Introduced by Sen. KRUGER -- read twice and ordered printed, and when printed to be committed to the Committee on Education

AN ACT to amend the education law, in relation to enacting the school technology planning act

THE PEOPLE OF THE STATE OF NEW YORK, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

- 1 Section 1. Short title. This act shall be known and may be cited as  
2 the "School Technology Planning Act".  
3 S 2. Legislative findings. a. The legislature finds that:  
4 i. Beginning with the 1997--1998 school year, schools became eligible  
5 for federally mandated telecommunications discounts. Schools must apply  
6 for these dollars and will receive discounts on a first-come first-serve  
7 basis. Typically, districts best poised to access discounts and the  
8 scores of public and private grants available for educational technology  
9 are those which are more technologically advanced. Districts which are  
10 typically less successful in accessing aid are those that need technical  
11 assistance and do little or no planning.  
12 ii. A good percentage of districts in New York state do not have a  
13 technology plan or have a plan lacking essential components. Planning is  
14 crucial to effective use of technology integration into curriculum.  
15 District technology planning activities go a long way in helping  
16 districts plan, implement their plans, seek funds, coordinate and  
17 conduct teacher training, provide in-house technical assistance, and  
18 maintain technology systems.  
19 b. The legislature declares its intent to ameliorate the deficiencies  
20 it has identified in subdivision a of this section through the enactment  
21 of this act in furtherance of equipping our students with the most  
22 up-to-date educational tools needed for them to be self-sufficient func-  
23 tioning members of society by participating in the technology that is  
24 revolutionizing that society.

EXPLANATION--Matter in ITALICS (underscored) is new; matter in brackets  
[ ] is old law to be omitted.
