## 2011-2012 Regular Sessions

## IN SENATE

January 7, 2011

Introduced by Sen. PERKINS -- read twice and ordered printed, and when printed to be committed to the Committee on Energy and Telecommunications

AN ACT to amend the public service law, in relation to notification to utility customers of their right to direct access to public service commission complaint procedures without arbitration or court proceedings

Some providers of electric service refer customers to private arbitration or judicial adjudication of utility customer complaints, contrary to the primary jurisdiction of the public service commission, creating barriers to the efficient and uniform enforcement and administration of the Home Energy Fair Practices Act. The legislature further finds that it is in the public interest to require the public service commission to notify all residential utility customers of their right to file complaints directly with the public service commission for administrative determination without pursuing third party arbitration or judicial relief.

- S 2. Subdivision 1 of section 43 of the public service law, as added by chapter 713 of the laws of 1981, is amended to read as follows:
- 1. The commission shall maintain regulations for the handling of residential customer complaints, which at a minimum shall require that each utility or municipality: (a) maintain procedures for prompt investigation of any complaint on a bill for gas or electric service rendered or a deposit required and for prompt reporting to the complainant of the result of such investigation. If such report is made orally, the utility corporation or municipality shall offer the complainant upon a writ-
