For a school district performance improvement awards grant.
Funds appropriated herein shall be used to provide competitive grants pursuant to a request for proposals, developed by the commissioner and approved by the director of budget to those school districts that are participating in the race to the top program and/or which demonstrate satisfactory progress, as determined by the commissioner, towards implementation of elements such as high quality student

assessments; use of data to improve instruction and student performance and provision of professional development to improve teacher performance; and that those eligible districts also demonstrate the most improved academic achievement gains and student outcomes such as establishing or expanding participation in college level or early college programs; and other appropriate measures of student performance; provided further that in determining the amount of the award to be made from the funds appropriated herein for those school districts identified as making the greatest achievement gains and eligible for such award, the maximum grant award available to each school district shall be based upon the size of the district measured by public school enrollment of the district; and provided further that such amount shall be adjusted based upon measures of district need and provided further that no district receiving a grant may be awarded more than forty percent of the total amount awarded; and provided further that any such funds awarded to a school district shall be used to increase student performance, narrow the achievement gap, and increase academic performance in traditionally underserved student groups 250,000,000

For a school district management efficiency awards program. Funds appropriated herein shall be used to provide competitive awards to school districts based on a plan developed by the commissioner in consultation with the secretary of state and approved by the director of the budget. Provided that such funds may only be awarded to a school district which demonstrates that it has implemented one or more long term efficiencies within two years prior to a response to a request for proposal or during the current school year in school district management, operations, procurement practices or other cost savings measures and will not result in an increase in cost to the state or the locality and: (i) have resulted or will result in a significant reduction in total operating expenses compared to the prior year and/or significant reductions in the

administrative component, or the equivalent, of the school district budget and/or transportation operating expenses and/or transportation capital expenses and/or other non-personal service costs included in the program component of the school district budget compared to the prior year; and (ii) are expected to result in substantial and recurring cost savings in total operating expenses and/or recurring significant reductions in administrative expenditures, or the equivalent, and/or transportation operating expenses and/or transportation capital expenses and/or other non-personal service costs included in the program component of the school district budget in future years 250,000,000

Notwithstanding any inconsistent provision of law, for general support for public schools, for the 2011-2012 and 2012-13 state fiscal years provided, however, that not more than 40.16 percent of this appropriation shall be available for 2011-12 state fiscal year payments for general support for public schools for the 2011-12 school year, nor more than 18.48 percent of this appropriation shall be available for remaining payments for the 2011-12 school year payable in the 2012-13 state fiscal year and provided further that notwithstanding any inconsistent provision of law, the remaining amounts available for the 2012-13 school year shall be apportioned to school districts pursuant to the education law and subject to the limitations of this appropriation including the gap elimination adjustment as provided for herein.

Provided that, notwithstanding any inconsistent provision of law, the commissioner shall reduce payments due to each school district for the 2011-12 school year pursuant to section 3609-a of the education law by an amount equal to the gap elimination adjustment for the 2011-12 school year computed for such school district, and such amount shall be deducted from moneys apportioned for the purposes of payments made pursuant to such section 3609-a and if the reduction is greater than the sum of the amounts available for such deductions, the remainder of

the reduction shall be withheld from payments scheduled to be made to the school district pursuant to section 3609-a for the 2012-13 school year in the 2012-13 state fiscal year, and the commissioner shall also reduce payments due to each school district for the 2012-13 school year pursuant to section 3609-a of the education law by an amount equal to the gap elimination adjustment for the 2012-13 school year computed for such school district, and such amount shall be deducted from moneys apportioned for the purposes of payments made pursuant to such section 3609-a in the 2012-13 state fiscal year, and provided further that an amount equal to the amount of such deduction shall be deemed to have been paid to the school district pursuant to this section for the school year for which such deduction is made. The commissioner shall compute such gap elimination adjustment and shall provide a schedule of such reduction in payments to the state comptroller, the director of the budget, the chair of the senate finance committee and the chair of the assembly ways and means committee, and provided further that the gap elimination adjustment for the 2011-12 school year shall be computed as follows, based on an updated electronic data file containing actual and estimated data relating to apportionments due and owing during the current school year and projections of such apportionments for the following school year to school districts and boards of cooperative educational services from the general support for public schools and boards of cooperative educational services appropriations produced pursuant to paragraph b of subdivision twenty-one of section three hundred five of the education law on February fifteenth of the base year. The gap elimination adjustment for a school district shall equal the lesser of the school district's percentage reduction and its TGFE check, provided, however, that in the case of a school district with a tax effort ratio computed pursuant to subparagraph three of paragraph a of subdivision sixteen of section 3602 of the education

law greater than four percent (0.04) and a combined wealth ratio for total foundation aid computed pursuant to subparagraph two of paragraph c of subdivision three of section 3602 of the education law that is less than one and five-tenths (1.5), the gap elimination adjustment for a school district shall equal the lesser of the percentage reduction, the TGFE check and the tax effort reduction, and further provided that in the case of a school district, other than a city school district of a city having a population in excess of one hundred twenty-five thousand, with (A) an administrative efficiency ratio of less than one and eight-tenths percent (0.018) and (B) an administrative expense per pupil of less than three hundred forty-eight dollars ($348), the gap elimination adjustment shall be reduced by an amount equal to the administrative efficiency restoration, and further provided that, where applicable, the gap elimination adjustment shall be reduced by an amount equal to the sum of the needs-based restoration plus the low wealth-high tax effort restoration plus the enrollment adjustment award.

(i) The percentage reduction shall be the sum of (A) the product of the total aid for adjustment, multiplied by six and four-tenths percent (0.064), and (B) the product of four thousand four hundred dollars ($4,400) multiplied by the reduction factor, multiplied by the public school district enrollment for the base year computed pursuant to subparagraph two of paragraph n of subdivision one of section 3602 of the education law, provided, however, that such percentage reduction shall not be less than the product of nine and one-half percent (0.095) multiplied by such total aid for adjustment, and not more than the product of twenty-one and four-tenths percent (0.214) multiplied by such total aid for adjustment.

(ii) The tax effort reduction shall be the product of the total aid for adjustment, multiplied by the quotient of twenty-three percent (0.23) divided by the quotient of the tax effort ratio computed pursuant to

subparagraph three of paragraph a of subdivision sixteen of section 3602 of the education law divided by four and two hundred forty-seven thousandths percent (0.04247), provided, however, that such tax effort reduction shall not be less than the product of thirteen percent (0.13) multiplied by such total aid for adjustment, and not more than the product of twenty-three percent (0.23) multiplied by such total aid for adjustment.

Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents and persons in need of supervision placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2011-12 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or

4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office. Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2011 through March 31, 2012 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2010 that are submitted on or before January 3, 2011 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 95.4 percent of 65 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and

subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances

are for services provided or claims made prior to or after April 1, 2011.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such

amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social

services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant

to article 78 of the civil practice laws and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, the money hereby appropriated shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund - local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state comptroller or the state

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

method may be considered at the discretion of the commissioner of health and the director of the budget based upon consultation with the health care industry including but not limited to, a uniform reduction in medicaid rates of payment or other reductions provided that any method selected achieves no more than $702,000,000 in medicaid state share savings, except as hereinafter provided, for services provided on and after April 1, 2011 through March 31, 2013. Any alternative methods to achieve the reduction must be provided in writing and shall be filed with the senate finance committee and the assembly ways and means committee not less than thirty days before the date of which implementation is expected to begin. (v) at the discretion of the commissioner of health and the director of the budget, payments with regard to which it is determined by the commissioner of health and the director of the budget that application of reductions pursuant to this section would result, by operation of federal law, in a lower federal medical assistance percentage applicable to such payments.

Reductions to medicaid payments or medicaid rates of payments made pursuant to this section shall be subject to the receipt of all necessary federal approvals. Not less than 30 days prior to the conclusion of each state fiscal year in which the provisions of this section apply, the department of health shall prepare and transmit a report to the legislature that details the actions taken to implement the medicaid state share reductions established pursuant to this section. Such report shall be provided to the chair of the senate finance committee and the assembly ways and means committee.

Notwithstanding paragraph (c) of subdivision 10 of section 2807-c of the public health law, section 21 of chapter 1 of the laws of 1999, or any other contrary provision of law, in determining rates of payments by state governmental agencies effective for services provided for the period January 1, 2013 through March 31, 2013, for inpatient and outpatient services provided by general hospitals, for inpatient services and adult day health care outpatient services provided by residential

Such reductions shall be based on utilization thresholds which may be established either as provider-specific or patient-specific thresholds. The thresholds, peer based standards and the payment reductions shall be determined by the department of health, with the approval of the division of the budget, and in consultation with the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services, and any such resulting rates shall be subject to certification by the appropriate commissioners pursuant to subdivision (a) of section 43.02 of the mental hygiene law. The base period used to establish the thresholds shall be the 2009 calendar year. The total annualized reduction in payments shall be no less than $10,900,000 for Article 31 clinics, no less than $2,400,000 for Article 16 clinics, and no less than $13,250,000 for

Article 32 clinics. Provided however if this chapter provides sufficient additional funding to cover the cost of targeted medicaid reimbursement rate reductions enumerated in this section, then the provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health is authorized, in consultation with the commissioners of the office of mental health, office of alcoholism and substance abuse services, and office for people with developmental disabilities to: establish, in accordance with applicable federal law and regulations, standards for the provision of health home services to enrollees with chronic conditions in the program of medical assistance for needy persons; establish payment methodologies for health home services based on factors including but not limited to the complexity of the conditions providers will be managing, the anticipated amount of patient contact needed to manage such conditions, and the health care cost savings realized by provision of health home services; establish the criteria under which such an enrollee will be designated as being eligible to receive health home services; and assign any enrollee designated as an eligible individual to a provider of health home services. Until such time as the commissioner of health obtains necessary waivers and/or approvals under the federal social security act, enrollees assigned to providers of health home services will be allowed to opt out of such services. In addition, upon enrollment, an enrollee shall be offered an option of at least two providers of health home services, to the extent practicable. In addition to such payments made for health home services, the commissioner of health is authorized to pay additional amounts to providers of health home services that meet process or outcome standards specified by the commissioner. Payment for such health home

services and such additional payments will be made with state funds only, to the extent that such funds are appropriated therefore, until such time as federal financial participation in the costs of such services is available. The commissioner of health is authorized to submit amendments to the state plan for medical assistance and/or submit one or more applications for waivers of the federal social security act, to obtain federal financial participation in the costs of health home services. Notwithstanding any limitations imposed by section 364-l of the social services law, the commissioner is authorized to allow entities participating in demonstration projects established pursuant to such section to provide health home services. Notwithstanding any law, rule, or regulation to the contrary, the commissioners of the department of health, the office of mental health, and the office of alcoholism and substance abuse services are authorized to jointly establish a single set of operating and reporting requirements and a single set of construction and survey requirements for entities that can demonstrate experience in the delivery of health, and mental health and/or alcohol and substance abuse services and the capacity to offer integrated delivery in each location approved by the commissioner, and meet the standards for providing and receiving payment for health home services. In establishing a single set of operating and reporting requirements and a single set of construction and survey requirements for entities described in this subdivision, the commissioners of the department of health, the office of mental health, and the office of alcoholism and substance abuse services are authorized to waive any regulatory requirements as are necessary to avoid duplication of requirements and to allow the integrated delivery of services in a rational and efficient manner. Provided, however, if this chapter appropriates sufficient additional funds to provide coverage for persons with chronic conditions under the program of medical assistance for needy persons with-

out the savings to be achieved through the provision of health home services, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013: coverage under the medicaid program for enteral formula therapy and nutritional supplement are limited to coverage only for nasogastric, jejunostomy, or gastrostomy tube feeding or for treatment of an inborn metabolic disorder or to address growth and developmental problems in children; coverage under the medicaid program for prescription footwear and inserts is limited to coverage only when used as an integral part of a lower limb orthotic appliance, as part of a diabetic treatment plan, or to address growth and development problems in children; coverage under the medicaid program for compression and support stockings is limited to coverage only for pregnancy or treatment of venous stasis ulcers; and the commissioner of health is authorized to require prior authorization for prescriptions of opioid analgesics in excess of four prescriptions in a 30-day period. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid coverage of such services without imposing such limitations, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through march 31, 2013, when Medicaid eligible persons are also beneficiaries under part B of title XVIII of the federal social security act and payment under part B would exceed the amount that would be paid by Medicaid if the person were not eligible under part B or a qualified Medicare beneficiary, the amount payable under the Medicaid program shall be twenty percent of the amount of any coinsurance liability of such eligible person pursuant to federal law if they were not eligible for Medi-

caid or were not a qualified Medicare beneficiary, but only with respect to services covered under title eleven of article five of the social services law; provided however that amounts payable with respect to items and services covered under such title and provided to eligible persons who are also beneficiaries under part B or to qualified medicare beneficiaries by an ambulance service under the authority of an operating certificate issued pursuant to article thirty of the public health law, a psychologist licensed under article one hundred fifty-three of the education law, or a facility under the authority of an operating certificate issued pursuant to article sixteen, thirty-one or thirty-two of the mental hygiene law, and with respect to outpatient hospital and clinic items and services covered under such title and provided by a facility under the authority of an operating certificate issued pursuant to article twenty-eight of the public health law, shall not be less than the amount of any co-insurance liability of such eligible persons or such qualified medicare beneficiaries, or for which such eligible persons or such qualified medicare beneficiaries would be liable under federal law were they not eligible for medical assistance or were they not qualified medicare beneficiaries with respect to such benefits under part B.

Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments under subparagraph (iii) of paragraph (d) of subdivision one of section three hundred sixty-seven-a of the social services law with respect to services not covered under title eleven of article five of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, amounts payable under section three hundred sixty-seven-a of the social services law with respect to hospi-

tal outpatient services or diagnostic and treatment center services pursuant to article twenty-eight of the public health law provided to Medicaid eligible persons who are also beneficiaries under part B of title XVIII of the federal social security act shall not exceed the approved medical assistance payment level less the amount payable under part B. Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments under section three hundred sixty-seven-a of the social services law with respect to hospital outpatient services or diagnostic and treatment center services provided to Medicaid eligible persons who are also beneficiaries under part B without such limitation, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. (a) The commissioners of the office of mental health and the office of alcoholism and substance abuse services, in consultation with the commissioner of health, the impacted local governmental units, and with the approval of the division of budget, shall have responsibility for jointly designating regional entities to provide administrative and management services for the purposes of prior approving and coordinating the provision of behavioral health services, facilitating the continuity of post-hospitalization behavioral health services, and the integration of behavioral health services with other services available under the medical assistance program, for recipients of medical assistance who are not enrolled in managed care, and for approval, coordination, facilitating continuity and integration of behavioral health services that are not provided through managed care programs under the medical assistance program for individuals regardless of whether or not such individuals are enrolled in managed care programs. Such

regional entities shall also be responsible for promoting appropriate care and service utilization while safeguarding against unnecessary utilization of such care and services and assuring that payments are consistent with the efficient and economical delivery of quality care. In exercising this responsibility, the commissioners of the office of mental health and the office of alcoholism and substance abuse services are authorized to contract, after consultation with the commissioner of health and the impacted local governmental units, with regional behavioral health organizations or other entities. Such contracts may include responsibility for: receipt, review, and determination of prior authorization requests for behavioral health care and services, consistent with criteria established or approved by the commissioners of mental health and alcoholism and substance abuse services, and authorization of appropriate care and services based on documented patient medical need.

(b) Notwithstanding any inconsistent provision of sections one hundred twelve and one hundred sixty-three of the state finance law, or section one hundred forty-two of the economic development law, or any other law to the contrary, the commissioners of the office of mental health and the office of alcoholism and substance abuse services are authorized to enter into a contract or contracts under subdivision 1 without a competitive bid or request for proposal process, provided, however, that the office of mental health and the office of alcoholism and substance abuse services shall post on their websites, for a period of no less than thirty days: (i) a description of the proposed services to be provided pursuant to the contractor contracts; (ii) the criteria for selection of a contractor or contractors; (iii) the period of time during which a prospective contractor may seek selection, which shall be no less than thirty days after such information is first posted on the website; and (iv) the manner by which a prospective contractor may seek such selection, which may include

submission by electronic means. All reasonable and responsive submissions that are received from prospective contractors in timely fashion shall be reviewed by the commissioners.

(c) The commissioners of the office of mental health and the office of alcoholism and substance abuse services, in consultation with the commissioner of health and the impacted local governmental units, shall select such contractor or contractors that, in their discretion, have demonstrated the ability to effectively, efficiently, and economically integrate behavioral health and health services; have the requisite expertise and financial resources; have demonstrated that their directors, sponsors, members, managers, partners or operators have the requisite character, competence and standing in the community, and are best suited to serve the purposes described in this subdivision.

2. Initial designations of such plan or provider systems should be made no later than April first, two thousand thirteen, provided, however, such designations shall be contingent upon a determination by such state commissioners that the entities to be designated have the capacity and financial ability to provide services

in such plans or provider systems, and that the region has a sufficient population and service base to support such plans and systems. Once designated, the commissioner of health shall make arrangements to enroll such enrollees in such plans or integrated provider systems and to pay such plans or provider systems on a capitated or other basis to manage, coordinate, and pay for behavioral and physical health medical assistance services for such enrollees.

(b) Notwithstanding any inconsistent provision of section one hundred twelve and one hundred sixty-three of the state finance law, and section one hundred forty-two of the economic development law, or any other law to the contrary, the designations of such plans and provider systems, and any resulting contracts with such plans, providers or provider systems are authorized to be entered into by such state commissioners without a competitive bid or request for proposal process, provided, however, that the department of health, the office of mental health and the office of alcoholism and substance abuse services shall post on their websites, for a period of no less than thirty days: (i) a description of the proposed services to be provided by the plans or systems; (ii) the criteria for selection of a plan or system; (iii) the period of time during which a prospective plan or system may seek selection, which shall be no less than thirty days after such information is first posted on the website; and (iv) the manner by which a prospective plan or system may seek such selection, which may include submission by electronic means. All reasonable and responsive submissions that are received from prospective plans or systems in timely fashion shall be reviewed by the commissioners.

(c) The commissioners of the office of mental health and the office of alcoholism and substance abuse services, in consultation with the commissioner of health and the impacted local governmental units, and for contracts affecting a city with a population of over one million, also with

such city's local social services district and local governmental unit, as such term is defined in the mental hygiene law, shall select such plans or systems that, in their discretion, have demonstrated the ability to effectively, efficiently, and economically manage the behavioral and physical health needs of medical assistance enrollees with significant behavioral health needs; have the requisite expertise and financial resources; have demonstrated that their directors, sponsors, members, managers, partners or operators have the requisite character, competence and standing in the community, and are best suited to serve the purposes described in this subdivision. Oversight of such contracts with such plans, providers or provider systems shall be the joint responsibility of such state commissioners, and for contracts affecting a city with a population of over one million, also with such city's local social services district and local governmental unit, as such term is defined in the mental hygiene law.

3. The commissioner of health, jointly with the commissioner of mental health and the commissioner of alcoholism and substance abuse services shall be authorized to establish special needs managed care and specialized managed care plans, under the medical assistance program and certified under section forty-four hundred three-d of the public health law, in accordance with applicable federal law and regulations. The commissioner of health, in cooperation with such commissioners, is authorized, subject to the approval of the director of the state division of the budget, to apply for federal waivers when such action would be necessary to assist in promoting the objectives of subdivisions 1 and 2. Provided, however, if this chapter appropriates sufficient additional funds to provide coverage for behavioral health care and services under the program of medical assistance for needy persons without the savings to be achieved by contracting for the prior authorization and coordination of the provision of such services, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

period April 1, 2010 through March 31, 2012, the commissioner of health and the director of the budget shall, upon a determination by such commissioner and such director that such rate adjustments shall, prior to the application of any applicable adjustment for inflation, result in an aggregate increase in total medicaid rates of payment for such services for either such state fiscal year, including payments made pursuant to subparagraph (i) of paragraph (d) of subdivision 2-c of section 2808 of the public health law, make such proportional adjustments to such rates as are necessary to reduce such total aggregate rate adjustments within each such year such that the aggregate total for each such year reflects no such increase or decrease, and provided further, however, that adjustments made pursuant to this paragraph shall not be subject to subsequent correction or reconciliation, and provided further, however, that if this chapter provides sufficient additional funding to cover the cost of such rate adjustments to the rates enumerated in this paragraph, then provisions of this paragraph shall be deemed null and void as of March 31, 2011.

Notwithstanding any contrary provision of law, rule or regulation, for the period April 1, 2011 through March 31, 2013, the capital cost component of medicaid rates of payment for services provided by residential health care facilities may not include any payment factor for return on or return of equity, and provided further, however, that for that period no adjustment to rates of payment may be made pursuant to paragraph (d) of subdivision 20 of section 2808 of the public health law as in effect on March 31, 2011, provided, however, that if this chapter provides sufficient additional funding to cover the cost of the adjustments to the rates enumerated in this section, then provisions of this section shall be deemed null and void as of March 31, 2011.

temporary hospitalizations may not exceed fourteen days in any twelve month period; payment for reserved bed days for non-hospitalization leaves of absence may not exceed ten days in any twelve month period; and payments for reserved bed days for temporary hospitalizations shall only be made to a residential health care facility if at least 50 percent of the facility's residents eligible to participate in a medicare managed care plan are enrolled in such a plan. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid payments for reserved bed days without regard to the percentage of a residential health care facility's residents that are enrolled in a medicare managed care plan, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 2,502,549,000

For services and expenses of the medical assistance program including other long term care services.

Notwithstanding any inconsistent provision of law or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, for participating providers, meaning certified home health agencies, long term home health agencies and personal care providers with total medicaid reimbursements exceeding $15,000,000 per calendar year, every service or item within a claim submitted by a participating provider shall be reviewed and verified by a verification organization prior to submission of a claim to the department of health provided that the verification organization shall declare each service or item to be verified or unverified and provided that each participating provider shall receive and maintain reports for the verification organization which shall contain data on verified items or services including whether a service appeared on a conflict or exception report before verification and how that conflict or exception was resolved and items or services that were not verified, including conflict and exception report data for these services and provided that every service or item within a claim submitted

by a participating provider shall be reviewed and verified by a verification organization prior to submission of a claim to the department of health provided that the verification organization shall declare each service or item to be verified or unverified. Provided, however, if this chapter appropriates sufficient additional funds to support participating providers of medical assistance program items subject to preclaim review otherwise provided for in the public health law, than the provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The amount of personal care services covered by the medicaid program shall not exceed eight hours per week for individuals whose needs are limited to nutritional and environmental support functions.

2. The commissioner of health is authorized to adopt standards for the provision and management of personal care services covered by the medicaid program for individuals whose need for such services exceeds a specified level to be determined by the commissioner of health.

3. The commissioner of health is authorized to provide assistance to persons receiving personal care services covered by the medicaid program who are transitioning to receiving care from a managed long term care plan certified pursuant to section 4403-f of the public health law.

4. Provided, however, if this chapter appropriates sufficient additional funds to allow for the payment of personal care services at the level provided for in paragraph (e) of subdivision 2 of section 365-a of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law or regulation and subject to the availability of federal financial participation,

(a) for the period April 1, 2011 through March 31, 2013, rates of payment by government agencies for services provided by certified home health agencies, except for such services provided to children under eighteen years of age and other discrete groups as may be determined by the commissioner, shall reflect ceiling limitations determined in accordance with this section, provided, however, that at the discretion of the commissioner such ceilings may, as an alternative, be applied to payments for services provided for the period April 1, 2011 through March 31, 2012, except for such services provided to children and other discrete groups as may be determined by the commissioner. In determining such payments or rates of payment, agency ceilings shall be established. Such ceilings shall be applied to payments or rates of payment for certified home health agency services as established pursuant to this section and applicable regulations. Ceilings shall be based on a blend of: (i) an agency's 2009 average per patient medicaid claims, weighted at a percentage as determined by the commissioner; and (ii) the 2009 statewide average per patient medicaid claims adjusted by a regional wage index factor and an agency patient case mix index, weighted at a percentage as determined by the commissioner. Such ceilings will be effective April 1, 2011 through March 31, 2012. An interim payment or rate of payment adjustment effective April 1, 2011, shall be applied to agencies with projected average per patient medicaid claims, as determined by the commissioner, to be over their ceilings. Such agencies shall have their payments or rates of payment reduced to reflect the amount by which such claims exceed their ceilings.

(b) Ceiling limitations determined pursuant to subdivision (a) of this section shall be subject to reconciliation. In determining payment or rate of payment adjustments based on such reconciliation, adjusted agency ceilings shall be established. Such adjusted ceilings shall be based on a blend of: (i) an agency's 2009 average per patient medicaid claims adjusted by the

percentage of increase or decrease in such agency's patient case mix from the 2009 calendar year to the annual period April 1, 2011 through March 31, 2012, weighted at a percentage as determined by the commissioner; and (ii) the 2009 statewide average per patient medicaid claims adjusted by a regional wage index factor and the agency's patient case mix index for the annual period April 1, 2011 through March 31, 2012, weighted at a percentage as determined by the commissioner. Such adjusted agency ceiling shall be compared to actual medicaid paid claims for the period April 1, 2011 through March 31, 2012. In those instances when an agency's actual per patient medicaid claims are determined to exceed the agency's adjusted ceiling, the amount of such excess shall be due from each such agency to the state and may be recouped by the department in a lump sum amount or through reductions in the medicaid payments due to the agency. In those instances where an interim payment or rate of payment adjustment was applied to an agency in accordance with paragraph (a), and such agency's actual per patient medicaid claims are determined to be less than the agency's adjusted ceiling, the amount by which such medicaid claims are less than the agency's adjusted ceiling shall be remitted to each such agency by the department in a lump sum amount or through an increase in the medicaid payments due to the agency.

(c) Interim payment or rate of payment adjustments pursuant to this section shall be based on medicaid paid claims, as determined by the commissioner, for services provided by agencies in the base year 2009. Amounts due from reconciling rate adjustments shall be based on medicaid paid claims, as determined by the commissioner, for services provided by agencies in the base year 2009 and medicaid paid claims, as determined by the commissioner, for services provided by agencies in the reconciliation period April 1, 2011 through March 31, 2012. In determining case mix, each patient shall be classified using a system based on measures which may include, but not be

limited to, clinical and functional measures, as reported on the federal Outcome and Assessment Information Set (OASIS), as may be amended.

(d) The commissioner may require agencies to collect and submit any data required to implement the provisions of this section.

(e) Payments or rate of payment adjustments determined pursuant to this section shall, for the period April 1, 2011 through March 31, 2012, be retroactively reconciled utilizing the methodology in paragraph (b) of this section and utilizing actual paid claims from such period.

(f) Notwithstanding any inconsistent provision of this section, payments or rate of payment adjustments made pursuant to this section shall not result in an aggregate annual decrease in medicaid payments to providers subject to this section that is in excess of $200,000,000, as determined by the commissioner and not subject to subsequent adjustment, and the commissioner shall make such adjustments to such payments or rates of payment as are necessary to ensure that such aggregate limits on payment decreases are not exceeded.

Notwithstanding any inconsistent provision of law or regulation and subject to the availability of federal financial participation, for the period April 1, 2012 through March 31, 2013, payments by government agencies for services provided by certified home health agencies, except for such services provided to children under eighteen years of age and other discreet groups as may be determined by the commissioner, shall be based on episodic payments. In establishing such payments, a statewide base price shall be established for each sixty day episode of care and adjusted by a regional wage index factor and an individual patient case mix index. Such episodic payments may be further adjusted for low utilization cases and to reflect a percentage limitation of the cost for high-utilization cases that exceed outlier thresholds of such payments. Episodic payments shall be based on medicaid paid claims, as determined and adjusted by the commissioner to achieve

savings comparable to the prior state fiscal year, for services provided by all certified home health agencies in the base year 2009. The commissioner may require agencies to collect and submit any data required to implement this subdivision.

Notwithstanding any contrary law, rule or regulation, for the period April 1, 2011 through March 31, 2013 medicaid rates of payments for services provided by certified home health agencies, by long term home health care programs or by an AIDS home care program, to patients diagnosed with Acquired Immune Deficiency Syndrome (AIDS) shall reflect no separate payment for home care nursing services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The commissioner of health is authorized to submit the appropriate waivers, including but not limited to those authorized pursuant to sections eleven hundred fifteen and nineteen hundred fifteen of the federal social security act or successor provisions, and any other waivers necessary to require, on or after April first, two thousand twelve, medical assistance recipients who are twenty-one years of age or older and who require community-based long term care services, as specified by the commissioner, for more than one hundred and twenty days, to receive such services through a managed long term care plan certified pursuant to section forty-four hundred three-f of the public health law or other program model that meets guidelines specified by the commissioner that support coordination and integration of services. Such other program models may include long term home health care programs that comply with such guidelines. Copies of such original waiver applications and amendments thereto shall be provided to the chairs of the senate finance committee, the assembly ways and means committee, and the senate and assembly health committees simultaneously with their submission to the federal government.

2. With respect to persons in receipt of long term care services prior to enrollment, the guidelines shall require the managed long term care plan to contract with agencies currently providing such services, in order to promote continuity of care. In addition, the guidelines shall require managed long term care plans to offer and cover consumer directed personal assistance services for eligible individuals who elect such services pursuant to section three hundred sixty-five-f of the social services law. The commissioner shall seek input from representatives of home and community based long term care services providers, recipients, and the Medicaid managed care advisory review panel, among others, to further evaluate and promote the transition of persons in receipt of home and community-based long term care services in to managed long term care plans and other care coordination models and to develop guidelines for such care coordination models. The guidelines shall be finalized and posted on the department's website no later than November fifteen, two thousand eleven.

3. With respect to persons required to enroll in managed long term care or other care coordination model pursuant to a waiver described in paragraph 1:

(a) Medical assistance recipients who are Native Americans shall not be required to enroll in a managed long term care plan or other care coordination model.

(b) The following medical assistance recipients shall not be eligible to participate in a managed long term care program or other care coordination model:

(i) a person who is expected to be eligible for medical assistance for less than six months, for a reason other than that the person is eligible for medical assistance only through the application of excess income toward the cost of medical care and services;

(ii) a person who is eligible for medical assistance benefits only with respect to tuberculosis-related services;

(iii) a person receiving hospice services at time of enrollment;

(iv) a person who has primary medical or health care coverage available from or under a third-party payor which may be maintained by payment, or part payment, of the premium or cost sharing amounts, when payment of such premium or cost sharing amounts would be cost-effective, as determined by the social services district;

(v) a person receiving family planning services pursuant to subparagraph eleven of paragraph (a) of subdivision one of section three hundred sixty-six of the social services law;

(vi) a person who is eligible for medical assistance pursuant to paragraph (v) of subdivision four of section three hundred sixty-six of the social services law.

(c) The following medical assistance recipients shall not be eligible to participate in a managed long term care program or other care coordination model until program features and reimbursement rates are approved by the commissioner of health and, where appropriate, the commissioner of the office for persons with developmental disabilities:

(i) a person enrolled in a managed care plan pursuant to section three hundred sixty-four-j of the social services law;

(ii) a participant in the traumatic brain injury waiver program;

(iii) a participant in the nursing home transition and diversion waiver program;

(iv) a person enrolled in the assisted living program;

(v) a person enrolled in home and community based waiver programs administered by the office for persons with developmental disabilities.

(d) Persons required to enroll in the managed long term care program or other care coordination model shall have no less than thirty days to select a managed long term care provider, and shall be provided with information to make an informed choice. Where a participant has not selected such a provider, the commissioner of health shall assign such participant to a managed long term care provider, taking into account quality, capacity and geographic accessibility.

(vii) Managed long term care provided and plans certified or other care coordination model established pursuant to this paragraph shall comply with the provisions of paragraphs (d), (i), and (t) and subparagraphs (a)(iii) and (e)(iv) of subdivision four of section three hundred sixty-four-j of the social services law.

4. An entity shall not need a designation by the majority leader of the senate, the speaker of the assembly, or the commissioner of health in order to apply for a certificate of authority as a managed long term care plan.

5. Managed long term care plans may be authorized by the department of health to cover primary care and acute care services. If a managed long term care plan does not cover primary, specialty, and acute care services, it must demonstrate a readiness and capability to coordinate such services.

6. Managed long term care enrollment applications will be processed by the department of health or its designee, and not by local departments of social services.

7. The commissioner of health is authorized to issue certificates of authority to up to seventy-five managed long term care plans. Provided, however, if this chapter appropriates sufficient additional funds to allow Medicaid payment for services on a fee-for-service basis without the savings to be achieved by requiring enrollment of Medicaid recipients in managed long term care plans or other care coordination models, and by streamlining the process for enrolling participants in managed long term care plans, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 4,459,350,000

1. The following medicaid recipients shall not be required to participate in a managed care program established pursuant

to section 364-j of the social services law: (i) individuals with a chronic medical condition who are being treated by a specialist physician that is not associated with a managed care provider in the individual's social services district may defer participation in the managed care program for six months or until the course of treatment is complete, whichever occurs first; and Native Americans.

A managed care provider is not geographically accessible if the person cannot access the provider's services in a timely fashion due to distance or travel time.

4. Applicants for medicaid and pregnant women applying for presumptive eligibility under the medicaid program shall be required to choose a managed care provider at the time of application; if the participant does not choose such a provider, the commissioner of health shall assign the applicant to a managed care provider in accordance with subparagraphs (ii) through (v) of paragraph (f) of subdivision 4 of section 364-j of the social services law. Individuals already in receipt of medicaid shall have no less than thirty days from the date selected by their social services district to enroll in the managed care program to select a managed care provider, and as appropriate, a mental health special needs plan.

5. The department of health is authorized to contract with an entity offering a comprehensive health services plan, including an entity that has received a certificate of authority pursuant to sections 4403, 4403-a or 4408-a of the public health law (as added by chapter 639 of the laws of 1996) or a health maintenance organization authorized under article 43 of the insurance law, to eligible individuals residing in the geographic area served by such entity. Cities with a population of over 2,000,000 shall not be authorized to enter into medicaid managed care contracts with comprehensive health services plans. Such contracts may provide for medicaid payments on a capitated basis for nursing facility, home care or other long term care services of a duration and scope determined by the commissioner of health.

6. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid payment for services on a fee-for-service basis without the savings to be achieved by expanding the populations allowed or required to participate in medicaid managed care, or by streamlining the process for enrolling participants in medicaid managed care plans, then the provisions of this paragraph shall not

apply and shall be considered null and void as of March 31, 2011 7,126,729,000

For services and expenses of the medical assistance program including pharmacy services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, payments for drugs which may not be dispensed without a prescription as required by section 6810 of the education law and for which payment is authorized under the medical assistance program pursuant to subdivision 2 of section 365-a of the social services law or under the family health plus program pursuant to subparagraph (v) of paragraph (e) of subdivision 1 of section 369-ee of the social services law may be included in the capitation payment for services or supplies provided to medical assistance or family health plus recipients by managed care organizations or other entities which are certified under article 44 of the public health law or licensed pursuant to article 43 of the insurance law or otherwise authorized by law to offer comprehensive health services plans to medical assistance or family health plus recipients. Provided, however, if this chapter appropriates sufficient additional funds to allow such drugs to continue to be excluded as a benefit available to medical assistance and family health plus recipients through such comprehensive health services plans, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health is authorized to designate some or all of the drugs manufactured or marketed by a pharmaceutical manufacturer as non-preferred drugs under the preferred drug program established pursuant to section 272 of the public health law if: the commissioner of health has previously designated such pharmaceutical manufacturer as one with whom the commissioner is

negotiating a manufacturer agreement, and included the drugs it manufactures or markets on the preferred drug list; and the commissioner has not reached a manufacturer agreement with such manufacturer. Provided, however, if this chapter appropriates sufficient additional funds to require the commissioner of health to designate as non-preferred all of the drugs manufactured or marketed by a manufacturer with whom the commissioner has been unable to reach a manufacturer agreement, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, for those drugs which may not be dispensed without a prescription as required by section 6810 of the education law and for which payment is authorized under the medical assistance program pursuant to subdivision 2 of section 365-a of the social services law, payments for such drugs and dispensing fees shall be as follows:

1. If the drug dispensed is a multiple source prescription drug for which an upper limit has been set by the federal centers for medicare and medicaid services, payment for the drug shall be the lower of: (a) an amount equal to the specific upper limit set by such federal agency for the multiple source prescription drug; (b) the estimated acquisition cost of such drug to pharmacies which, for purposes of this subparagraph, shall mean the average wholesale price of a prescription drug based on the package size dispensed from, as reported by the prescription drug pricing service used by the department, less twenty-five percent thereof; (c) the maximum acquisition cost, if any, established pursuant to paragraph (e) of this subdivision; (d) the dispensing pharmacy's usual and customary price charged to the general public; or (e) the average acquisition cost if available.

2. If the drug dispensed is a multiple source prescription drug or a brand-name prescription drug for which no specific upper limit has been set by such federal agency, payment for the drug shall be the lower of the estimated acquisition cost of such drug to pharmacies, the average acquisition cost if available, or the dispensing pharmacy's usual and customary price charged to the general public. For sole and multiple source brand name drugs, estimated acquisition cost means the average wholesale price of a prescription drug based upon the package size dispensed from, as reported by the prescription drug pricing service used by the department, less seventeen percent thereof, or the wholesale acquisition cost of a prescription drug based upon package size dispensed from, as reported by the prescription drug pricing service used by the department, minus zero and forty one hundredths percent thereof, and updated monthly by the department. For multiple source generic drugs, estimated acquisition cost means the lowest of the average acquisition cost if available, the average wholesale price of a prescription drug based on the packaged size dispensed from, as reported by the prescription drug pricing service used by the department, less twenty-five percent thereof, or the maximum acquisition cost, if any, established pursuant to paragraph (e) of this subdivision.

3. (a) For prescription drugs categorized as generic by the prescription drug pricing service used by the department, the dispensing fee shall be three dollars and fifty cents per prescription.

(b) For prescription drugs categorized as generic by the prescription drug pricing service used by the department, the dispensing fee shall be four dollars and fifty cents per prescription if dispensed by a privately owned licensed pharmacy that is not affiliated with a chain pharmacy, is not owned or operated by a publicly traded company, and has a single location in a county within the state having a population of 125,000 or less,

based on the most recent United States census data.

(c) For prescription drugs categorized as brand-name prescription drugs by the prescription drug pricing service used by the department, three dollars and fifty cents per prescription, provided, however, that for brand name prescription drugs reimbursed pursuant to subparagraph (ii) of paragraph (a-1) of subdivision four of section three hundred sixty-five-a of this title, the dispensing fee shall be four dollars and fifty cents per prescription.

4. The commissioner of health shall have the authority to establish the amount of payments and dispensing fees for drugs covered under the medical assistance program; provided, however, the commissioner shall not change the amounts of or method for such payments or dispensing fees on or after April first, two thousand eleven unless notice is given sixty days in advance of such change to the chairpersons of the senate finance committee, assembly ways and means committee, senate health committee, and assembly health committee. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to continue to pay for drugs and dispensing fees in the amounts described in subdvision 9 of section 367-a of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health may designate therapeutic classes of drugs, including classes with only one drug, as all preferred drugs in the medicaid preferred drug program established pursuant to section 272 of the public health law prior to any review that may be conducted by the pharmacy and therapeutics committee created pursuant to section 271 of the public health law. In addition, if a non-preferred drug is prescribed and does not meet the criteria for approval of a non-preferred drug under subdivision 3

of section 273 of the public health law, after providing a reasonable opportunity for the prescriber to reasonably present his or her justification for prior authorization, prior authorization will be denied if the preferred drug program determines that the use of the non-preferred is not warranted. Provided, however, if this chapter appropriates sufficient additional funds to allow the medicaid program to pay for non-preferred drugs which have been prescribed but whose use the preferred drug program has determined to be unwarranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, for persons eligible for medical assistance who are also beneficiaries under part D of title XVIII of the federal social security act, the following categories of drugs shall not be exempt from the definition of "covered part D drugs" and shall be subject to the medical assistance exclusion of coverage for "covered part D drugs": atypical anti-psychotics, anti-depressants, anti-retrovirals used in the treatment of HIV/AIDS, and anti-rejection drugs used for the treatment of organ and tissue transplants. Provided, however, that if this chapter appropriates sufficient additional funds to continue to exempt such drugs from the definition of "covered part D drugs", then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the following drugs shall not be exempt from inclusion in the preferred drug program established pursuant to section 272 of the public health law: atypical anti-psychotics; anti-depressants; anti-retrovirals used in the treatment of HIV/AIDS; and anti-rejection drugs used for the treatment of organ and tissue transplants. Provided, however, if

this chapter appropriates sufficient additional funds to allow such drugs to continue to be exempt from the prior authorization requirements of the preferred drug program, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 141,839,000

For services and expenses of the medical assistance program including transportation services 137,733,000

Notwithstanding any inconsistent provision of law, the money hereby appropriated may be available for payments to school districts, and to any city with a population of over 2,000,000 associated with additional claims for school supportive health services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The commissioner of health is authorized to contract with one or more entities to conduct a study to determine actual direct and indirect costs incurred by public school districts and state operated/state supported schools which operate pursuant to article 85, 87 or 88 of the education law for medical care, services and supplies, including related special education services and special transportation, furnished to children with handicapping conditions. In addition, the commissioner of health is authorized to contract with one or more entities to conduct a study to determine actual direct and indirect costs incurred by counties for medical care, services and supplies, including related special education services and special transportation, furnished to pre-school children with handicapping conditions.

2. Notwithstanding any inconsistent provision of sections 112 and 163 of the state finance law, or section 142 of the economic development law, or any other

law, the commissioner of health is authorized to enter into a contract or contracts referenced in paragraph one without a competitive bid or request for proposal process; provided, however, that the department of health shall post on its website, for a period of no less than thirty days: a description of the proposed services to be provided pursuant to the contract or contracts; the criteria for selection of a contractor or contractors; the period of time during which a prospective contractor may seek selection, which shall be no less than thirty days after such information is first posted on the website; and the manner by which a prospective contractor may seek such selection, which may include submission by electronic means. All reasonable and responsive submissions that are received from prospective contractors in timely fashion shall be reviewed by the commissioner of health. The commissioner of health shall select such contractor or contractors that, in his or her discretion, are best suited to serve the purposes of this section.

3. The commissioner of health shall evaluate the results of the study or studies referenced in paragraph one to determine, after identification of actual direct and indirect costs incurred by public school districts, state operated/state supported schools, and counties, whether it is advisable to claim federal reimbursement for expenditures under sections 368-d and 368-e of the social services law as certified public expenditures. In the event such claims are submitted, if federal reimbursement received for certified public expenditures on behalf of medical assistance recipients whose assistance and care are the responsibility of a social services district in a city with a population of over 2,000,000, results in a decrease in the state share of annual expenditures pursuant to sections 368-d and 368-e of the social services law for such recipients, then to the extent that the amount of any such decrease exceeds $50,000,000, the excess amount shall be transferred to such city. Any such excess

amount transferred shall not be considered a revenue received by such social services district in determining the district's actual medical assistance expenditures for purposes of paragraph (b) of section 1 of part C of chapter 58 of the laws of 2005.

4. Provided, however, if this chapter appropriates sufficient additional funds to pay for costs incurred by public school districts, state operated/state supported schools, and counties without claiming the actual direct and indirect costs incurred by such entities as certified public expenditures, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Provided, however, that speech therapy, physical therapy, and occupational therapy each shall be limited to coverage of twenty visits per year, with such limitation not applying to persons with developmental disabilities. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to cover such medically necessary services without a limitation on the number of visits paid for, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

held property, retained life estates, and interests in trusts, to the extent of such interests, provided, however, that a claim against a recipient of such property by distribution or survival shall be limited to the value of the property received or the amount of medical assistance benefits otherwise recoverable, whichever is less. Provided, however, if this chapter appropriates sufficient additional funds to permit limiting recoveries to real and personal property and other assets passing under the terms of a valid will or by intestacy, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 1,621,710,000

Not less than 30 days prior to the conclusion of each state fiscal year in which the provisions of this section apply, the department of health shall prepare and submit a report to the legislature that details the actions taken to implement the medicaid state share reduction established pursuant to this section. Provided, however, if this chapter appropriates sufficient additional funds to support medicaid payments or medicaid rates of payments, the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding paragraph (c) of subdivision 10 of section 2807-c of the public health law, section 21 of chapter 1 of the laws of 1999, or any other contrary provision of law, in determining rates of payments by state governmental agencies effective for services provided for the period April 1, 2011 through March 31, 2013, for inpa-

tient and outpatient services provided by general hospitals, for inpatient services and adult day health care outpatient services provided by residential health care facilities pursuant to article 28 of the public health law, except for residential health care facilities or units of such facilities that provide services primarily to children under twenty-one years of age, for home health care services provided pursuant to article 36 of the public health law by certified home health agencies, long term home health care programs and AIDS home care programs, for personal care services provided pursuant to section 365-a of the social services law, hospice services provided pursuant to article 40 of the public health law, foster care services provided pursuant to article 6 of the social services law, the commissioner of health shall apply no greater than zero trend factors attributable to the 2011 and 2012 calendar years in accordance with paragraph (c) of subdivision 10 of section 2807-c of the public health law, provided, however, that such no greater than zero trend factors for such calendar years shall also be applied to rates of payment for personal care services for such period provided in those local social service districts, including New York city, whose rates of payment for such services are established by such local social service districts pursuant to a rate-setting exemption issued by the commissioner of health to such local social service districts in accordance with applicable regulations, and provided further, however, that for rates of payment for assisted living program services provided for the period April 1, 2011 through March 31, 2013, trend factors attributable to such 2011 and 2012 calendar years shall be established at no greater than zero percent, provided, however, that if this chapter provides sufficient additional funding to cover the cost of trend factor adjustments to the rates enumerated in this section, then provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding paragraph (c) of subdivision 10 of section 2807-c of the public health law, section 21 of chapter 1 of the laws of 1999, or any other contrary provision of law, in determining rates of payments by state governmental agencies effective for services provided for the period January 1, 2013 through March 31, 2013, for inpatient and outpatient services provided by general hospitals, for inpatient services and adult day health care outpatient services provided by residential health care facilities pursuant to article 28 of the public health law, except for residential health care facilities or units of such facilities that provide services primarily to children under twenty-one years of age for home health care services provided pursuant to article 36 of the public health law by certified home health agencies, long term home health care programs and AIDS home care programs, for personal care services provided pursuant to section 365-a of the social services law, hospice services provided pursuant to article 40 of the public health law, foster care services provided pursuant to article 6 of the social services law, the commissioner of health shall apply no greater than zero trend factors attributable to the 2013 calendar year in accordance with paragraph (c) of subdivision 10 of section 2807-c of the public health law, provided, however, that such no greater than zero trend factors for such calendar years shall also be applied to rates of payment for personal care services for such period provided in those local social service districts, including New York city, whose rates of payment for such services are established by such local social service districts pursuant to a rate-setting exemption issued by the commissioner of health to such local social service districts in accordance with applicable regulations, and provided further, however, that for rates of payment for assisted living program services provided for the period January 1, 2013 through March 31, 2013, trend factors attributable to such 2013 calendar year shall be established at no

greater than zero percent, provided, however, that if this chapter provides sufficient additional funding to cover the cost of trend factor adjustments to the rates enumerated in this section, then provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any provision of law to the contrary and subject to the availability of federal financial participation, for the period April 1, 2011 through March 31, 2013, clinics certified pursuant to articles 16, 31 or 32 of the mental hygiene law shall be subject to targeted medicaid reimbursement rate reductions in accordance with the provisions of this section. Such reductions shall be based on utilization thresholds which may be established either as provider-specific or patient-specific thresholds. Provider specific thresholds shall be based on average patient utilization for a given provider in comparison to a peer based standard to be determined for each service.

The commissioners of the office of mental health, the office for persons with developmental disabilities, and the office of alcoholism and substance abuse services, in consultation with the commissioner of health, are authorized to waive utilization thresholds for patients of clinics certified pursuant to article 16, 31, or 32 of the mental hygiene law who are enrolled in specific treatment programs or otherwise meet criteria as may be specified by such commissioners. When applying a provider specific threshold, rates will be reduced on a prospective basis based on the amount any provider is over the determined threshold level. Patient-specific thresholds will be based on annual thresholds determined for each service over which the per visit payment for each visit in excess of the standard during a twelve month period may be reduced by a pre-determined amount. The thresholds, peer based standards and the payment reductions shall be determined by the department of health, with the approval of the division of the budget, and in consultation with the office of mental health, the office for people with developmental disabilities and

the office of alcoholism and substance abuse services, and any such resulting rates shall be subject to certification by the appropriate commissioners pursuant to subdivision (a) of section 43.02 of the mental hygiene law. The base period used to establish the thresholds shall be the 2009 calendar year. The total annualized reduction in payments shall be no less than $10,900,000 for Article 31 clinics, no less than $2,400,000 for Article 16 clinics, and no less than $13,250,000 for Article 32 clinics. Provided, however if this chapter provides sufficient additional funding to cover the cost of targeted medical reimbursement rate reductions enumerated in this section, then the provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health is authorized, in consultation with the commissioners of the office of mental health, office of alcoholism and substance abuse services, and office for people with developmental disabilities to: establish, in accordance with applicable federal law and regulations, standards for the provision of health home services to enrollees with chronic conditions in the program of medical assistance for needy persons; establish payment methodologies for health home services based on factors including but not limited to the complexity of the conditions providers will be managing, the anticipated amount of patient contact needed to manage such conditions, and the health care cost savings realized by provision of health home services; establish the criteria under which such an enrollee will be designated as being eligible to receive health home services; and assign any enrollee designated as an eligible individual to a provider of health home services. Until such time as the commissioner of health obtains necessary waivers and/or approvals under the federal social security act, enrollees assigned to

providers of health home services will be allowed to opt out of such services. In addition, upon enrollment an enrollee shall be offered an option of at least two providers of health home services to the extent practicable. In addition to such payments made for health home services, the commissioner of health is authorized to pay additional amounts to providers of health home services that meet process or outcome standards specified by the commissioner. Payment for such health home services and such additional payments will be made with state funds only, to the extent that such funds are appropriated therefore, until such time as federal financial participation in the costs of such services is available. The commissioner of health is authorized to submit amendments to the state plan for medical assistance and/or submit one or more applications for waivers of the federal social security act, to obtain federal financial participation in the costs of health home services. Notwithstanding any limitations imposed by section 364 - l of the social services law, the commissioner is authorized to allow entities participating in demonstration projects established pursuant to such section to provide health home services. Notwithstanding any law, rule, or regulation to the contrary, the commissioners of the department of health, the office of mental health, and the office of alcoholism and substance abuse services are authorized to jointly establish a single set of operating and reporting requirements and a single set of construction and survey requirements for entities that can demonstrate experience in the delivery of health, and mental health and/or alcohol and substance abuse services and the capacity to offer integrated delivery in each location approved by the commissioner, and meet the standards for providing and receiving payment for health home services. In establishing a single set of operating and reporting requirements and a single set of construction and survey requirements for entities described in this subdivision, the commissioners of the department of

health, the office of mental health, and the office of alcoholism and substance abuse services are authorized to waive any regulatory requirements as are necessary to avoid duplication of requirements and to allow the integrated delivery of services in a rational and efficient manner. Provided, however, if this chapter appropriates sufficient additional funds to provide coverage for persons with chronic conditions under the program of medical assistance for needy persons without the savings to be achieved through the provision of health home services, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013: coverage under the Medicaid program for enteral formula therapy and nutritional supplements are limited to coverage only for nasogastric, jejunostomy, or gastrostomy tube feeding or for treatment of an inborn metabolic disorder or to address growth and developmental problems in children; coverage under the medicaid program for prescription footwear and inserts is limited to coverage only when used as an integral part of a lower limb orthotic appliance, as part of a diabetic treatment plan, or to address growth and development problems in children; coverage under the medicaid program for compression and support stockings is limited to coverage only for pregnancy or treatment of venous stasis ulcers; and the commissioner of health is authorized to require prior authorization for prescriptions of opioid analgesics in excess of four prescriptions in a thirty-day period. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid coverage of such services without imposing such limitations, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through

march 31, 2013, when Medicaid eligible persons are also beneficiaries under part B of title XVIII of the federal social security act and payment under part B would exceed the amount that would be paid by Medicaid if the person were not eligible under part B or a qualified Medicare beneficiary, the amount payable under the Medicaid program shall be twenty percent of the amount of any coinsurance liability of such eligible person pursuant to federal law if they were not eligible for Medicaid or were not a qualified Medicare beneficiary, but only with respect to services covered under title eleven of article five of the social services law; provided however that amounts payable with respect to items and services covered under such title and provided to eligible persons who are also beneficiaries under part B or to qualified medicare beneficiaries by an ambulance service under the authority of an operating certificate issued pursuant to article thirty of the public health law, a psychologist licensed under article one hundred fifty-three of the education law, or a facility under the authority of an operating certificate issued pursuant to article sixteen, thirty-one or thirty-two of the mental hygiene law, and with respect to outpatient hospital and clinic items and services covered under such title and provided by a facility under the authority of an operating certificate issued pursuant to article twenty-eight of the public health law, shall not be less than the amount of any co-insurance liability of such eligible persons or such qualified medicare beneficiaries, or for which such eligible persons or such qualified medicare beneficiaries would be liable under federal law were they not eligible for medical assistance or were they not qualified medicare beneficiaries with respect to such benefits under part B.

Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments under subparagraph (iii) of paragraph (d) of subdivision one of section three hundred sixty-seven-a of the social services law

with respect to services not covered under title eleven of article five of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, amounts payable under section three hundred sixty-seven-a of the social services law with respect to hospital outpatient services or diagnostic and treatment center services pursuant to article twenty-eight of the public health law provided to Medicaid eligible persons who are also beneficiaries under part B of title XVIII of the federal social security act shall not exceed the approved medical assistance payment level less the amount payable under part B. Provided, however, if this chapter appropriates sufficient additional funds to provide medical assistance payments under section three hundred sixty-seven-a of the social services law with respect to hospital outpatient services or diagnostic and treatment center services provided to Medicaid eligible persons who are also beneficiaries under part B without such limitation, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. (a) The commissioners of the office of mental health and the office of alcoholism and substance abuse services, in consultation with the commissioner of health, the impacted local governmental units, and with the approval of the division of budget, shall have responsibility for jointly designating regional entities to provide administrative and management services for the purposes of prior approving and coordinating the provision of behavioral health services, facilitating the continuity of post-hospitalization behavioral health services, and the integration of

Such regional entities shall also be responsible for promoting appropriate care and service utilization while safeguarding against unnecessary utilization of such care and services and assuring that payments are consistent with the efficient and economical delivery of quality care. In exercising this responsibility, the commissioners of the office of mental health and the office of alcoholism and substance abuse services are authorized to contract, after consultation with the commissioner of health and the impacted local governmental units, with regional behavioral health organizations or other entities. Such contracts may include responsibility for: receipt, review, and determination of prior authorization requests for behavioral health care and services, consistent with criteria established or approved by the commissioners of mental health and alcoholism and substance abuse services, and authorization of appropriate care and services based on documented patient medical need.

(b) Notwithstanding any inconsistent provision of sections one hundred twelve and one hundred sixty-three of the state finance law, or section one hundred forty-two of the economic development law, or any other law to the contrary, the commissioners of the office of mental health and the office of alcoholism and substance abuse services are authorized to enter into a contract or contracts under subdivision 1 without a competitive bid or request for proposal process, provided, however, that the office of mental health and the office of alcoholism and substance abuse services shall post on their

websites, for a period of no less than thirty days: (i) a description of the proposed services to be provided pursuant to the contractor contracts; (ii) the criteria for selection of a contractor or contractors; (iii) the period of time during which a prospective contractor may seek selection, which shall be no less than thirty days after such information is first posted on the website; and (iv) the manner by which a prospective contractor may seek such selection, which may include submission by electronic means. article 44-a of the public health law capable of managing the behavioral and physical health needs of medical assistance enrollees with significant behavioral health needs. Initial designations of such plan or provider systems should be made no later than April first, two thousand thirteen, provided, however, such designations shall be contingent upon a determination by such state commissioners that the entities to be designated have the capacity and financial ability to provide services in such plans or provider systems, and that the region has a sufficient population and service base to support such plans and systems. Once designated, the commissioner of health shall make arrangements to enroll such enrollees in such plans or integrated provider systems and to pay such plans or provider systems on a capitated or other basis to manage, coordinate, and pay for behavioral and physical health medical assistance services for such enrollees.

(b) Notwithstanding any inconsistent provision of section one hundred twelve and one hundred sixty-three of the state finance law, and section one hundred forty-two of the economic development law, or any other law to the contrary, the designations of such plans and provider systems, and any resulting contracts with such plans, providers or provider systems are authorized to be entered into by such state commissioners without a competitive bid or request for proposal process, provided, however, that the department of health, the office of mental health and the office of alcoholism and substance abuse services shall post on their websites, for a period of no less than thirty days: (i) a description of the proposed services to be provided by the plans or systems; (ii) the criteria for selection of a plan or system; (iii) the period of time during which a prospective plan or system may seek selection, which shall be no less than thirty days after such information is first posted on the website; and (iv) the manner by which a prospective plan or system may seek such selection, which may include submission by

electronic means. All reasonable and responsive submissions that are received from prospective plans or systems in timely fashion shall be reviewed by the commissioners.

Oversight of such contracts with such plans, providers or provider systems shall be the joint responsibility of such state commissioners, and for contracts affecting a city with a population of over one million, also with such city's local social services district and local governmental unit, as such term is defined in the mental hygiene law.

3. The commissioner of health, jointly with the commissioner of mental health and the commissioner of alcoholism and substance abuse services shall be authorized to establish special needs managed care and specialized managed care plans, under the medical assistance program and certified under section forty-four hundred three-d of the public health law, in accordance with applicable federal law and regulations. Provided, however, if this chapter appropriates sufficient additional funds to provide coverage for behavioral health care and services under the program of medical assistance for needy persons without the savings to be achieved by contracting for the prior authorization and coordination of the provision of such services, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

For services and expenses of the medical assistance program including other long term care services.

Notwithstanding any inconsistent provision of law or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, for participating providers, meaning certified home health agencies, long term home health agencies and personal care providers with total medicaid reimbursements exceeding $50,000,000 per calendar year, every service or item within a claim submitted by a participating provider shall be reviewed and verified by a verification organization prior to submission of a claim to the department of health provided that the verification

Provided, however, if this chapter appropriates sufficient additional funds to support participating providers of medical assistance program items subject to preclaim review otherwise provided for in the public health law, than the provisions of this section shall be deemed null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The amount of personal care services covered by the medicaid program shall not exceed eight hours per week for individuals whose needs are limited to nutritional and environmental support functions.

2. The commissioner of health is authorized to adopt standards for the provision and management of personal care services covered by the medicaid program for individuals whose need for such services exceeds a specified level to be determined by the commissioner of health.

3. The commissioner of health is authorized to provide assistance to persons receiving personal care services covered by the medicaid program who are transitioning to receiving care from a managed long term

care plan certified pursuant to section 4403-f of the public health law.

4. Provided, however, if this chapter appropriates sufficient additional funds to allow for the payment of personal care services at the level provided for in paragraph (e) of subdivision 2 of section 365-a of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law or regulation and subject to the availability of federal financial participation,

(a) for the period April 1, 2011 through March 31, 2013, rates of payment by government agencies for services provided by certified home health agencies, except for such services provided to children under eighteen years of age and other discrete groups as may be determined by the commissioner, shall reflect ceiling limitations determined in accordance with this section, provided, however, that at the discretion of the commissioner such ceilings may, as an alternative, be applied to payments for services provided for the period April 1, 2011 through March 31, 2012, except for such services provided to children and other discrete groups as may be determined by the commissioner. In determining such payments or rates of payment, agency ceilings shall be established. Such ceilings shall be applied to payments or rates of payment for certified home health agency services as established pursuant to this section and applicable regulations. Ceilings shall be based on a blend of: (i) an agency's 2009 average per patient medicaid claims, weighted at a percentage as determined by the commissioner, and; (ii) the 2009 statewide average per patient medicaid claims adjusted by a regional wage index factor and an agency patient case mix index, weighted at a percentage as determined by the commissioner. Such ceilings will be effective April 1, 2011 through March 31, 2012. An interim payment or rate of payment adjustment effective April 1, 2011, shall be applied to agencies with

projected average per patient medicaid claims, as determined by the commissioner, to be over their ceilings. Such agencies shall have their payments or rates of payment reduced to reflect the amount by which such claims exceed their ceilings.

(b) Ceiling limitations determined pursuant to subdivision (a) of this section shall be subject to reconciliation. In determining payment or rate of payment adjustments based on such reconciliation, adjusted agency ceilings shall be established. Such adjusted ceilings shall be based on a blend of: (i) an agency's 2009 average per patient medicaid claims adjusted by the percentage of increase or decrease in such agency's patient case mix from the 2009 calendar year to the annual period April 1, 2011 through March 31, 2012, weighted at a percentage as determined by the commissioner; and (ii) the 2009 statewide average per patient medicaid claims adjusted by a regional wage index factor and the agency's patient case mix index for the annual period April 1, 2011 through March 31, 2012, weighted at a percentage as determined by the commissioner. Such adjusted agency ceiling shall be compared to actual medicaid paid claims for the period April 1, 2011 through March 31, 2012. In those instances when an agency's actual per patient medicaid claims are determined to exceed the agency's adjusted ceiling, the amount of such excess shall be due from each such agency to the state and may be recouped by the department in a lump sum amount or through reductions in the medicaid payments due to the agency. In those instances where an interim payment or rate of payment adjustment was applied to an agency in accordance with paragraph (a), and such agency's actual per patient medicaid claims are determined to be less than the agency's adjusted ceiling, the amount by which such medicaid claims are less than the agency's adjusted ceiling shall be remitted to each such agency by the department in a lump sum amount or through an increase in the medicaid payments due to the agency.

(c) Interim payment or rate of payment adjustments pursuant to this section shall

be based on medicaid paid claims, as determined by the commissioner, for services provided by agencies in the base year 2009. Amounts due from reconciling rate adjustments shall be based on medicaid paid claims, as determined by the commissioner, for services provided by agencies in the base year 2009 and medicaid paid claims, as determined by the commissioner, for services provided by agencies in the reconciliation period April 1, 2011 through March 31, 2012. In determining case mix, each patient shall be classified using a system based on measures which may include, but not be limited to, clinical and functional measures, as reported on the federal Outcome and Assessment Information Set (OASIS), as may be amended.

(d) The commissioner may require agencies to collect and submit any data required to implement the provisions of this section.

(e) Payments or rate of payment adjustments determined pursuant to this section shall, for the period April 1, 2011 through March 31, 2012, be retroactively reconciled utilizing the methodology in paragraph (b) of this section and utilizing actual paid claims from such period.

(f) Notwithstanding any inconsistent provision of this section, payments or rate of payment adjustments made pursuant to this section shall not result in an aggregate annual decrease in medicaid payments to providers subject to this section that is in excess of $200,000,000, as determined by the commissioner and not subject to subsequent adjustment, and the commissioner shall make such adjustments to such payments or rates of payment as are necessary to ensure that such aggregate limits on payment decreases are not exceeded.

Notwithstanding any inconsistent provision of law or regulation and subject to the availability of federal financial participation, for the period April 1, 2012 through March 31, 2013, payments by government agencies for services provided by certified home health agencies, except for such services provided to children under eighteen years of age and other

discreet groups as may be determined by the commissioner, shall be based on episodic payments. In establishing such payments, a statewide base price shall be established for each sixty day episode of care and adjusted by a regional wage index factor and an individual patient case mix index. Such episodic payments may be further adjusted for low utilization cases and to reflect a percentage limitation of the cost for high-utilization cases that exceed outlier thresholds of such payments. Episodic payments shall be based on medicaid paid claims, as determined and adjusted by the commissioner to achieve savings comparable to the prior state fiscal year, for services provided by all certified home health agencies in the base year 2009. The commissioner may require agencies to collect and submit any data required to implement this subdivision.

Notwithstanding any contrary law, rule or regulation, for the period April 1, 2011 through March 31, 2013 medicaid rates of payments for services provided by certified home health agencies, by long term home health care programs or by an AIDS home care program, to patients diagnosed with Acquired Immune Deficiency Syndrome (AIDS) shall reflect no separate payment for home care nursing services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The commissioner of health is authorized to submit the appropriate waivers, including but not limited to those authorized pursuant to sections eleven hundred fifteen and nineteen hundred fifteen of the federal social security act or successor provisions, and any other waivers necessary to require, on or after April first, two thousand twelve, medical assistance recipients who are twenty-one years of age or older and who require community-based long term care services, as specified by the commissioner, for more than one hundred and twenty days, to receive such services through a managed long term care plan certified pursuant to section forty-four hundred three-f of the

public health law or other program model that meets guidelines specified by the commissioner that support coordination and integration of services. Such other program models may include long term home health care programs that comply with such guidelines. Copies of such original waiver applications and amendments thereto shall be provided to the chairs of the senate finance committee, the assembly ways and means committee, and the senate and assembly health committees simultaneously with their submission to the federal government.

2. With respect to persons in receipt of long term care services prior to enrollment, the guidelines shall require the managed long term care plan to contract with agencies currently providing such services, in order to promote continuity of care. In addition, the guidelines shall require managed long term care plans to offer and cover consumer directed personal assistance services for eligible individuals who elect such services pursuant to section three hundred sixty-five-f of the social services law. The commissioner shall seek input from representatives of home and community based long term care services providers, recipients, and the Medicaid managed care advisory review panel, among others, to further evaluate and promote the transition of persons in receipt of home and community-based long term care services in to managed long term care plans and other care coordination models and to develop guidelines for such care coordination models. The guidelines shall be finalized and posted on the department's website no later than November fifteen, two thousand eleven.

3. With respect to persons required to enroll in managed long term care or other care coordination model pursuant to a waiver described in paragraph 1:

(a) Medical assistance recipients who are Native Americans shall not be required to enroll in a managed long term care plan or other care coordination model.

(b) The following medical assistance recipients shall not be eligible to participate

in a managed long term care program or other care coordination model:

(i) a person who is expected to be eligible for medical assistance for less than six months, for a reason other than that the person is eligible for medical assistance only through the application of excess income toward the cost of medical care and services;

(ii) a person who is eligible for medical assistance benefits only with respect to tuberculosis-related services;

(iii) a person receiving hospice services at time of enrollment;

(iv) a person who has primary medical or health care coverage available from or under a third-party payor which may be maintained by payment, or part payment, of the premium or cost sharing amounts, when payment of such premium or cost sharing amounts would be cost-effective, as determined by the social services district;

(v) a person receiving family planning services pursuant to subparagraph eleven of paragraph (a) of subdivision one of section three hundred sixty-six of the social services law;

(vi) a person who is eligible for medical assistance pursuant to paragraph (v) of subdivision four of section three hundred sixty-six of the social services law.

(c) The following medical assistance recipients shall not be eligible to participate in a managed long term care program or other care coordination model until program features and reimbursement rates are approved by the commissioner of health and, where appropriate, the commissioner of the office for persons with developmental disabilities:

(i) a person enrolled in a managed care plan pursuant to section three hundred sixty-four-j of the social services law;

(ii) a participant in the traumatic brain injury waiver program;

(iii) a participant in the nursing home transition and diversion waiver program;

(iv) a person enrolled in the assisted living program;

(v) a person enrolled in home and community based waiver programs administered by the

office for persons with developmental disabilities.

(d) Persons required to enroll in the managed long term care program or other care coordination model shall have no less than thirty days to select a managed long term care provider, and shall be provided with information to make an informed choice. Where a participant has not selected such a provider, the commissioner of health shall assign such participant to a managed long term care provider, taking into account quality, capacity and geographic accessibility.

(vii) Managed long term care provided and plans certified or other care coordination model established pursuant to this paragraph shall comply with the provisions of paragraphs (d), (i), and (t) and subparagraphs (a)(iii) and (e)(iv) of subdivision four of section three hundred sixty-four-j of the social services law.

4. An entity shall not need a designation by the majority leader of the senate, the speaker of the assembly, or the commissioner of health in order to apply for a certificate of authority as a managed long term care plan.

5. Managed long term care plans may be authorized by the department of health to cover primary care and acute care services. If a managed long term care plan does not cover primary, specialty, and acute care services, it must demonstrate a readiness and capability to coordinate such services.

6. Managed long term care enrollment applications will be processed by the department of health or its designee, and not by local departments of social services.

7. The commissioner of health is authorized to issue certificates of authority to up to seventy-five managed long term care plans. Provided, however, if this chapter appropriates sufficient additional funds to allow Medicaid payment for services on a fee-for-service basis without the savings to be achieved by requiring enrollment of Medicaid recipients in managed long term care plans or other care coordination models, and by streamlining the process for enrolling participants in

managed long term care plans, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 5,728,436,000

For services and expenses of the medical assistance program including managed care services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013:

1. The following medicaid recipients shall not be required to participate in a managed care program established pursuant to section 364-j of the social services law: (i) individuals with a chronic medical condition who are being treated by a specialist physician that is not associated with a managed care provider in the individual's social services district may defer participation in the managed care program for six months or until the course of treatment is complete, whichever occurs first; and Native Americans.

section 366 of the social services law; (viii) a person who is eligible for medical assistance pursuant to paragraph (v) of subdivision 4 of section 366 of the social services law; and (ix) a person who is Medicare/Medicaid dually eligible and who is not enrolled in a medicare managed care plan.

3. The following categories of medicaid recipients may be required to enroll with a managed care program when program features and reimbursement rates are approved by the commissioners of health and, as appropriate, the commissioner of mental health, the office for persons with developmental disabilities, and the office of children and family services: (i) an individual dually eligible for medical assistance and benefits under the federal medicare program and enrolled in a medicare managed care plan offered by an entity that is also a managed care provider; provided that (notwithstanding paragraph (g) of subdivision 4 of this section): (ii) an individual eligible for supplemental security income; (iii) HIV positive individuals; (iv) persons with serious mental illness and children and adolescents with serious emotional disturbances, as defined in section 4401 of the public health law; (v) a person receiving services provided by a residential alcohol or substance abuse program or facility for the mentally retarded; (vi) a person receiving services provided by an intermediate care facility for the mentally retarded or who has characteristics and needs similar to such persons; (vii) a person with a developmental or physical disability who receives home and community-based services or care-at-home services through existing waivers under section 1915 (c) of the federal social security act or who has characteristics and needs similar to such persons; (viii) a person who is eligible for medical assistance pursuant to subparagraph 12 or subparagraph 13 of paragraph (a) of subdivision 1 of section 366 of the social services law; (ix) a person receiving services provided by a long term home health care program, or a person receiving inpatient services

in a state-operated psychiatric facility or a residential treatment facility for children and youth; (x) certified blind or disabled children living or expected to be living separate and apart from the parent for thirty days or more; (xi) residents of nursing facilities; (xii) a foster child in the placement of a voluntary agency or in the direct care of the local social services district; (xiii) a person or family that is homeless; and (xiv) individuals for whom a managed care provider is not geographically accessible so as to reasonably provide services to the person. A managed care provider is not geographically accessible if the person cannot access the provider's services in a timely fashion due to distance or travel time.

4. Applicants for medicaid and pregnant women applying for presumptive eligibility under the medicaid program shall be required to choose a managed care provider at the time of application; if the participant does not choose such a provider, the commissioner of health shall assign the applicant to a managed care provider in accordance with subparagraphs (ii) through (v) of paragraph (f) of subdivision 4 of section 364-j of the social services law. Individuals already in receipt of medicaid shall have no less than thirty days from the date selected by their social services district to enroll in the managed care program to select a managed care provider, and as appropriate, a mental health special needs plan.

5. The department of health is authorized to contract with an entity offering a comprehensive health services plan, including an entity that has received a certificate of authority pursuant to sections 4403, 4403-a or 4408-a of the public health law (as added by chapter 639 of the laws of 1996) or a health maintenance organization authorized under article 43 of the insurance law, to eligible individuals residing in the geographic area served by such entity. Cities with a population of over 2,000,000 shall not be authorized to enter into medicaid managed care contracts with comprehensive health services plans. Such contracts may provide for medicaid

payments on a capitated basis for nursing facility, home care or other long term care services of a duration and scope determined by the commissioner of health.

6. Provided, however, if this chapter appropriates sufficient additional funds to allow medicaid payment for services on a fee-for-service basis without the savings to be achieved by expanding the populations allowed or required to participate in medicaid managed care, or by streamlining the process for enrolling participants in medicaid managed care plans, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 10,023,265,000

For services and expenses of the medical assistance program including pharmacy services.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, payments for drugs which may not be dispensed without a prescription as required by section 6810 of the education law and for which payment is authorized under the medical assistance program pursuant to subdivision 2 of section 365-a of the social services law or under the family health plus program pursuant to subparagraph (v) of paragraph (e) of subdivision 1 of section 369-ee of the social services law may be included in the capitation payment for services or supplies provided to medical assistance or family health plus recipients by managed care organizations or other entities which are certified under article 44 of the public health law or licensed pursuant to article 43 of the insurance law or otherwise authorized by law to offer comprehensive health services plans to medical assistance or family health plus recipients. Provided, however, if this chapter appropriates sufficient additional funds to allow such drugs to continue to be excluded as a benefit available to medical assistance and family health plus recipients through such comprehensive health services plans, then the provisions of this paragraph shall not apply and shall

be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the commissioner of health is authorized to designate some or all of the drugs manufactured or marketed by a pharmaceutical manufacturer as non-preferred drugs under the preferred drug program established pursuant to section 272 of the public health law if: the commissioner of health has previously designated such pharmaceutical manufacturer as one with whom the commissioner is negotiating a manufacturer agreement, and included the drugs it manufactures or markets on the preferred drug list; and the commissioner has not reached a manufacturer agreement with such manufacturer. Provided, however, if this chapter appropriates sufficient additional funds to require the commissioner of health to designate as non-preferred all of the drugs manufactured or marketed by a manufacturer with whom the commissioner has been unable to reach a manufacturer agreement, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, for those drugs which may not be dispensed without a prescription as required by section 6810 of the education law and for which payment is authorized under the medical assistance program pursuant to subdivision 2 of section 365-a of the social services law, payments for such drugs and dispensing fees shall be as follows:

1. If the drug dispensed is a multiple source prescription drug for which an upper limit has been set by the federal centers for medicare and medicaid services, payment for the drug shall be the lower of: (a) an amount equal to the specific upper limit set by such federal agency for the multiple source prescription drug; (b) the estimated

acquisition cost of such drug to pharmacies which, for purposes of this subparagraph, shall mean the average wholesale price of a prescription drug based on the package size dispensed from, as reported by the prescription drug pricing service used by the department, less twenty-five percent thereof; (c) the maximum acquisition cost, if any, established pursuant to paragraph (e) of this subdivision; (d) the dispensing pharmacy's usual and customary price charged to the general public; or (e) the average acquisition cost if available.

2. If the drug dispensed is a multiple source prescription drug or a brand-name prescription drug for which no specific upper limit has been set by such federal agency, payment for the drug shall be the lower of the estimated acquisition cost of such drug to pharmacies, the average acquisition cost if available, or the dispensing pharmacy's usual and customary price charged to the general public. For sole and multiple source brand name drugs, estimated acquisition cost means the average wholesale price of a prescription drug based upon the package size dispensed from, as reported by the prescription drug pricing service used by the department, less seventeen percent thereof, or the wholesale acquisition cost of a prescription drug based upon package size dispensed from, as reported by the prescription drug pricing service used by the department, minus zero and forty one hundredths percent thereof, and updated monthly by the department. For multiple source generic drugs, estimated acquisition cost means the lowest of the average acquisition cost if available, the average wholesale price of a prescription drug based on the packaged size dispensed from, as reported by the prescription drug pricing service used by the department, less twenty-five percent thereof, or the maximum acquisition cost, if any, established pursuant to paragraph (e) of this subdivision.

dispensing fee shall be three dollars and fifty cents per prescription.

(b) For prescription drugs categorized as generic by the prescription drug pricing service used by the department, the dispensing fee shall be four dollars and fifty cents per prescription if dispensed by a privately owned licensed pharmacy that is not affiliated with a chain pharmacy, is not owned or operated by a publicly traded company, and has a single location in a county within the state having a population of 125,000 or less, based on the most recent United States census data.

(c) For prescription drugs categorized as brand-name prescription drugs by the prescription drug pricing service used by the department, three dollars and fifty cents per prescription, provided, however, that for brand name prescription drugs reimbursed pursuant to subparagraph (ii) of paragraph (a-1) of subdivision four of section three hundred sixty-five-a of this title, the dispensing fee shall be four dollars and fifty cents per prescription.

4. The commissioner of health shall have the authority to establish the amount of payments and dispensing fees for drugs covered under the medical assistance program; provided, however, the commissioner shall not change the amounts of or method for such payments or dispensing fees on or after April first, two thousand eleven unless notice is given sixty days in advance of such change to the chairpersons of the senate finance committee, assembly ways and means committee, senate health committee, and assembly health committee. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to continue to pay for drugs and dispensing fees in the amounts described in subdivision 9 of section 367-a of the social services law, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through

March 31, 2013, the commissioner of health may designate therapeutic classes of drugs, including classes with only one drug, as all preferred drugs in the medicaid preferred drug program established pursuant to section 272 of the public health law prior to any review that may be conducted by the pharmacy and therapeutics committee created pursuant to section 271 of the public health law. In addition, if a non-preferred drug is prescribed and does not meet the criteria for approval of a non-preferred drug under subdivision 3 of section 273 of the public health law, after providing a reasonable opportunity for the prescriber to reasonably present his or her justification for prior authorization, prior authorization will be denied if the preferred drug program determines that the use of the non-preferred is not warranted. Provided, however, if this chapter appropriates sufficient additional funds to allow the medicaid program to pay for non-preferred drugs which have been prescribed but whose use the preferred drug program has determined to be unwarranted, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the following drugs shall not be exempt from inclusion in the preferred drug program established pursuant to section 272 of the public health law: atypical anti-psychotics; anti-depressants; anti-retrovirals used in the treatment of HIV/AIDS; and anti-rejection drugs used for the treatment of organ and tissue transplants. Provided, however, if this chapter appropriates sufficient additional funds to allow such drugs to continue to be exempt from the prior authorization requirements of the preferred drug program, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 4,028,430,000

Provided, however, that speech therapy, physical therapy, and occupational therapy each shall be limited to coverage of twenty visits per year, with such limitation not applying to persons with developmental disabilities. Provided, however, if this chapter appropriates sufficient additional funds to allow the medical assistance program to cover such medically necessary services without a limitation on the number of visits paid for, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2011 through March 31, 2013, the estate of a medical assistance recipient, for purposes of making any recoveries of the cost of such assistance otherwise authorized by law, shall include any real and personal property in which the medical assistance recipient had any legal title or interest at the time of death, including jointly held property, retained life estates, and interests in trusts, to the extent of such interests, provided, however, that a claim against a recipient of such property by distribution or survival shall be limited to the value of the property received or the amount of medical assistance benefits otherwise recoverable, whichever is less. Provided, however, if this chapter appro-

priates sufficient additional funds to permit limiting recoveries to real and personal property and other assets passing under the terms of a valid will or by intestacy, then the provisions of this paragraph shall not apply and shall be considered null and void as of March 31, 2011 8,543,489,000

Notwithstanding section 40 of state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance with the following schedule: 50 percent for the period April 1, 2011 to March 31, 2012; 50 percent for the period April 1, 2012 to March 31, 2013.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2011 through March 31, 2012, shall not exceed $15,326,576,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2012 through March 31, 2013, shall not exceed $15,939,663,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2011 through March 31, 2013 exceed $31,266,239,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to a chapter establishing such fund. The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create

administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner

to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law,

and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures

authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the states.

The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but need provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this paragraph if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision 1 of this section; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision 4 of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period September 1, 2009 through March 31, 2010, for purposes of medical assistance coverage, "step therapy" shall mean the practice of beginning drug therapy for a medical condition with the most medically appropriate and cost effective therapy and progressing to other drugs as medically necessary; provided that the commissioner, through the prospective drug utilization review program, as established in section 369-aa of the social services law, is authorized to require step therapy when there is more than one drug appropriate to treat a medical condition; and provided further that the drug utilization review board, as established in section 369-cc of the social services law, shall recommend guidelines, which consider clinical effectiveness, safety, and cost effectiveness, for specific diagnoses and therapy regimens within which practitioners may prescribe drugs without the requirement for prior authorization of those drugs; provided, however, if this chapter provides sufficient additional funding to cover the

costs of drugs which are dispensed without regard to the step therapy method described herein, then the provisions of the section shall be deemed null and void as of February 28, 2009.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period September 1, 2009 through March 31, 2010, for purposes of medical assistance coverage, the commissioner is authorized to limit the amount, frequency and duration of drug therapy through prior authorization as part of the drug utilization review program established under title 11-C of article 5 of the social services law; provided, however, that clinical prescribing guidelines relating to the quantity, frequency and duration of drug therapy will be developed by the drug utilization review board for the commissioner's use in determining when to require prior authorization of drugs in the drug utilization review program, and provided further that exceptions to any prior authorization imposed as a result of these guidelines shall include, but need not be limited to, provision for emergency circumstances where a medical condition requires alleviation of severe pain or which threatens to cause disability or to take a life if not promptly treated; provided further, however, if this chapter provides sufficient additional funding to cover the costs of drugs prescribed without the limitations as to amount, frequency and duration described herein, then the provisions of this section shall be null and void as of February 28, 2009.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period September 1, 2009 through March 31, 2010, the commissioner is authorized to deny reimbursement under the medical assistance program for a generic equivalent drug, including a generic equivalent that is on the preferred drug list or the clinical drug review program, when the net cost of the brand name prescription drug, after consideration of all rebates, is less than the cost of the generic equivalent; provided further that the copayment charged for each such brand name prescription drug shall be $1 and the dispensing fee for each such brand name prescription drug shall be $4.50.

Notwithstanding any inconsistent provision of law, rule or regulation to the contrary, for the period April 1, 2009 through March 31, 2010, for the purposes of providing reimbursement under the medical assistance program, and subject to obtaining all necessary approvals under federal law and regulation to receive federal financial participation in the costs of services described herein, the commissioner of health is authorized to pay financial incentives to prescribing practitioners and to pharmacies for the purpose of encouraging the use of electronic prescriptions for drugs for which payments are made under this subdivision; provided that such payments shall be in the following amounts: for prescribing practitioners, eighty cents per dispensed electronic prescription; for dispensing pharmacies, twenty cents per dispensed electronic prescription; provided, however, that electronic prescribing software shall not use any means or permit any other person to use any means, including, but not limited to, advertising, instant messaging, and pop-up ads, to influence or attempt to influence, through

economic incentives or otherwise, the prescribing decision of a prescribing practitioner at the point of care and that such means shall not be triggered or in specific response to the input, selection, or act of a prescribing practitioner or his or her agent in prescribing a certain pharmaceutical or directing a patient to a certain pharmacy. Provided however that if this chapter provides sufficient additional funding to eliminate financial incentives to prescribing practitioners and to pharmacies for the purpose of encouraging the use of electronic prescriptions for drugs for which payments are made under this subdivision, then the provisions of this section shall be deemed null and void as of February 28, 2009

Notwithstanding any inconsistent provision of section 2807-c of the public health law or any other contrary provision of law, and subject to the availability of federal financial participation, rates of payment by governmental agencies for general hospital inpatient services with regard to discharges occurring on and after December 1, 2009 through March 31, 2010, shall be in accordance with the following:

(a) For periods on and after December 1, 2009 through March 31, 2010, the operating cost component of such rates of payment shall reflect the use of 2005 operating costs as reported by each facility to the department of health prior to December 1, 2008 and as otherwise computed in accordance with the provisions of this section and shall be in accordance with the following:

(i) The computation of a case mix neutral statewide base price applicable to each rate period, but excluding adjustments for graduate medical education costs, high cost outlier costs and cost related to patient transfers, and as may be periodically adjusted to reflect changes in provider coding patterns and case-mix; and

(ii) Only those 2005 base year costs which relate to the cost of services provided to medicaid inpatients, as determined by the

applicable ratio of costs to charges methodology, shall be utilized for rate-setting and case-mix purposes;

(iii) Such rates shall reflect the application of hospital specific wage equalization factors and power equalization factors reflecting differences in wage rates and utility costs;

(iv) Such rates shall reflect the utilization of the all patient refined (APR) case mix methodology, utilizing diagnostic related groups with assigned weights that incorporate differing levels of severity of patient condition and the associated risk of mortality, and as may be periodically updated by the commissioner of health;

(v) Such regulations may incorporate quality related measures pertaining to potentially preventable complications and readmissions;

(vi) Such regulations shall address adjustments based on the costs of high cost outlier patients;

(vii) Such rates shall continue to reflect trend factor adjustments as otherwise provided in paragraph (c) of subdivision 10 of section 2807-c of the public health law;

(viii) Such rates shall not include any adjustments pursuant to subdivision 9 of section 2807-c of the public health law;

(ix) Rates for non-public, not-for-profit general hospitals which have not, as of the effective date of this section, published an ancillary charges schedule as provided in paragraph (j) of subdivision 1 of section 2803 of the public health law shall have their inlier payments increased by an amount equal to the statewide average of cost outlier payments as determined by such regulations;

(x) Administrative rate appeals shall be permitted only with regard to: (A) the correction of computational errors or omissions of data, including with regard to the hospital specific computations pertaining to graduate medical education, wage equalization factor adjustments and power equalization factor adjustments, and (B) capital cost reimbursement.

(xi) Rates for teaching general hospitals shall include reimbursement for direct and indirect graduate medical education and the commissioner of health shall specify the reports and information required to assess the cost, quality and health system needs for medical education provided; and

(b) The provisions of this section shall not apply to those general hospitals or distinct units of general hospitals whose inpatient reimbursement does not, as of November 30, 2009, reflect case-based payments per diagnosis related group; and

(c) Notwithstanding section 112 or 163 of the state finance law or any other law, rule or regulation to the contrary, the commissioner of health may contract with a vendor for consideration to develop the specifications for the diagnosis-related groups methodology as provided for in this section if the commissioner of health certifies to the state comptroller that such contract is in the best interest of the health of the people of the state. Notwithstanding that such specifications shall be available pursuant to article 6 of the public officers law, such contract may provide that the specifications for such adjusted or additional diagnosis-related groups provided by the vendor shall be subject to copyright protection pursuant to federal copyright law; and

(d) Notwithstanding any inconsistent provision of this section or any other contrary provision of law, the commissioner of health may, for rate periods on and after July 1, 2009 through March 31, 2010, and subject to the availability of federal financial participation, make additional adjustments of up to $33,500,000 in aggregate to the inpatient rates of payment of eligible general hospitals, to facilitate improvements in hospital operations and finances, in accordance with the following:

(i) Such payments shall be available to non-public hospitals which, as determined by the commissioner of health, experience a reduction in their medicaid inpatient revenue as determined by the commissioner of health, as a result of the application of the provisions of paragraph (a) of this section.

(ii) Such payments shall be allocated based on each eligible facility's relative need as determined by the commissioner of health.

(iii) Such payments shall not be subject to retroactive adjustment or reconciliation and may be added to rates of payment or made as lump sum payments.

(iv) Each hospital receiving such payments shall, as a condition for eligibility for such payments, adopt a resolution of the board of directors of each such hospital setting forth its current financial condition and a plan for reforming and improving such financial condition, including ongoing board oversight, provided, however, if such report is not issued and adopted by each such board of directors, or if such report fails to set forth adequate progress, as determined by the commissioner of health, the commissioner of health may deem such facility ineligible for further such payments and may redistribute such further payments to other eligible facilities in accordance with the provisions of this paragraph. The commissioner of health shall be provided with copies of all such resolutions and reports; and

(e) Inpatient rate adjustments made pursuant to paragraphs (a) through (c) of this section shall result in a net statewide decrease in aggregate medicaid payments of no less than $75,000,000 for the period December 1, 2009 through March 31, 2010; and

(f) If the commissioner of health determines that federal financial participation will not be available with regard to the provisions of paragraph (d)(ii) herein, the commissioner of health may deem such provision null and void and instead may allocate payments proportionally, based on each eligible facility's relative share of medicaid inpatient discharges in the year two years prior to the distribution year; and

(g) Provided, however, if this chapter appropriates sufficient additional funds to support payments for general hospital inpatient services using the methodology in existence on February 28, 2009 as set forth in section 2807-c of the public health law, the provisions of this section shall not apply and shall be considered null and void as of February 28, 2009.

Notwithstanding any inconsistent provision of law and subject to the availability of federal financial participation, for the period April 1, 2009 through March 31, 2010, rates of payment by governmental agencies for general hospitals which are certified by the

office of alcoholism and substance abuse services to provide inpatient detoxification and withdrawal services and, with regard to inpatient services provided to patients who are determined to be in diagnosis-related groups numbered 743 , 744, 745, 746, 747, 748, 749, 750, or 751, shall be made on a per diem basis in accordance with the following:

(a) For each of the regions within the state as described in paragraph (e) of this section the commissioner of health shall determine the average per diem cost incurred by general hospitals in that region subject to the provisions of this section with regard to inpatients requiring medically managed detoxification services, as defined by applicable regulations promulgated by the office of alcoholism and substance abuse services. In determining such costs the commissioner of health shall utilize 2006 costs and statistics as reported by such hospitals to the department of health prior to 2008; and

(b) Per diem payments for inpatients requiring medically managed inpatient detoxification services shall reflect 100 percent of the per diem amounts computed pursuant to paragraph (a) of this section for the applicable region in which the facility is located and as trended forward to adjust for inflation, provided however, that such payments shall be reduced by 50 percent for any such services provided on or after the sixth day of services through the tenth day of services, and further provided that no payments shall be made for any services provided on or after the eleventh day; and

(c) Per diem payments for inpatients requiring medically supervised inpatient detoxification services, as defined by applicable regulations promulgated by the office of alcoholism and substance abuse services, shall reflect 37.5 percent of the operating cost component of the rates of payment effective December 31, 2007 and 62.5 percent of the per diem amounts computed pursuant to paragraph (a) of this section for the applicable region in which the facility is located for the period April 1, 2009 through December 31, 2009, and as trended forward to adjust for inflation, and shall reflect 75 percent of such per diem amounts for periods on and after January 1, 2010 through March 31, 2010, as trended forward to adjust for inflation, provided, however, that such payments shall be reduced by 50 percent for any services provided on or after the sixth day of services through the tenth day of services, and further provided that no payments shall be made for any services provided on and after the eleventh day; and

(d) Per diem payments for inpatients placed in observation beds, as defined by applicable regulations promulgated by the office of alcoholism and substance abuse services, shall be at the same level as would be paid pursuant to paragraph (a) of this section, provided, however, that such payments shall not apply for more than two days of care, after which payments for such inpatients shall reflect their designation as requiring either medically managed detoxification services or medically supervised withdrawal services, and further provided that days of care provided in such observation beds shall, for reimbursement purposes, be fully reflected in the computation of the initial five days of care as set forth in paragraphs (a) and (b) of this section; and

(e) For the purposes of this paragraph, the regions of the state shall be as follows:
(i) New York city, consisting of the counties of Bronx, New York, Kings, Queens and Richmond;

Notwithstanding any inconsistent provision of paragraph (e) of subdivision 4 of section 2807-c of the public health law or any other contrary provision of law and subject to the availability of federal financial participation, the operating cost component of per diem rates of payment by governmental agencies for inpatient services provided by a general hospital or a distinct unit of a general hospital for services, as described below, that would otherwise be subject to the provisions of paragraph (e) of subdivision 4 of section 2807-c of the public health law, shall, with regard to days of service occurring on and after December 1, 2009 through March 31, 2010, be in accord with the following:
