and for the protection of the life and limb of the persons using the same. Upon the application of any person interested, the commissioner shall make a determination as to whether or not on any public project or on all public projects in any area of this state, sufficient laborers, workers and mechanics of any or all classifications can be employed to carry on work expeditiously if their labor is restricted to eight hours per day and five days per week, and in the event that the commissioner determines that there are not sufficient workers, laborers and mechanics of any or all classifications which may be employed to carry on such work expeditiously if their labor is restricted to eight hours per day and five days per week, and the immediate commencement or prosecution or completion without undue delay of the public work is necessary in the judgment of the commissioner for the preservation of the contract site and for the protection of the life and limb of the persons using the same, the commissioner shall grant a dispensation permitting all laborers, workers and mechanics, or any classification of such laborers, workers and mechanics, to work such additional hours or days per week on such public project or in such areas the commissioner shall determine. Whenever such a dispensation is granted, all work in excess of eight hours per day and five days per week shall be considered overtime work, and the laborers, workers and mechanics performing such work shall be paid a premium wage commensurate with the premium wages prevailing in the area in which the work is performed. No such dispensation shall be effective with respect to any public work unless and until the department of jurisdiction, as defined in this section, certifies to the commissioner that such public work is of an important nature and that a delay in carrying it to completion would result in serious disadvantage to the public. Time lost in any week because of inclement weather by employees engaged in the construction, reconstruction and maintenance of highways outside of the limits of cities and villages may be made up during that week and/or the succeeding three weeks.
