c. (i) Prior to issuing a solicitation for such food products, purchasing agencies shall advise the commissioner of agriculture and markets of the quantities of each food product on the list promulgated by the commissioner of agriculture and markets to fulfill that agency's purchasing needs.

(ii) The commissioner of agriculture and markets will then make a determination of whether those products required by the purchasing agency are available in sufficient quantities to satisfy the purchasing agency's requirements.

(iii) Upon a determination by the commissioner of agriculture and markets that the food products required by the purchasing agency are available in sufficient quantities to fulfill the agency's purchasing needs, the purchasing agency [may] SHALL include in its solicitation a requirement that all or some of those food products are grown, produced or harvested in New York state, or that any processing of such food products take place in facilities located within New York state.

(iv) Upon a determination by the commissioner of agriculture and markets that such food products are not available in sufficient quantities to fulfill the agency's purchasing needs, the purchasing agency shall issue a solicitation that does not require that all or some of those food products are grown, produced or harvested in New York state, or that any processing of such food products take place in facilities located within New York state. In such cases, the purchasing agency [may] SHALL include such requirements in the next contract for such food products that is let if at such time those food products are available in sufficient quantities. If at that time, those food products are not available in sufficient quantities, the requirement shall again be waived until such time as the products are available.

(v) In the event that the purchasing agency receives no offers that meet the agency's requirement that all or some of the food products are grown, produced or harvested in New York state, or that any processing of such food products take place in facilities located within New York state, it may waive the provisions of this subdivision and award a contract in accordance with other applicable statutes. [In addition, if the commissioners of agriculture and markets, economic development and any such individual agency shall agree as to the deleterious economic impact of specifications requiring such purchases, such agencies may waive the provisions of this subdivision for such purchases.]

d. The commissioner, and the commissioner of agriculture and markets, may issue such regulations as they deem necessary and proper for the implementation of this subdivision.

e. Notwithstanding any other section of law, rule, regulation or statute, the department of agriculture and markets shall supply information required by paragraph b of this subdivision to the office of general services and to all other appropriate agencies.

f. (i) With each offer, the offerer shall certify that the food products provided pursuant to that solicitation will be in conformity with the provisions of the [percentage required to meet or exceed the] requirements in the solicitation specifying that all [or some] of the food products be grown, produced, or harvested within New York state or that any processing of such food products take place in facilities located within New York state.

(ii) Any successful offerer who fails to comply with the provisions of this subdivision, at the discretion of such agency, board, office or

1 commission, shall forfeit the right to bid on contracts let under the
2 provisions of this subdivision for a period of time to be determined by
3 the commissioner and the commissioner of agriculture and markets.
