## 2011-2012 Regular Sessions

IN SENATE

January 6, 2011

Introduced by Sen. STAVISKY -- read twice and ordered printed, and when printed to be committed to the Committee on Higher Education

AN ACT to amend the education law, in relation to the educational preparation for practice of professional nursing

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

The legislature hereby finds and declares that with the Section 1. 1 2 increasing complexity of the American healthcare system and rapidly 3 expanding technology, the educational preparation of the registered professional nurse must be expanded. The nurse of the future must be 4 5 prepared to partner with multiple disciplines as a collaborator and б manager of the complex patient care journey. Shorter lengths of stays, higher patient acuity, and more sophisticated technologies and proce-7 dures are increasing the complexity of patient care - which in turn 8 9 places great demands on nursing competencies. Other countries are responding to these changes by requiring the baccalaureate degree as an 10 entry requirement for nursing licensure while other professions are 11 12 demanding master and doctoral degrees as their entry point. Several 13 recent research studies clearly demonstrate the added value of addi-14 tional education in relation to improved patient outcomes; one study 15 demonstrates that each ten percent increase in the number of baccalaureate prepared nurses results in a five percent decrease in 16 surgical 17 patient deaths. Therefore, the legislature finds that expanding the educational requirements for the profession of nursing, while maintain-18 19 ing the multiple entry points into the profession, is needed. This bill 20 affects future nurses graduating from associate degree or diploma nursing programs who would be required to obtain a baccalaureate in nursing 21 within ten years of initial licensure. All current nurses licensed in 22 23 New York and students in programs preparing for registered professional 24 nursing are to be exempt from the new requirement. This legislation is 25 mirrored after the progressive education requirement for teachers in New

York state. Numerous regulatory and accrediting bodies have recommended 1 2 this change as a means to address sophisticated patient care needs 3 resulting from shorter lengths of stay, higher acuity and more sophisti-4 cated interventions. This proposal is the result of a growing body of research evidence that additional education results in better patient 5 6 Therefore by requiring the baccalaureate degree for continued outcomes. 7 registration as a registered professional nurse this bill seeks to be 8 responsive to meet the increasingly complex health care needs of the residents of New York state. 9
