2011-2012 Regular Sessions

I N   A S S E M B L Y

February 3, 2011

---

Introduced by M. of A. CYMBROWITZ, PHEFFER, CASTRO, ABBATE, COLTON --  
Multi-Sponsored by -- M. of A. ROBINSON -- read once and referred to  
the Committee on Corporations, Authorities and Commissions

AN ACT to amend the public authorities law, in relation to prohibiting  
the metropolitan transportation authority from using cleaning materi-  
als or chemicals which may cause or exacerbate asthma

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-  
BLY, DO ENACT AS FOLLOWS:

1     Section 1.     Legislative intent. Occupational asthma has become the  
2 most prevalent work-related lung disease in developed countries. Accord-  
3 ing to the American Lung Association, ammonia and chlorine are among  
4 cleaning solvents and chemical irritants that have been proven asthma  
5 triggers.     According to the Federal Centers for Disease Control (CDC),  
6 asthma rates have gone up 105 percent for females over the past 15  
7 years, compared to about a 41 percent increase for males. Asthma hits  
8 the highest in low income neighborhoods with the largest minority popu-  
9 lation, these are the people who use public transportation the most.  
10     Furthermore, the Agency for Toxic Substance and Disease Registry  
11 (ATSDR) says that over the past decade, the prevalence of asthma in both  
12 children and adults has increased in the United States. Workplace expo-  
13 sures have been linked to exacerbations of asthma.  
14     The American Academy of Allergy, Asthma and Immunology, further indi-  
15 cates that while a previous personal or family history of allergies will  
16 make a person more likely to develop occupational asthma, many individ-  
17 uals who have no such history still will develop this disease if exposed  
18 to conditions that trigger it.  
19     One cause of occupational asthma is known as Direct Irritant Effects.  
20 These are irritants that provoke occupational asthma and include hydro-  
21 chloric acid, sulfur dioxide or ammonia, which is found in the petroleum  
22 or chemical industries. Workers exposed to these substances will  
23 frequently begin wheezing and experiencing other asthma symptoms imme-

EXPLANATION--Matter in *ITALICS* (underscored) is new; matter in brackets  
[ ] is old law to be omitted.

LBD07756-01-1

diately after exposure to the irritant substance. Workers who already have asthma or some other respiratory disorder are particularly affected by this type of exposure.

It is therefore, the intent and purpose of the legislature to prevent the use of those cleaning materials and chemicals which may cause persons employed by, or persons using the facilities and equipment of, the metropolitan transportation authority to develop asthma, or to have symptoms of asthma triggered or exacerbated.

S 2. The public authorities law is amended by adding a new section 1279-d to read as follows:

S 1279-D. PROHIBITED USE OF ASTHMA CAUSING CHEMICALS. 1. NOTWITHSTANDING ANY OTHER LAW, RULE OR REGULATION TO THE CONTRARY, THE METROPOLITAN TRANSPORTATION AUTHORITY SHALL NOT USE FOR ANY PURPOSE, INCLUDING THE CLEANING AND MAINTENANCE OF ITS FACILITIES AND EQUIPMENT, CLEANING MATERIALS OR CHEMICALS EXPOSURE TO WHICH MAY CAUSE PERSONS TO DEVELOP THE DISEASE OF ASTHMA, OR WHICH MAY EXACERBATE OR TRIGGER THE SYMPTOMS OF ASTHMA.

2. A DETERMINATION OF WHICH CLEANING MATERIALS OR CHEMICALS EXPOSURE TO WHICH MAY CAUSE PERSONS TO DEVELOP THE DISEASE OF ASTHMA, OR WHICH MAY EXACERBATE OR TRIGGER THE SYMPTOMS OF ASTHMA, SHALL BE MADE BY THE COMMISSIONER OF HEALTH OF THE STATE OF NEW YORK WHO SHALL PROMULGATE A LIST OF SUCH CLEANING MATERIALS OR CHEMICALS AND TRANSMIT THE LIST TO THE CHAIRMAN OF THE METROPOLITAN TRANSPORTATION AUTHORITY FORTHWITH.

S 3. This act shall take effect on the one hundred eightieth day after it shall have become a law.
