20 existed on June 30, 2008.

21 S 4. This act shall take effect immediately.

FISCAL NOTE.-- Pursuant to Legislative Law, Section 50:

This bill would extend the effective period of the provisions of Section 363-f of the Retirement and Social Security Law, which provides that any condition or impairment of health caused by diseases of the lung, resulting in disability or death to a firefighter shall be presumptive evidence that, unless the contrary be proven by competent evidence, such disability or death was caused by the natural and proximate cause of an accident, and was incurred in the performance and discharge of duty.

If this bill is enacted, we do not anticipate that there would be an additional cost since these provisions are included among those which are regularly extended by the passage of the legislation which provides for the "extension of all temporary rights and benefits".

This estimate, dated December 28, 2010, and intended for use only during the 2011 Legislative Session, is Fiscal Note No. 2011-78, prepared by the Actuary for the New York State and Local Police and Fire Retirement System.
