6 life refuge systems represents an unnecessary threat, whether intentional
7 or unintentional, to the health and safety of citizens invited to
8 enjoy these public recreational opportunities as well as the wildlife
9 preserved within such recreation areas. Therefore, it is the purpose of
10 the legislature to protect the health, safety and welfare of the public
11 and prohibit the possession of a concealed firearm in all national parks
12 and national wildlife refuge systems, except as specifically provided by
13 law.
