AN ACT to amend the environmental conservation law, in relation to prohibiting the release of certain balloons

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. Legislative findings. The legislature finds that the release of large quantities of helium-filled, latex or mylar balloons has become a popular method of celebration and advertisement and result in litter on land and at sea; that sea mammals and other marine life die upon ingesting deflated balloons; that growing public awareness concerning plastic pollution has had the salutary effect of causing the cancellation of several celebratory and promotional launches of balloons; and that placing statutory limitations on the quantity of balloons that may be launched on a daily basis will reduce litter and protect the ocean environment, and is in the public interest.

S 2. The environmental conservation law is amended by adding two new sections 11-0331 and 71-0929 to read as follows:
