Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; and for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents and persons in need of supervision placed in residential programs operated by authorized agencies and in out-of-state residential programs.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2011-12 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in

accordance with the requirements of the cost of living adjustment established by the office. Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2011 through March 31, 2012 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2010 that are submitted on or before January 3, 2011 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 95.4 percent of 65 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block

grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2011.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services

districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total

applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services'

re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice laws and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time

frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, the money hereby appropriated shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund - local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.

Notwithstanding any other provision of law, if a social services district fails to provide reimbursement to the office of children and family services pursuant to section 529 of the executive law within 60 days of receiving a bill for services under such section, or by the date certain set by such office for providing reimbursement, whichever is later, the offices of the department of family assistance are authorized to exercise the state's set-off rights by withholding any amounts due and owing to such district under this appropriation, up to such amounts due and owing to the state under section 529 of the executive law and transferring such funds to the miscellaneous special revenue fund (339) youth facility per diem account (YF) 436,002,000

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, the money hereby appropriated shall be available to the office net of disallowances, refunds, reimbursements, and credits; provided, however, that notwithstanding any other provision of law, for a district to receive reimbursement for such services, the amount of funds that the district expends on such services from its flexible fund for family services allocation and any flexible fund for family services

funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefore, be equal to or greater than the district's portion of the $342,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget and the amount of title XX funds the district expends on such services must, to the extent that the families are eligible therefore, be equal to or greater than the district's portion of the title XX social services block grant funds allocated to such district for such services.

Notwithstanding any other provision of law, the office of children and family services shall reissue per diem rates, required pursuant to section 529 of the executive law, for calendar years 2002 through 2009 to remove any adjustments to the costs included in determining such rates to reflect any changes in federal funding made available to the office or to local social services districts for such costs and, provided further, the office shall not include any such adjustments in per diem rates established hereafter.

Such evaluation shall include available information regarding the pilot programs or participants in the pilot programs, including but not limited to: the number of income-eligible children of working parents with income greater than two hundred percent but at or less than two hundred seventy-five percent of the federal poverty level, the ages of the children served by the project, the number of families served by the project who are in receipt of family assistance, the factors that parents considered when searching for child care, the factors that barred the families' access to child care assistance prior to their enrollment in the facilitated enrollment program, the number of families who receive a child care subsidy pursuant to this program who choose to use such subsidy for regulated child care, and the number of families who receive a child care subsidy pursuant to this program who choose to use such subsidy to receive child care services provided by a legally exempt provider.

Such report shall be submitted by the applicable project administrator, on or before November 1, 2008, provided that if such report is not received by November 30, 2008, reimbursement for administrative costs shall be either reduced or withheld, and failure of an administrator to submit a timely report may jeopardize such administrator's program from receiving funding in future years.

The administrative cost, including the cost of the development of the evaluation of the pilot programs, shall not exceed ten percent of the funds available for this purpose. The remaining portion of the

funds shall be allocated by the office of children and family services to the local social services districts where the recipient families reside as determined by the project administrator based on projected needs and cost of providing child care subsidy payments to working families enrolled in the child care subsidy program through the pilot initiative, provided however a local social services district located in a city with a population of one million or more, shall not reimburse subsidy payments in excess of the amount the subsidy funding appropriated herein can support.

Child care subsidies paid on behalf of eligible families shall be reimbursed at the actual cost of care up to the applicable market rate for the district in which the child care is provided, for subsidy payments made from April 1, 2008 through March 31, 2009 in accordance with the fee schedule of the social services district making the subsidy payments. The administrator for this pilot project is required to submit monthly reports that provide current enrollment and information including, but not limited to, the amount of the approved subsidy level, the level of co-payment by the social services district required for the participants in the program, the program's adopted budget reflecting all expenses including salaries and other information as needed, to the office of children and family services, the senate chairs of the committee on social services, children and families, the senate committee on labor, the assembly chairs of the committee on children and families, the assembly committee on social services, the local social services district and for projects located in a city having a population of one million or more to the administration for children's services. Provided however that if such monthly reports are not received from an administrator, reimbursement for administrative cost shall be either reduced or withheld and failure of an administrator to submit a timely report may jeopardize such administrator's program from receiving funding in future years. The office of children and family services shall provide technical assistance to the pilot program to assist in timely coordination with the monthly claiming process.

Notwithstanding any other provision of law, the pilot program maintained herein may be terminated if the administrator for such program mismanages such program, by engaging in actions including but not limited to, improper use of funds, providing for child care subsidies in excess of the amount the subsidy funding appropriated herein can support, and failing to submit claims for reimbursement in a timely fashion ... 1,000,000 ..... Provided however that if this chapter provides sufficient additional funding to eliminate financial incentives to prescribing practitioners and to pharmacies for the purpose of encouraging the use of electronic prescriptions for drugs for which payments are made under this subdivision, then the provisions of this section shall be deemed null and void as of February 28, 2009

(i) The computation of a case mix neutral statewide base price applicable to each rate period, but excluding adjustments for graduate medical education costs, high cost outlier costs and cost related to patient transfers, and as may be periodically adjusted to reflect changes in provider coding patterns and case-mix; and

(ii) Only those 2005 base year costs which relate to the cost of services provided to medicaid inpatients, as determined by the applicable ratio of costs to charges methodology, shall be utilized for rate-setting and case-mix purposes;

(iii) Such rates shall reflect the application of hospital specific wage equalization factors and power equalization factors reflecting differences in wage rates and utility costs;

(iv) Such rates shall reflect the utilization of the all patient refined (APR) case mix methodology, utilizing diagnostic related groups with assigned weights that incorporate differing levels of severity of patient condition and the associated risk of mortality, and as may be periodically updated by the commissioner of health;

(v) Such regulations may incorporate quality related measures pertaining to potentially preventable complications and readmissions;

(vi) Such regulations shall address adjustments based on the costs of high cost outlier patients;

(vii) Such rates shall continue to reflect trend factor adjustments as otherwise provided in paragraph (c) of subdivision 10 of section 2807-c of the public health law;

(viii) Such rates shall not include any adjustments pursuant to subdivision 9 of section 2807-c of the public health law;

(ix) Rates for non-public, not-for-profit general hospitals which have not, as of the effective date of this section, published an ancillary charges schedule as provided in paragraph (j) of subdivision 1 of section 2803 of the public health law shall have their inlier payments increased by an amount equal to the statewide average of cost outlier payments as determined by such regulations;

(x) Administrative rate appeals shall be permitted only with regard to: (A) the correction of computational errors or omissions of data, including with regard to the hospital specific computations pertaining to graduate medical education, wage equalization factor adjustments and power equalization factor adjustments, and (B) capital cost reimbursement.

(xi) Rates for teaching general hospitals shall include reimbursement for direct and indirect graduate medical education and the commissioner of health shall specify the reports and information required to assess the cost, quality and health system needs for medical education provided; and

(b) The provisions of this section shall not apply to those general hospitals or distinct units of general hospitals whose inpatient reimbursement does not, as of November 30, 2009, reflect case-based payments per diagnosis related group; and

(c) Notwithstanding section 112 or 163 of the state finance law or any other law, rule or regulation to the contrary, the commissioner of health may contract with a vendor for consideration to develop the specifications for the diagnosis-related groups methodology as provided for in this section if the commissioner of health certifies to the state comptroller that such contract is in the best interest of the health of the people of the state. Notwithstanding that such specifications shall be available pursuant to article 6 of the public officers law, such contract may provide that the specifications for such adjusted or additional diagnosis-related groups provided by the vendor shall be subject to copyright protection pursuant to federal copyright law; and

(d) Notwithstanding any inconsistent provision of this section or any other contrary provision of law, the commissioner of health may, for rate periods on and after July 1, 2009 through March 31, 2010, and subject to the availability of federal financial participation, make additional adjustments of up to $33,500,000 in aggregate to the inpatient rates of payment of eligible general hospitals, to facilitate improvements in hospital operations and finances, in accordance with the following:

(i) Such payments shall be available to non-public hospitals which, as determined by the commissioner of health, experience a reduction in their medicaid inpatient revenue as determined by the commissioner of health, as a result of the application of the provisions of paragraph (a) of this section.

(ii) Such payments shall be allocated based on each eligible facility's relative need as determined by the commissioner of health.

(iii) Such payments shall not be subject to retroactive adjustment or reconciliation and may be added to rates of payment or made as lump sum payments.

(iv) Each hospital receiving such payments shall, as a condition for eligibility for such payments, adopt a resolution of the board of directors of each such hospital setting forth its current financial condition and a plan for reforming and improving such financial condition, including ongoing board oversight, provided, however, if such report is not issued and adopted by each such board of directors, or if such report fails to set forth adequate progress, as determined by the commissioner of health, the commissioner of health may deem such facility ineligible for further such payments and may redistribute such further payments to other eligible facilities in accordance with the provisions of this paragraph. The commissioner of health shall be provided with copies of all such resolutions and reports; and

(e) Inpatient rate adjustments made pursuant to paragraphs (a) through (c) of this section shall result in a net statewide decrease in aggregate medicaid payments of no less than $75,000,000 for the period December 1, 2009 through March 31, 2010; and

(f) If the commissioner of health determines that federal financial participation will not be available with regard to the provisions of paragraph (d)(ii) herein, the commissioner of health may deem such provision null and void and instead may allocate payments proportionally, based on each eligible facility's relative share of medicaid inpatient discharges in the year two years prior to the distribution year; and

(g) Provided, however, if this chapter appropriates sufficient additional funds to support payments for general hospital inpatient services using the methodology in existence on February 28, 2009 as set forth in section 2807-c of the public health law, the provisions of this section shall not apply and shall be considered null and void as of February 28, 2009.

Notwithstanding any inconsistent provision of law and subject to the availability of federal financial participation, for the period April 1, 2009 through March 31, 2010, rates of payment by governmental agencies for general hospitals which are certified by the office of alcoholism and substance abuse services to provide inpatient detoxification and withdrawal services and, with regard to inpatient services provided to patients who are determined to be in diagnosis-related groups numbered 743 , 744, 745, 746, 747, 748, 749, 750, or 751, shall be made on a per diem basis in accordance with the following:

(c) Per diem payments for inpatients requiring medically supervised inpatient detoxification services, as defined by applicable regulations promulgated by the office of alcoholism and substance abuse services, shall reflect 37.5 percent of the operating cost component of the rates of payment effective December 31, 2007 and 62.5 percent of the per diem amounts computed pursuant to paragraph (a) of this section for the applicable region in which the facility is located

for the period April 1, 2009 through December 31, 2009, and as trended forward to adjust for inflation, and shall reflect 75 percent of such per diem amounts for periods on and after January 1, 2010 through March 31, 2010, as trended forward to adjust for inflation, provided, however, that such payments shall be reduced by 50 percent for any services provided on or after the sixth day of services through the tenth day of services, and further provided that no payments shall be made for any services provided on and after the eleventh day; and

(d) Per diem payments for inpatients placed in observation beds, as defined by applicable regulations promulgated by the office of alcoholism and substance abuse services, shall be at the same level as would be paid pursuant to paragraph (a) of this section, provided, however, that such payments shall not apply for more than two days of care, after which payments for such inpatients shall reflect their designation as requiring either medically managed detoxification services or medically supervised withdrawal services, and further provided that days of care provided in such observation beds shall, for reimbursement purposes, be fully reflected in the computation of the initial five days of care as set forth in paragraphs (a) and (b) of this section; and

(e) For the purposes of this paragraph, the regions of the state shall be as follows:
