Introduced by M. of A. BARRON -- read once and referred to the Committee
on Small Business

AN ACT to amend the New York state urban development corporation act, in
relation to creating niche market assistance projects to promote
economic development

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEM-
BLY, DO ENACT AS FOLLOWS:

1 Section 1. Statement of legislative intent. Small manufacturing enter-
2 prises are responsible for an estimated twenty-eight to forty percent of
3 employment in the manufacturing sector. They tend to be more effective
4 at job creation and job replacement, more innovative in the development
5 of products and process improvements, more flexible, and thus more
6 competitive, in terms of the ability to produce small quantities. All of
7 these factors help to explain the shift to smaller and average sized
8 plants and the national trend toward more of the total production of
9 goods coming from small manufacturers.
10 Small manufacturing enterprises, often owned by minorities and new
11 immigrants, have been growing. Leading this expansion in New York are
12 specialty and ethnic food manufacturers, which have grown by more than
13 eight percent over the past year. Other evidence suggests that there is
14 similar growth in construction; specialty apparel for niche markets and
15 other design-based manufacturing industries such as luxury consumer
16 goods like jewelry; medical instruments; suppliers to service indus-
17 tries; and companies serving local markets, such as makers of food
18 products or suppliers of construction materials.
19 Often, small manufacturers can not only survive, but grow, if they can
20 identify and develop niche markets - targeted markets composed of indi-
21 viduals and businesses that have similar interests and needs, which can
22 be readily identified, and that can be easily targeted and reached, or a
23 group of potential customers who share common characteristics making
