONAL REGISTRATION SHALL

30 TION. THE DURATION OF SUCH CONDITIONAL REGISTRATION SHALL BE FOR ONE  
31 YEAR AND MAY BE EXTENDED, WITH THE PAYMENT OF A FEE, FOR NO MORE THAN
