PART A

Section 1. Legislative intent. Organized retail theft is a growing problem for retailers in this state and throughout the United States. It is committed by professional theft rings which move across communities and states to pilfer merchandise from supermarkets, chain drugstores, independent pharmacies, mass merchandisers and convenience stores, then resell that merchandise over the internet, at flea markets and to the stores from which it was stolen. Popular items include infant formula, skin care products, heartburn medications and shaving products. According to the Federal Bureau of Investigation, organized retail theft losses have amounted to as much as $30 billion. This act is intended to provide an additional tool to retailers to fight back against these shoplifting gangs.
